Audio/Video Report

On Friday, December 14, 2012 the Connecticut State Police Central District Major Crime Squad (CDMCS) was requested to assist the Newtown Police Department and the Connecticut State Police Western District Major Squad with the scene processing of a school shooting. The incident occurred at the Sandy Hook Elementary School, located at 12 Dickenson Drive in the Town of Newtown, Connecticut. CDMCS was assigned to process the outdoor scene as well as conduct a survey of the vehicles parked in the parking lot.

During the course of the investigation, I was assigned to create a video recording to document the outdoor scene processing and to document the items of evidentiary value that were seized during this portion of the investigation. The video was created by utilizing a Connecticut State Police Central District Major Crime Squad issued "Sony" model HDR-CX110 Handycam and the video footage was recorded on a digital media card.

At the conclusion of the investigation, the digital media card was downloaded and the video was copied onto a Memorex DVD-R which was submitted to the State of Connecticut Department of Emergency Services and Public Protection Forensic Science Laboratory where copies of the video were reproduced. The original DVD-R's will be placed on file at the Central District Major Crime Squad Office, located at 294 Colony Street, Building #1, Meriden, Connecticut, telephone number (203) 630-5650. Copies of the DVD-R can be made upon request.

The digital media card was reformatted for future use and no longer contains the video captured regarding this incident.

Audio/Video Report

On Friday, December 14, 2012 the Connecticut State Police Central District Major Crime Squad (CDMCS) was requested to assist the Newtown Police Department and the Connecticut State Police Western District Major Squad with the scene processing of a school shooting. The incident occurred at the Sandy Hook Elementary School, located at 12 Dickenson Drive in the Town of Newtown, Connecticut. CDMCS was assigned to process the outdoor scene as well as conduct a survey of the vehicles parked in the parking lot. During the course of the investigation, investigators identified the following three (3) vehicles that sustained bullet strikes during the incident:

1. Connecticut Registration - 600 TVG
2. Connecticut Registration - 144 WDM
3. Connecticut Registration – 913 UNY

On Sunday, December 16, 2012 at approximately 1400 hours, I was assigned to create a video recording to document the processing of these vehicles and to document the items of evidentiary value that were seized during this portion of the investigation.

The video was created by utilizing a Connecticut State Police Central District Major Crime Squad issued "Sony" model HDR-CX110 Handycam and the video footage was recorded on a digital media card.

At the conclusion of the investigation, the digital media card was downloaded and the video was copied onto a Memorex DVD-R which was submitted to the State of Connecticut Department of Emergency Services and Public Protection Forensic Science Laboratory where copies of the video were reproduced. The original DVD-R's will be placed on file at the Central District Major Crime Squad Office, located at 294 Colony Street, Building #1, Meriden, Connecticut, telephone number (203) 630-5650. Copies of the DVD-R can be made upon request.

The digital media card was reformatted for future use and no longer contains the video captured regarding this incident.

Audio/Video Report

On Friday, December 14, 2012 the Connecticut State Police Central District Major Crime Squad (CDMCS) was requested to assist the Newtown Police Department and the Connecticut State Police Western District Major Squad with the scene processing of a school shooting. The incident occurred at the Sandy Hook Elementary School, located at 12 Dickenson Drive in the Town of Newtown, Connecticut. CDMCS was assigned to process the outdoor scene as well as conduct a survey of the vehicles parked in the parking lot. During the course of the investigation, investigators identified the following vehicle believed to have been driven to the scene by the suspect, later identified as Adam Lanza.

1. Connecticut Registration – 872 YEO

The vehicle was towed from the scene and secured at Troop A in Southbury. The tow was coordinated by members of the Connecticut State Police Western District Major Crime Squad (WDMCS).

On Friday, December 21, 2012 at approximately 1200 hours, I was assigned to create a video recording to document the processing of this vehicle and to document the items of evidentiary value that were seized during this portion of the investigation.

The video was created by utilizing a Connecticut State Police Central District Major Crime Squad issued "Sony" model HDR-CX110 Handycam and the video footage was recorded on a digital media card.

At the conclusion of the investigation, the digital media card was downloaded and the video was copied onto a Memorex DVD-R which was submitted to the State of Connecticut Department of Emergency Services and Public Protection Forensic Science Laboratory where copies of the video were reproduced. The original DVD-R's will be placed on file at the Central District Major Crime Squad Office, located at 294 Colony Street, Building #1, Meriden, Connecticut, telephone number (203) 630-5650. Copies of the DVD-R can be made upon request.

The digital media card was reformatted for future use and no longer contains the video captured regarding this incident.

ACTION TAKEN:

On December 17, 2012 requests for personal property from victims was being aggressively pursued by family members by way of support troopers, so as they could intern their loved ones with their personal effects. As such, a decontamination station was set up to clean heavily bio-hazardous soiled pieces of jewelry, ID badges, glasses and the like. As part of this process, various detectives and I took the attached digital pictures of all property in possession of the van detectives as received from the OCME, by way of Det. Mathew Greenstein. Each item released from the Van unit was accompanied by a JD-CR-18 and released from our collective custody to that of the family support trooper. In most cases the support trooper in turn had the representative family member sign a receipt of the property, and the copy was returned to the van. JD-CR-18 copies and originals were handled by Det. Sliby, the assigned evidence officer for the scene. See his detailed reported.

The photos were taken with my assigned Digital NIKON D300 SLR camera with a built in flash. A total of 30 images were taken. The photos were temporarily stored on a compact flash drive, until they could be burned to CD for long term archival. An original disk was burned forwarded to the State Police Forensic Lab Photography Unit, who remains the central repository for department photographic records.

Photo No.1 depicts a view of the banker's box that Ms. Soto's belongings were placed in by scene detectives and released to family members from the scene.

Photo No. 2 depicts the contents and valuables (Ms. Soto's) within the box.

Photo No. 3 depicts an identification photo of Ms. Soto's license.

Photo No. 4 depicts the jewelry of Mrs. Dawn Hochsprung.

SKETCH MAP REPORT-

THIS MAP ALSO ATTACHED UNDER THE NEXGEN / LEAS MAJOR CRIME TAB

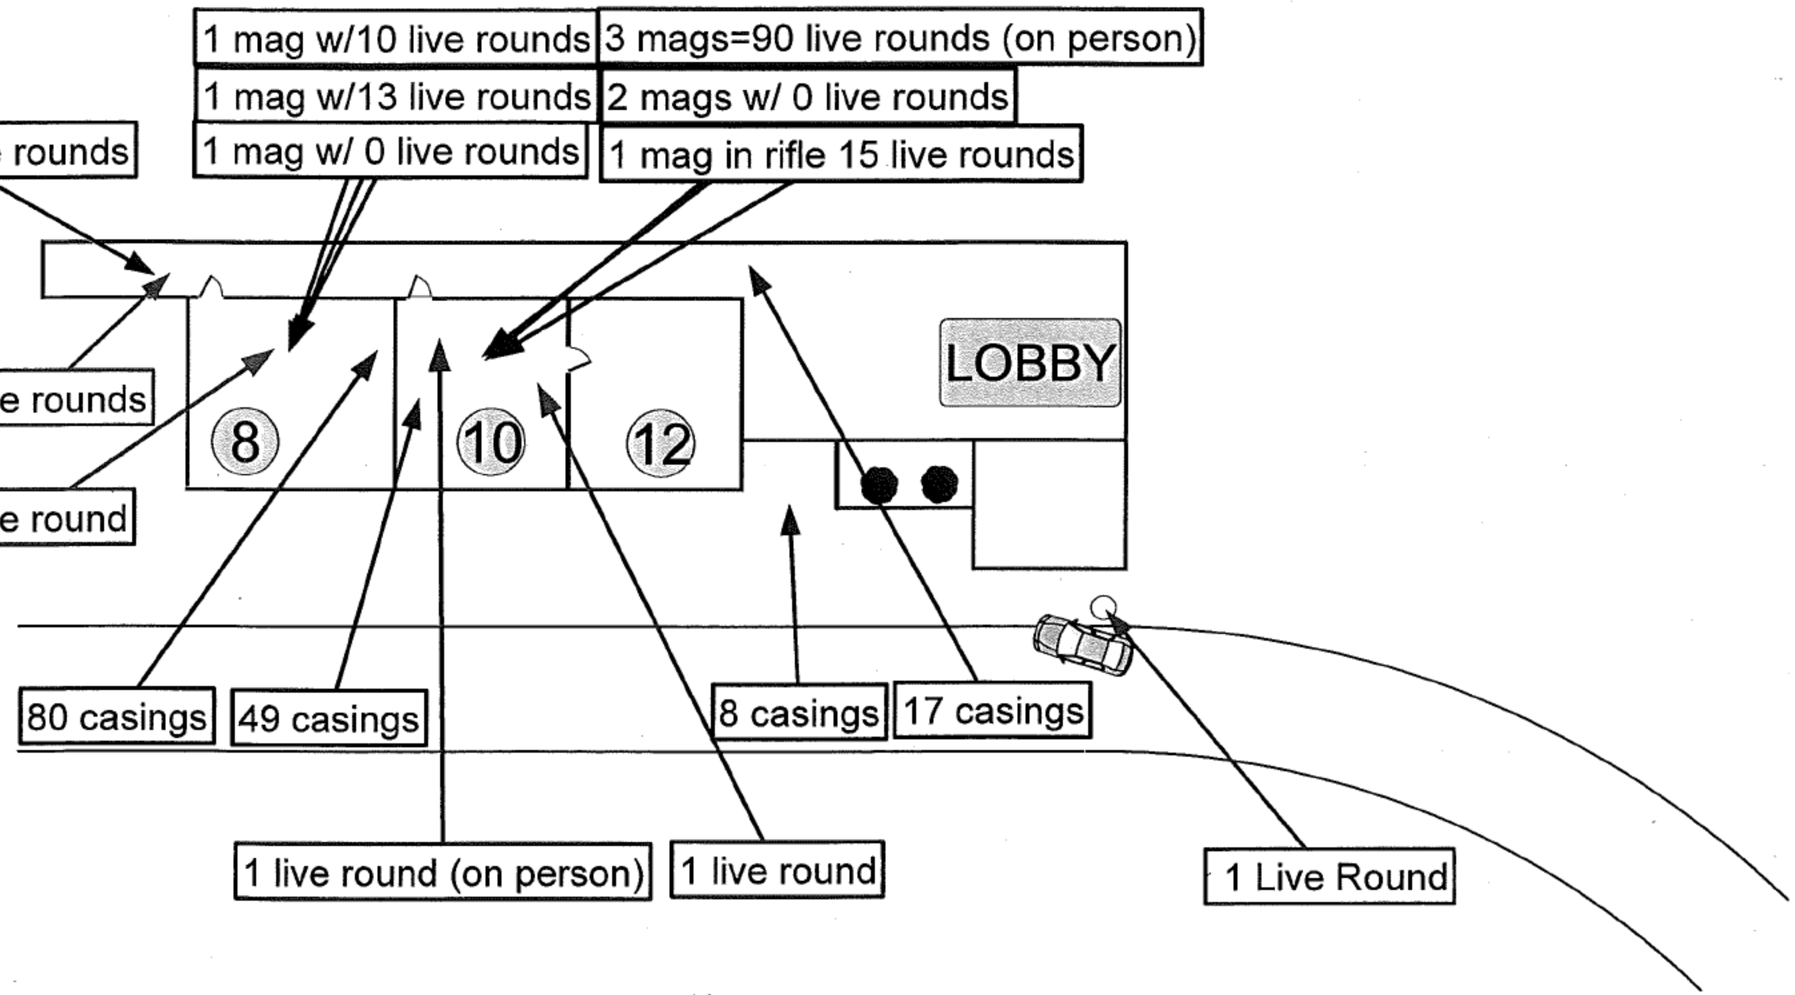

On Thursday, January 10th, 2013, this Detective produced a sketch map in reference to the Sandy Hook School shooting which occurred on December 14th, 2012. This map only serves to give an approximate location of 5.56 live rounds, casings and magazines as found prior to collection.

This map was produced using Scene PD 5 mapping program.

Primary Photo Report Clothes Drying

ACTION TAKEN:

On December 15, 2012 at approximately 1751 hours Det. Sliby took into custody the clothing of victims from Det. Greenstein, as collected as evidence by him from OCME, and transported to the Western District Crime Van located in Newtown.

After the clothing was collected and inventoried from Det. Greenstein, the clothing was staged in the heated temporary morgue, which had been converted into a massive drying tent for the heavily soiled clothing. Temporary clothes lines were fastened to the interior of the tent and each was marked with an evidence marker so designated by evidence officer Det. Sliby. These items were each crossed referenced against the OCME issued number, where positive identification had been made by that office. The clothing was unfurled and hung with heavily soiled sections nearest to the floor, on either a solo line, or a line that was specifically designated by evidence markers to dry two victims clothing. The clothing was fastened by CSP Tpr. Kenneth Dillon, Agent Lisa Skelly Byrnes, and Agent Samuel DiPasquale of the CT division of the FBI. This was done under my direction while I memorialized each victim's respective clothing, exhibit number, and OCME corresponding number. These notes were provided to Det. Sliby to assist in his evidence report. See his detailed report.

Because of atmospheric conditions and technical problems with the tent heater, it took several days for the clothing to

thoroughly dry so as they could be properly photographed and packaged for long term evidentiary storage.

The photographs were taken with a Nikon Digital SLR D300s Programmable camera with detachable Nikon SB-910 speed light flash. A compact flash card was utilized to store the images until they were burned onto compact disk. A disk was made and forwarded to the State Police Forensic Lab for permanent archival, as they remain the central repository for all CSP photographic evidence.

The CD containing eight (8) photographs has merely memorialized the drying process. A two day painstaking and thorough processing was undertaken by van detectives upon the completion of the drying process to memorialize evidence of or upon the clothing of victims. See Det. Walkley's detailed primary photographs and corresponding report.

MISCELLANEOUS: Upon inspection of the suspected bullet strike, investigators noted the strike first entered the lower front bumper cover in the center area nearest the front license plate. The strike traveled into the lower driver's side portion of the vehicle's radiator. The projectile did not appear to exit the vehicle's radiator. The vehicle's radiator was not manipulated at the scene in an attempt to retrieve the projectile and/or fragments. Suspected fragments were located on the asphalt surface beneath the suspected strike to the radiator and collected as evidentiary item 509.

PRIMARY PHOTO REPORT SPECIAL AGENT SKELLY BYRNES CELL PHONE
ACTION TAKEN:

On December 14, 2012 at approximately 12:00 noon Special Agent Lisa Skelly Byrnes, assigned as a liaison from the FBI to the Western District Major Crimes Van Unit, stated that the FBI had agents on sight with the brother of Adam Lanza in New Jersey, and were in immediate need of a photo of the deceased suspect shooter. Further, the FBI specialist in firearms required a photograph of the weapons to begin the process of positively identifying the types and configurations of each weapon.

The van squad had not begun the process of photographing the scene, and the most expedient method of transmitting the photos was determined to be the cell phone of Special Agent Skelly Byrnes. After donning appropriate PPE, SA Skelly Byrnes and I took several photographs with her cell phone device. SA Skelly Byrnes in turn transmitted the photos to the respective agents requiring them, as well as my government assigned email, Jeffrey.covello@ct.gov, so as a report could be generated by me to account for these photos having been taken and transmitted at the onset of this investigation. After the photos had been transmitted to each respective location, she personally communicated to me that she had permanently erased the photographs from her cell phone device.

Attached to this report are copies of both the respective emails and photo attachments, as well as the printed photos.
See attached six (6) photos.
Photo No. 1 Depicts the .223 Bushmaster rifle.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME. NOV 21 2013

00025240.pdf

Photo No. 2 Depicts a close-up of the suspect shooter's face (later identified as Adam Lanza).
Photo No. 3 Depicts an even closer view of the suspect shooters face.
Photo No. 4 Depicts the 9mm Sig-Sauer pistol in the suspects left front pant pocket.
Photo No. 5 Depicts an overall of the suspect shooter.
Photo No. 6 Depicts a view of the 10mm Glock pistol found near body of suspect shooter.

NOTE: The accompanying CD has seven (7) photographs, v. six (6) listed above, one of which is an enhanced double for a more detailed view of the shooters face. These were taken to assist in discerning the Lanza brothers apart, as well as identifying what types of weapons were in possession of shooter and where they may have originated. The photographs are not necessarily arranged in any specific order nor as they were taken, and NO positive ID was possible or accomplished.

I made an additional CD from the same seven (7) images which has been forwarded to the Department of Emergency Services and Public Protection Forensic Lab Division, who remains the central repository for all photographic evidence archived by the State Police.

Case Status: Case remains open and active

ACTION TAKEN:

On December 15, 2012 TFC. Carlo Guerra presented a personnel cell phone device to me with six (6) extremely graphic photographs of Sgt. William Cario inside the Sandy Hook Elementary School amongst numerous child bodies and two adult bodies pilled inside and around a closet size classroom toilet. TFC. Guerra explained that the photos were taken under the direction of Sgt. Cario, who wanted him to document scene prior to his disturbing it to locate potential, however unlikely, survivors. See TFC. Guerra's detailed report.

I downloaded six (6) cellular phone photographs from TFC. Guerra's phone to my assigned department laptop, and then transfered the images to the WDMC van computer (no CD drive on department laptop) so they could be then burned to CD. The CD was then seized by evidence officer Det. Sliby. See Det. Sliby's detailed report.

I made an additional CD from the same six (6) images which has been forwarded to the Department of Emergency Services and Public Protection Forensic Lab Division, who remains the central repository for all photographic evidence archived by the State Police.

CASE STATUS: Open

Supplemental Investigative Report

Date and Time of Investigation: Friday, December 14, 2012 at approximately 2146 hours through Saturday, December 15, 2012 at approximately 0007 hours.

Location of Investigation: Sandy Hook Elementary School (parking lot - north side of school)
12 Dickenson Drive
Newtown, Connecticut 06482

Summary of Investigation: On Friday, December 14, 2012 the Connecticut State Police Central District Major Crime Squad (CDMCS) was requested to assist the Newtown Police Department and the Connecticut State Police Western District Major Squad (WDMCS) with the scene processing of a school shooting. The incident occurred at the Sandy Hook Elementary School, located at 12 Dickenson Drive in the Town of Newtown, Connecticut. In addition to processing the outdoor scene and surveying the vehicles in the parking lot, CDMCS was requested to assist the Office of the Chief Medical Examiner (OCME) in positively identifying each shooting victim.

Action Taken: On Friday, December 14, 2012 beginning at approximately 2146 hours through Saturday, December 15, 2012 ending at approximately 0007 hours, the Connecticut State Police Central District Major Crime Squad (CDMCS) was requested to assist the Office of the Chief Medical Examiner (OCME) in positively identifying each shooting victim. The OCME set up a temporary morgue in the parking lot located on the north side of the school. During the course of the investigation, twenty-six (26) shooting victims were identified using physical descriptions obtained from law enforcement personnel who were assigned as liaisons to each victim's family.

The attached chart lists each shooting victim alphabetically. The chart also provides their date of birth, sex, whether they are a child or an adult, their assigned OCME #, their classroom affiliation, position number, family contact information, home address, liaison officer, and description used for the identification.

ACTION
TAKEN:

On Tuesday, 12 February 2013 at approximately 1853 hours, Detective SLIBY, #810, and I removed the following exhibits from the WDMC Evidence Room:

Exhibits 55 through 77.

Detective SLIBY & I drove the exhibits to Santoro's Cleaners, 462 Torringford West Street, Torrington, arriving at approximately 1925 hours.

The exhibits were subsequently turned over to Detective Rachael VAN NESS, #1431, at approximately 1941 hours.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

ACTION TAKEN:

On 12/16/12 at approximately 1100 hours, I was assigned to respond to Sandy Hook Elementary School to meet with members of the Major Crime Van to pick up evidence to be transported to the E.O.C. located on Mile Hill South Rd. At approximately 1230 hours, I received a cell phone(exhibit #27) belonging to Adam Lanza from Det. Sliby #810. At approximately 1258 hours, I received two identical CDs containing images of the Izhmash shotgun that was seized from Lanza's vehicle. The cell phone and the two CDs were transported to the E.O.C. At 1506 hours, I turned the two CDs over to Lt. Baldwin at the E.O.C. At approximately 1630 hours, I turned the cell phone (exhibit #27) over to Detective Grandpre to be transported to the State Police Computer Crime and Electronic Evidence Laboratory in Meriden, CT to be downloaded.

CASE STATUS:

This case remains ACTIVE pending further investigation.

Action Taken: On 2/12/13 at approximately 1941 hours, this Detective met with Detective Rupsis #1260, who turned over possession of Exhibits #55 through #77. This Detective signed the respective JD-CR-18's for the aforementioned exhibits, indicating that Detective Rupsis had relinquished custody of the Exhibits to this Detective.

On 2/12/13, between 2000 and 0331 hours, this Detective, Detective Jewiss #336, Sgt. Covello #167, Detective Sliby #810 and Detective Rupsis #1260, in addition to personnel from a commercial dry cleaner located in Torrington, CT, treated, processed and laundered the clothing and property belonging to the deceased victims from the Sandy Hook Elementary School shooting. Upon completion of the laundering, the clean clothing and property from each victim was individually repackaged and re labeled as evidence for return to Troop A. In preparation for the point in time when some of the clothing and property will be returned to the victim's families, a new JD-CR-18 for each Exhibit # was prepared by Detective Jewiss.

On 2/12/13, between 0331 and 0420 hours, the aforementioned Exhibits were transported by #336 back to Troop A, 90 Lakeside Road, Southbury, CT. Upon arrival at Troop A at approximately 0420 hours, this Detective and Detective Jewiss removed the Exhibits from his vehicle and secured them in temporary evidence storage in the female locker room located on the lower floor of the barracks, where the items had the opportunity to continue to air-dry to remove any remaining dampness.

On 2/12/13, at approximately 0455 hours, the temporary evidence area within the locker room was sectioned off secured using evidence tape and the door to the locker room was double key locked by this Detective.

A similar report containing this information can be found under companion case number CFS-1200704559.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. Supplemental Report
List of vehicles at Sandy Hook Elementary School

On Friday, December 14, 2012, Connecticut State Police personnel responded to the Sandy Hook Elementary School, 12 Dickenson Drive, Sandy Hook, Connecticut, to assist the Newtown Police Department with a reported active shooting incident. Upon arrival, law enforcement personnel confirmed the active shooting incident with multiple fatalities. Connecticut State Police – Major Crime Squad personnel were subsequently assigned to assist with the investigation, including scene processing.

On 12/14/2012 at approximately 1320 hours, this investigator was assigned to document vehicles located within the main parking area of the elementary school. During the course of documenting the vehicles, investigators located the suspect's reported vehicle, as well as three (03) parked and unoccupied vehicles that appeared to have sustained suspected bullet strikes. In addition the documentation completed by this investigator, other investigators were assigned to photograph the vehicles, and the Connecticut State Police – Collision Analysis and Reconstruction Squad (CSP-CARS) was assigned to map the vicinity, including the vehicles. (Refer to separate supplemental reports)

The following list of vehicle registrations was located within the parking lot area of the Sandy Hook Elementary School on 12/14/2012 at approximately 1320 hours:

ACTION TAKEN: On 12/18/2012 at approximately 1130 hours, I was instructed by the Command Post dispatcher to respond to the Sandy Hook Elementary School scene and make contact with Sergeant Jeffery Covello, #167 regarding the return of property. Upon my arrival I met and received detailed instructions from Sgt Covello regarding the return of personal property removed from the body of Mary Sherlach by members of the Office of the Chief Medical Examiner. Sgt Covello further instructed me to return the property to the Sherlach family and obtain a signed receipt. Sgt. Covello then handed me an envelope containing six items including: Eye glasses, a ring, a ring with stone, a ring with white/purple stone, a ring with colored stones, and a watch. I departed the Major Crime scene and telephoned [redacted] to advise of my effort to return property to [redacted]l. Upon my arrival at [redacted], at approximately 1530 hours, I met with [redacted] in a quiet room of the house. After a brief explanation of the purpose to return personal property of Mary Sherlach to the family, I handed the envelope to [redacted] and departed the room. At 1555 hours, [redacted] met with me in the kitchen and handed me a signed receipt for the six items. After spending the next few hours with the family, I departed and returned the receipt to Sgt Covello at the Major Crime scene. This assignment is complete. No further action.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

Audio/Video Report

On Friday, December 14, 2012, Connecticut State Police personnel responded to the Sandy Hook Elementary School to assist the Newtown Police Department with a reported active shooting incident. Upon arrival, law enforcement personnel confirmed the active shooting incident with multiple fatalities. Connecticut State Police – Major Crime Squad personnel were subsequently assigned to assist with the investigation.

On Monday, December, 17, 2012, this investigator was assigned to document the exterior of the elementary school with the unit's Sony HDR-CX110 Handycam video camera. The scene footage was recorded on a SanDisc multimedia card, which was forwarded to the State of Connecticut, Forensic Laboratory to be downloaded onto compact disc. The multimedia card was returned and subsequently reformatted for future use and no longer contains images of the scene.

The status of this investigation remains active.

Evidence Report

On December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound. The Central District Major Crime Squad was requested to assist by processing the exterior portion of the scene, while the Western District Major Crime Squad was responsible for processing the interior of the scene. Additionally the Central District Major Crime Squad was responsible for processing the following vehicles that were located in the parking lot of the scene:

2010 Honda Civic
Connecticut registration 872YEO
VIN#2HGFA1F51AH542299
Registered to Nancy Lanza

2004 Honda Civic
Connecticut registration 144WDM
VIN#2HGES165X4H594043
Registered to Lauren Rousseau

2005 Toyota Seinna
Connecticut registration 600TVG
VIN#5TDBA23C25S047638
Registered to [redacted]

2006 Toyota Camry
Connecticut registration 913UNY
VIN#4T1BF32U56U628804
Registered to [redacted]

The items of evidentiary value were seized utilizing exhibit numbers that started with five hundred (500) in order to avoid duplicating exhibit numbers with Western District Major Crime. The following items numbered five hundred (500) through five hundred and four (504) were seized throughout the course of the investigation from the exterior portion of the scene at Sandy Hook Elementary School. Items numbered five hundred and five (505) through five hundred and nineteen (519) were seized from the vehicles listed above. All items were inventoried, packaged and labeled as items of evidentiary value. At the conclusion of the scene processing on December 15, 2012 at approximately 0008 hours, items numbered five hundred (500) through five hundred and five (505) were turned over to Western District Major Crime Detective Keith. At the conclusion of the scene processing on December 16, 2012 at approximately 1754 hours, items numbered five hundred and six (506) through five hundred and ten (510) were turned over to Western District Major Crime Detective Keith. At the conclusion of the scene processing on December 21,

ADAM LANZA POSTMORTEM EXAMINATION
DIGITAL PHOTOGRAPHY REPORT

On Friday December 14, 2012, the Connecticut State Police Central District Major Crime Squad (CDMCS) was assigned to assist with a Homicide Investigation at the Sandy Hook Elementary School, located at 12 Dickenson Drive, Newtown, Connecticut. The incident involved a suspect Adam Lanza (DOB 04/22/1982) who entered the school, shot and killed numerous victims then died of a self inflicted gunshot wound. CDMCS investigators were assigned to attend the postmortem examination of the suspect Adam Lanza. The postmortem examination was conducted by Chief Medical Examiner Dr. H. Wayne Carver II, on Sunday December16, 2012, at the Office of the Chief Medical Examiner, located at 11 Shuttle Road, Farmington, Connecticut.

The following color photographs #1-18 were taken by this investigator during the postmortem examination of the suspect Adam Lanza. The photographs were taken utilizing the unit's assigned NIKON D300 digital programmable camera. The built in flash and/or artificial lighting was utilized when necessary. The images were stored on a digital media card. The images were transferred to a CD and printed by the Connecticut State Police Forensic Laboratory. The digital media card was reformatted for future use and no longer contains the images captured at this incident.

VICTIM POSTMORTEM EXAMINATION
DIGITAL PHOTOGRAPHY REPORT

On Friday December 14, 2012, the Connecticut State Police Central District Major Crime Squad (CDMCS) was assigned to assist with a Homicide Investigation at the Sandy Hook Elementary School, located at 12 Dickenson Drive, Newtown, Connecticut. The incident involved a suspect Adam Lanza (DOB 04/22/1982) who entered the school, shot and killed numerous victims then died of a self inflicted gunshot wound. CDMCS investigators were assigned to attend the postmortem examination of the victims on Saturday December 15, 2012. The postmortem examinations were conducted at the Office of the Chief Medical Examiner, located at 11 Shuttle Road, Farmington, Connecticut.

The following color photographs #1-50 were taken by this investigator prior to the start of the postmortem examination of the victims. The photographs were taken to depict the victim with their assigned OCME case number. The photographs were taken utilizing the unit's assigned NIKON D300 digital programmable camera. The built in flash and/or artificial lighting was utilized when necessary. The images were stored on a digital media card. The images were transferred to a CD and printed by the Connecticut State Police Forensic Laboratory. The digital media card was reformatted for future use and no longer contains the images captured at this incident.

VEHICLE PROCESSING DIGITAL PHOTOGRAPHY REPORT

On Friday December 14, 2012, the Connecticut State Police Central District Major Crime Squad (CDMCS) was assigned to assist with a Homicide Investigation at the Sandy Hook Elementary School, located at 12 Dickenson Drive, Newtown, Connecticut. The incident involved a suspect Adam Lanza (DOB 04/22/1982) who entered the school, shot and killed numerous victims then died of a self inflicted gunshot wound. CDMCS was assigned to assist by processing various areas and items related to the scene for evidence. One item processed for evidence was the vehicle driven to the school by the suspect Adam Lanza. The vehicle was a 2010 Honda Civic bearing Connecticut passenger registration 872YEO, VIN:2HGFA1F51AH542299, registered to the suspect's mother, Nancy Lanza.

The following color photographs were taken by this investigator during the vehicle processing of the Honda Civic. The vehicle was processed by CDMCS investigators on Friday December 21, 2012, in a secured garage at State Police Troop A, located at 90 Lakeside Road, Southbury, Connecticut. The photographs #1-33 were taken during the course of processing the vehicle and evidence items. The photographs were taken utilizing the unit's assigned NIKON D300 digital programmable camera. The built in flash and/or artificial lighting was utilized when necessary. The images were stored on a digital media card. The images were transferred to a CD and printed by the Connecticut State Police Forensic Laboratory. The digital media card was reformatted for future use and no longer contains the images captured at this incident.

SANDY HOOK ELEMENTARY SCHOOL PARKING LOT
DIGITAL PHOTOGRAPHY REPORT

On Friday December 14, 2012, the Connecticut State Police Central District Major Crime Squad (CDMCS) was assigned to assist with a Homicide Investigation at the Sandy Hook Elementary School, located at 12 Dickenson Drive, Newtown, Connecticut. The incident involved a suspect Adam Lanza (DOB 04/22/1982) who entered the school, shot and killed numerous victims then died of a self inflicted gunshot wound. CDMCS was assigned to assist by processing various areas and items related to the scene for evidence. One area processed for evidence was the parking lot located at the north side of the school. Included in the parking lot were the vehicle driven to the school by the suspect Adam Lanza, a 2010 Honda Civic bearing Connecticut passenger registration 872YEO. Also were three vehicles found to have been struck with projectiles from gunshots fired by Adam Lanza.

The following color photographs were taken by this investigator during the vehicle processing of the parking lot by CDMCS investigators on Friday December 14, 2012. The photographs #1-140 were taken during the course of processing the vehicle and evidence items. The photographs were taken utilizing the unit's assigned NIKON D300 digital programmable camera. The built in flash and/or artificial lighting was utilized when necessary. The images were stored on a digital media card. The images were transferred to a CD and printed by the Connecticut State Police Forensic Laboratory. The digital media card was reformatted for future use and no longer contains the images captured at this incident.

Laboratory ID: 12-002105

ACTION TAKEN:

On Friday, 22 February 2013 at 0841 hours, a Laboratory receipt was made and signed by Lucinda LOPES-PHELAN, taking custody of Western District Major Crime's digital photographs.

On Thursday, 28 February 2013 at 1107 hours, I retrieved the following from the State Police Forensic Laboratory:

Laboratory Submission Numbers:

021: "Envelope containing 4 sets of thumbnails and 3 sets of 8pp printed by MMIE" - The photograph CD was submitted to the SPFL for processing by Detective Arthur WALKLEY, #589.

022: "Envelope containing 4 sets of thumbnails and 3 sets of 8pp printed by MMIE" - The photograph CD was submitted to the SPFL for processing. The detective's photo sheet identifier, DPS-179-C, was not attached to this envelope.

025: "Envelope containing 4 sets of thumbnails and 3 sets of 8pp printed by MMIE" - The photograph CD was submitted to the SPFL for processing by Detective Arthur WALKLEY, #589.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME. DEC 02 2013

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE	SUPERVISOR I.D.#:
/TFC STEVEN A RUPSIS/	1260	12/02/2013 10:15 am	05324 /SGT JEFFREY T COVELLO/	0167

026: "Envelope containing 4 sets of thumbnails and 3 sets of 8pp printed by MMIE" - The photograph CD was submitted to the SPFL for processing by Sergeant Jeffrey COVELLO, #0167.

027: "Envelope containing 4 sets of thumbnails and 3 sets of 8pp printed by MMIE" - The photograph CD was submitted to the SPFL for processing. The detective's photo sheet identifier, DPS-179-C, was not attached to this envelope.

028: "Envelope containing 4 sets of thumbnails and 3 sets of 8pp printed by MMIE" - The photograph CD was submitted to the SPFL for processing by Detective Arthur WALKLEY, #589.

The above envelopes were individually sealed using 'Evidence' tape.

I transported the envelopes to the Western District Major Crime Squad and turned them over to Detective Arthur WALKLEY, #589.

ATTACHMENTS:

Agencies submitting evidence to the Division of Scientific Services Laboratories for specific analysis agree to allow the laboratory to determine the appropriate methodology for the evidence submitted. Descriptions of analyses offered by the Division of Scientific Services Laboratories are detailed on our website: www.ct.gov/dps/site/default.asp. If the laboratory needs to deviate from standatd test methodologies you or your agency will be contacted prior to the analysis being performed. Any concerns or specific requests about the required testing can be discussed with the section supervisor or Laboratory Director prior to case analysis.

Bullet Strike Report
(SHES parking lot - Motor Vehicles)

On Friday, December 14, 2012, Connecticut State Police personnel responded to the Sandy Hook Elementary School, 12 Dickenson Drive, Sandy Hook, Connecticut, to assist the Newtown Police Department with a reported active shooting incident. Upon arrival, law enforcement personnel confirmed the active shooting incident with multiple fatalities. Connecticut State Police – Major Crime Squad personnel were subsequently assigned to assist with the investigation.

As part of the investigation into the incident, this investigator was assigned by Sergeant J. Thomas to locate suspected bullet strikes throughout the exterior portions of the school, to include strikes to vehicles located in the elementary school's parking lot. For documentation purposes of the bullet strikes, Investigators utilized alpha numeric designators to identify each strike. The designator was the letters "BS", followed by a number. The numeric designator for each strike was assigned for documentation purposes only and was not intended to be interpreted as the sequence and/or the order that the shots were fired in this incident. All suspected bullet strikes were documented with photography in digital format, as well as being located with measurements taken by CSP-CARS that could be utilized for reconstruction purposes if necessary.

From the exterior of the school, investigators observed a grouping of suspected bullet strikes within the glass and metal glass framing on the north wall of classroom 10. This wall abuts the school's parking lot. From the exterior of the school, this grouping of suspected bullet strikes were contained to within a minimum height of 53 inches and a maximum height of 59 ½ inches. It should be noted that there are differentiating heights between the exterior ground level and the classroom's floor. Each of the suspected bullet strikes appeared consistent with originating from within the interior of school and traveling outward into the parking lot area of the school in a northeasterly direction. Refer to CSP-WDMCS supplemental reports for further findings pertaining to the suspected bullet strikes on classroom 10's north wall.

Investigators also located three unoccupied vehicles in the school's parking lot that had sustained suspected bullet strikes. It should be noted that investigators did not locate and were not advised of any obstructions between the exterior north wall of classroom 10 and each of the vehicles that had sustained suspected bullet strikes. A total of five (05) suspected strikes were located on the exterior portions of the three identified vehicles and further documentation includes:

<u>Bullet Strike 1 (BS1)</u>

Bullet strike 1 (BS1) was located in the lower grille of a 2005 Toyota Sienna van bearing Connecticut registration 600TVG, which was positioned in the parking lot approximately 62 feet 7 inches northeast of classroom 10's north wall, where the grouping of the previously described suspected bullet strikes were located. Upon inspection of the suspected bullet strike (BS1), investigators observed the strike first entered the lower front bumper cover in the center area, nearest the front license plate, approximately 13 ½ inches upward from the ground. The strike traveled downward into the front driver's side portion of the vehicle's radiator. Investigators did not locate an exit point upon the vehicle's radiator concluding the projectile was likely contained within. Miscellaneous fragments were collected from the asphalt surface beneath the radiator and subsequently seized as evidentiary item 509.

CASE STATUS:
☒ 1 ACTIVE ☐ 2 CLEARED BY ARREST ☐ 3 SUSPENDED ☐ 4 EXCEPTIONAL CLEARANCE ☐ 6 NO CRIMINAL ASPECT ☐ F FUGITIVE

TYPE OF EXCEPTIONAL CLEARANCE:
☐ A OFFENDER DECEASED ☐ D VICTIM UNCOOPERATIVE ☐ B PROSECUTION DECLINED ☐ E JUVENILE-NO CUSTODY ☐ C EXTRADITION DENIED

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN, DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAINING TO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1) MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2) INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT: OR (3) INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Detective M. Gonsalves #430	430	3/6/2013	Sgt. Sergeant J. Thomas	2129	JUN 2 1 2013

Investigators did not manipulate the vehicle's radiator at the scene in an attempt to locate/retrieve the projectile and/or fragments contained within.

Bullet Strikes 2, 3, 4 (BS2 / BS3 / BS4)
Bullet strikes 2, 3, and 4 (BS2 / BS3 / BS3) were located along the passenger side of a 2004 Honda Civic bearing Connecticut registration 144WDM, which was positioned in the parking lot approximately 118 feet 10 inches northeast of classroom 10's north wall, where the grouping of the previously described suspected bullet strikes were located.

Upon inspection of bullet strike 2 (BS2), investigators observed the strike fully penetrated the vehicle's passenger side "A" pillar nearest the passenger side exterior mirror, approximately 37 ½ inches upward from the ground. Further inspection revealed the projectile fully penetrated the exterior side of the "A" pillar, fragmented and came to rest where the interior portion of the "A" pillar, interior "A" pillar plastic molding and the front passenger side door and door gasket all adjoin one another. Fragments from bullet strike 2 (BS2) did not penetrate into the interior passenger compartment area of the vehicle. Multiple projectile fragments were collected by investigators and seized as evidentiary item 508.

Upon inspection of bullet strike 3 (BS3), investigators observed the strike fully penetrated the vehicle's exterior portion of the front passenger side door approximately 33 ¾ inches upward from the ground and approximately 16 ¾ inches inward from the hinged portion of the door. Further inspection revealed the projectile traveled through the front passenger door nearest the interior opening handle, into the front passenger side compartment area, striking and fully penetrating the front passenger seat's seat back portion nearest the interior region of the vehicle. The projectile appeared to continue into the rear driver's side passenger compartment area, penetrating the seat's seat back portion. Investigators followed the path of travel into the trunk area of the vehicle and located a projectile along the driver's side of the trunk. The projectile was seized by investigators as evidentiary item 506.

Upon inspection of bullet strike 4 (BS4), investigators observed the strike fully penetrated the vehicle's passenger side "A" pillar approximately 47 ½ inches upward from the ground and approximately 32 inches inward/upward along the "A" pillar from the hinged portion of the passenger side front door. The projectile did not penetrate into the passenger compartment area of the vehicle and appeared to have traveled within the void of the vehicle's pillar / framing. This void was inspected with the use of a video scope into the trunk area of the vehicle. Investigators located projectile fragments beneath the trunks carpeting along the passenger side where the passenger side pillar / framing meets the trunk. The projectile fragments were seized by investigators as evidentiary item 507.

Bullet Strike 5 (BS5)
Bullet strike 5 (BS5) was located on the exterior portion of the passenger side rear door of a 2006 Toyota Camry bearing Connecticut registration 913UNY, which was positioned in the parking lot approximately 126 feet 8 inches northeast of classroom 10's north wall, where the grouping of the previously described suspected bullet strikes were located. Upon inspection of bullet strike 5 (BS5), investigators observed the strike first entered the passenger side rear door approximately 36 ½ inches upward from the ground and approximately 5 ¾ inches inward from the hinged portion of the door. Further inspection revealed the projectile fully penetrated the door entering the rear passenger compartment area of the vehicle directly beneath the door's interior opening handle. The projectile partially penetrated the passenger side rear seat's seat back portion and projectile fragments

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN, DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAINING TO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1) MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2) INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT: OR (3) INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:

00050860.pdf

deflected, coming to rest on the rear driver's side seat's sitting surface. Investigators seized the projectile fragments as evidentiary item 510.

Investigators utilized a laser pointer affixed to the end of a protrusion rod on bullet strikes 1, 3, 4, and 5, in an attempt to determine a more precise originating point. For bullet strikes 1, 3, 4, and 5, the laser pointer targeted in a southwesterly direction to the north wall of room 10 and in the general vicinity of the bullet strikes located on classroom 10's north wall. Precise trajectory angles/measurements were not obtained due to the confined grouping of bullet strikes on classroom 10's north wall in relation to the distance between each involved vehicle and the unconfirmed certainty of each projectiles path of travel following its initial contact through the classroom's north wall. Bullet strike 2's initial strike to the "A" pillar was too distorted to secure the protrusion rod and no further analysis was performed. However, the location of bullet strike 2 in relation to the other bullet strikes on the involved vehicles appears consistent that it too originated from the vicinity of classroom 10's north wall.

Primary Digital Photography Report
Exterior Photographs (12/17/2012)

The following color photographs, numbered one (01) through one hundred and ten (110), were taken by this investigator on Monday, December 17, 2012 for the purposes of daytime documentation of the Sandy Hook Elementary School, 12 Dickenson Drive, Sandy Hook, Connecticut. On 12/14/2012, Connecticut State Police personnel responded to the Sandy Hook Elementary School to assist the Newtown Police Department with a reported active shooting incident. Upon arrival, law enforcement personnel confirmed the active shooting incident with multiple fatalities. Connecticut State Police - Major Crime Squad personnel were subsequently assigned to assist with the investigation.

The photographs were taken utilizing a department issued Nikon D200 programmable digital camera. Auxiliary light sources and/or flash were utilized when necessary. The photographs were stored on a Verbatim 4GB CompactFlash digital media card. Following documentation of the exterior portions of the school, the digital media card was downloaded onto a compact disc and forwarded to the State of Connecticut, Forensic Laboratory. The photographs were printed onto photography paper and additional compact discs were made. The digital media card has since been reformatted and no longer contains images of the scene.

For the purposes of documentation, the front portions of the school are described herein as facing in a northerly direction. The front (north) side of the school is adjacent to the school's parking lot area and Dickenson Drive. The school's ball fields / grass playground area is adjacent to the east facing side of the school, as well as to the east of the school's parking lot. The rear (south) facing side of the school is adjacent to a residential neighborhood (Crestwood Drive), where the school's perimeter is bordered by a typical four foot chain link style fence. The west side of the school is adjacent to wooded property and further west, Riverside Drive.

Photographs numbered one (01) through three (03) and eighty-three (83) through one hundred and ten (110) depict images of the front (north) facing side of the school. These photographs include general overall views of the classrooms involved in the shooting incident, as well as the front entryway to the school, and the location of where suspect Lanza's vehicle was parked adjacent to the northwest corner of the school. Photographs numbered four (04) through forty (40) depict images of the east facing side of the school. These photographs include images of the classrooms in the same wing as the involved classrooms, east side entrances into the school including one breached by responding law enforcement personnel, and the distal relation of the school's playground area to the east side of the school. The photograph numbered forty-one (41) depicts the rear (south) facing side of the school. The southernmost annex of the school was a modular classroom. Photographs numbered forty-two (42) through eighty-two (82) depict images of the west facing side of the school. These photographs include exterior photographs of classrooms, the school's cafeteria, as well as employee entrances.

Photograph Number	Description / Location
01	Photograph depicting the front facing portions of the Sandy Hook Elementary School and its relation to the asphalt surfaced parking lot area. The photograph further depicts the north facing classrooms where the shooting incident transpired. The photograph was taken facing in a westerly direction.

Action Taken: On 12/16/12 at approximately 1341 hours, I was assigned to escort the suspect's vehicle, a 2010 black Honda Civic bearing CT Registration: 872-YEO, from the Sandy Hook Elementary School to Troop A. Hilario's was the assigned flat bed that arrived at Troop A. Upon its arrival, I escorted the flatbed, bearing CT Wrecker Registration: 11158 and it's operator, Nicholas Mazzo (DOB: [redacted]), to Sandy Hook Elementary School. I met with Det. Farr #1117 of Central District Major Crime and advised him of my purpose on scene. Det. Farr clarified the instructions with other detectives and told me to secure the vehicle in the Troop A garage, securing it with crime scene tape. He also gave me the ignition key and instructed me to put it in the ignition, leaving the vehicle unlocked, once it was in the Troop A garage. I put this ignition key in my jacket pocket. I then told the tow truck operator he could put the vehicle on the flatbed and to do his best without touching the vehicle. The operator loaded the vehicle onto the flatbed and advised me when he was ready to go. I then advised Det. Farr the vehicle was secure on the flatbed and he instructed me to begin the escort to Troop A.

At approximately 1436 hours, I escorted the flatbed back to Troop A. Once in the Troop A garage, the tow truck operator let the vehicle off the flatbed without touching it. This was done by placing wedges behind both front tires, allowing the vehicle to slide easier off the flatbed, since the vehicle was in park, and moving the flatbed back and forth, on a downward angle, making the vehicle slide several inches at a time until it was on the garage floor. Once the vehicle was in the garage, the tow truck pulled out of the garage and I went inside Troop A and got crime scene tape. I then reentered the garage and secured the vehicle with crime scene tape by placing one strand of tape in front of the vehicle, with the ends of the tape secured to other objects in the garage, and one strand in the rear of the vehicle, with the ends of the tape secured to other objects in the garage. I then opened the driver's door with my right hand, covered by my jacket sleeve, and placed the ignition key into the ignition. I then shut the driver's door and exited the garage and signed paperwork needed for the tow truck driver.

All of this information was entered into CAD via CFS 12-00708101. I was in a spare cruiser during this time and did not have a MDT to utilize. All my

On December 18th 2012 from approximately hours to approximately 1600 hours.

Date of Incident:

On December 14th 2012.

Place of Incident:

Sandy Hook Elementary School
Newtown, CT.

Action Taken:

On December 18th 2012, Sergeant Jeffrey Covello (Western District Major Crime Squad Sergeant) assigned this Detective, along with Detective LaCluyze #0548, to assist in the investigation of the shooting at the Sandy Hook Elementary School in the town of Newtown, CT. This Detective, along with Detective LaCluyze #0548, was assigned to respond to Connecticut State Police Troop L in Litchfield to meet with Detective Keith Asman (Evidence Officer Troop L). This Detective was instructed to retrieve the Bushmaster .223 caliber rifle that was utilized in the Sandy Hook shooting from Detective Asman and then transport said rifle to the State of CT Department of Public Safety Division of Scientific Services (Forensic Science

Laboratory). This Detective was told that the Bushmaster had been previously seized at the Sandy Hook Elementary School by the Western District Major Crime Squad and that the rifle had been transported to State Police Troop L in Litchfield, where it was being held in the Troop L Evidence Room.

On this same date, December 18th 2012 this Detective, along with Detective LaCluyze #0548, met with Detective Asman at Troop L. Detective Asman retrieved from the Troop L Evidence Room a cardboard evidence rifle box. Detective Asman told this Detective that the box contained the following item of evidence:

One cardboard box containing a Bushmaster model XM15-E2S, serial #L534858, with one round removed and a PMAG containing 14 (fourteen) live rounds."

On December 18th 2012 at approximately 1417 hours this Detective took custody of said cardboard rifle box from Detective Asman. A chain of custody note via Nexgen Services was made by Detective Asman on this date. This Detective, with Detective LaCluyze present, placed the cardboard rifle box into his assigned State Police vehicle (Chevrolet Impala bearing CT registration 418 WHK). This Detective then transported said rifle box to the State of CT Department of Public Safety Division of Scientific Services (Forensic Science Laboratory) located at #278 Colony Street Meriden, CT. Upon arrival at the Forensic Laboratory, this Detective transferred the cardboard rifle box to a Cara Niazi (Evidence Receiving Officer). The item was transferred to Niazi on December 18th 2012 at 1545 hours.

See attached Evidence Receipt form.

This Detective completed a State of Connecticut Department of Emergency Services and Public Protection Division of Scientific Services Request for Examination of Physical Evidence form.

See attached Examination form.

Date and Time of Investigation:

On Friday, December 14, 2012 at approximately 1000 hours, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the exterior scene processing of the Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut.

Location of Investigation:

Sandy Hook Elementary School
12 Dickinson Drive
Newtown, Connecticut 06482

Summary of Incident:

On Friday, December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at the Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound.

Scene Description:

The Sandy Hook Elementary School was located at 12 Dickinson Drive in the town of Newtown, Connecticut. It should be noted that Sandy Hook is a village within the town of Newtown. The Sandy Hook Elementary School was located at the southwest end of Dickinson Drive. Dickinson Drive was located off the south side of Riverside Road and

traveled in a southeast direction then curving to a southwest direction to the large parking lot at the front (northeast) side of the school. Dickinson Drive proceeded up to the school in a slight incline with the incline ending at the point when the roadway reaches the north side of the school. Dickinson Drive connects the parking lots and Riverside Road. Dickinson Drive allows traffic to travel to and from the Sandy Hook Elementary School. Dickinson Drive is approximately 1234 feet long from the point it reaches the school to the intersection with Riverside Road. At the intersection of Dickinson Drive and Riverside Road was the Sandy Hook Volunteer Fire and Rescue Company (18 Riverside Road).

According to Vision Appraisal, the property of Sandy Hook Elementary School was a 1 story brick veneer public school owned by the town of Newtown. This building was 66,027 square feet and is built in 1954. On the south side of the school there was an added portable classroom. There were approximately 21 access doors located around the school, including a garage door. Refer to the Connecticut State Police Crash Analysis Reconstruction Squad (CARS) supplemental scene diagram for exact exterior dimensions and locations of the school, parking lot and Dickinson Drive. Refer to Detective Keith's scene report for a detailed description of the interior of the school.

The school building was positioned with its front entrance patio and lobby area facing in a magnetic northeast direction, however for report purposes NORTH will be designated as the front of the school. The front entrance faces in a northerly direction with a parking lot directly in front of the main entrance of the building. The front entrance of the school proceeds to a concrete patio and then leads directly to the parking lot. Adjacent to both sides of the concrete patio were mulch areas with assorted plantings, which were located in front of the windows on the north side of the school. Refer to Detective Keith's scene report for a detailed description of the patio area. The suspect's vehicle, a 2010 black Honda Civic bearing Connecticut registration 872YEO, VIN# 2HGFA1F51AH542299, was located in front of the main entrance of the Sandy Hook Elementary School, parked in a no parking zone nearest the northwest corner of the building. The suspect's vehicle was approximately 94 feet and 11 inches from the main entrance. The parking lot consisted of four rows of parking spaces. At the northeast end of the parking lot, there was an extended portion of the parking lot that provided four additional rows of parking spaces. The total number of parking spaces for the parking lot was 136. Three vehicles were identified in the parking lot of the school to have sustained bullet strikes during the incident. The three vehicles were located nearest to the north side classrooms of the school and they are as follows:

- 2004 Honda Civic bearing Connecticut registration 144WDM, VIN#2HGES165X4H594043

- 2006 Toyota Camry bearing Connecticut registration 913UNY, VIN#4T1BF32U56U628804
- 2005 Toyota Sienna bearing Connecticut registration 600TVG, VIN#5TDBA23C25S047638

Refer to the vehicle survey and bullet strike supplemental reports completed by Detective Gunsalus for a detailed description and position of the vehicles.

It was reported that during the initial response to the incident, the southern exterior door's window was breached by police to gain entry through the eastern side of the building. Directly adjacent to the eastern side of the school was an emergency access asphalt road. Directly adjacent to that was a sand playground area used for the school children. North of the playground area was a grass soccer field. North of the soccer field was a grass baseball field. The eastern side of the school was surrounded by a fence that separated it from the wooded area and Crestwood Drive. The fence extended along the wood line from the baseball field south and then wrapped around the southern side of the school. The fence ended at the southwestern corner of the school where it abuts a wooded hillside that extended along the western side of the school.

Adjacent to the south side of the school was a basketball court located west of the portable classroom. South of the portable classroom was a small grass baseball field. Beyond that was the fence mentioned above that separates the school and the Crestwood Drive residential area.

Directly adjacent to the western side of the building was an emergency access asphalt road. Directly adjacent to that was shed and utility area. To the west of that area was a wooded hillside that surrounded the school extending to the northern side of the building. This wooded hillside separated the school and the residential houses located on Riverside Road.

Evidence: During the course of this investigation, the Connecticut State Police Central District Major Crime Squad processed the above listed scene and seized five (5) items of evidence. The evidence seized consisted of two C-Sport brand black zipper up hooded sweatshirts (Exhibits #500 and #501). The sweatshirts were located in the Sandy Hook Elementary School parking lot on the pavement next to the suspect's vehicle (a black 2010 Honda Civic, CT registration 872YEO). Additionally, an Intergriswab swabbing was taken of a red blood like substance that was found on the pavement of the Sandy Hook Elementary School parking lot (Exhibit #502) for the purposes of identifying a potential DNA source. The red blood like substance was located next to a white Subaru bearing New York registration FGX5945, which was parked in the northeast side of the

parking lot. One S&B 60 56x45 live ammunition round (Exhibit #503) was located on the pavement in the Sandy Hook Elementary School parking lot next to the suspect's vehicle. One twelve gauge live shotgun ammunition round (Exhibit #504) was located on the pavement of the Sandy Hook Elementary School parking lot. The twelve gauge round was located next to the dark gray Subaru bearing Connecticut registration 519YSF, which was parked on the north side of the parking lot. All evidence items are detailed on separate evidence report. Refer to the Connecticut State Police Crash Analysis Reconstruction Squad (CARS) supplemental scene diagram for exact locations of the evidence items seized.

Evidence items five hundred (500) through five hundred and four (504) were turned over to Detective Keith of WDMC on December 15, 2012 approximately 0008 hours.

CSP CDMC Personnel and Assignments:

Sgt. James Thomas #129	CDMC Scene Supervisor
Det. Matthew Greenstein #864	Case Officer / Evidence Officer
Det. Patrick Meehan #377	Primary Digital Photography
Det. Christopher Fongemie #1032	Video
Det. Matthew Gunsalus #430	Vehicle Documentation
Det. Peter Farr #1117	Secondary Digital Photography

Separate reports will be submitted by the above investigators regarding their specific assignments for this investigation.

Action Taken:

On Friday, December 14, 2012 at approximately 1000 hours, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the exterior scene processing of the Sandy Hook Elementary School located at 12 Dickinson Drive in Sandy Hook, Connecticut.

Scene processing consisted of investigators completing an exterior scene diagram (CARS Unit), documenting the exterior scene with video, primary digital photography, secondary digital photography, and examining the entire exterior scene for items of evidentiary value. Processing began at approximately 1500 hours and ended at approximately 2330 hours on December 14, 2012. Additional scene processing was also conducted on December 17, 2012 between 1500 hours on 1645 hours as well as on December 18, 2012 between 1000 hours and 1500 hours.

On December 14, 2012, investigators conducted a systematic search of the scene. Investigators identified the suspect's vehicle, a 2010 black Honda Civic bearing Connecticut

registration 872YEO, VIN# 2HGFA1F51AH542299, which located in front of the main entrance of the Sandy Hook Elementary School, parked in a no parking zone. Prior to investigators searching the suspect's vehicle, members of the Emergency Services Unit (ESU) conducted a cursory search of the vehicle and located a weapon (later seized as Exhibit #505) in the back seat of the suspect's vehicle. That weapon was moved to the locked trunk area of the suspect's vehicle for safety reasons. The suspect's vehicle was processed at a later date under the legal authority of a Search and Seizure Warrant. Refer to the supplemental vehicle processing report for details regarding the vehicle processing and the evidence that was seized from within it. Investigators identified two (2) C-Sport brand black zipper up hooded sweatshirts (Exhibits #500 and #501) located on the pavement adjacent to the suspect's vehicle. Investigators then identified one (1) S&B 60 56x45 live ammunition round (Exhibit #503), which was also located on the pavement adjacent to the suspect's vehicle.

During the search, a red blood like substance was located next to a white Subaru bearing New York registration FGX5945, which was parked in the northeast side of the parking lot. An Integriswab swabbing was taken of the red blood like substance (Exhibit #502) for the purposes of identifying a potential DNA source. One twelve gauge live shotgun ammunition round (Exhibit #504) was located on the pavement of the parking lot. The twelve gauge round was located next to the dark gray Subaru bearing Connecticut registration 519YSF, which was parked on the north side of the parking lot.

Evidence items five hundred (500) through five hundred and four (504) were turned over to Detective Keith of WDMC on December 15, 2012 approximately 0008 hours.

While continuing the systematic search of the exterior of the school on December 14, 2012, investigators observed a grouping of suspected bullet strikes within the glass and metal glass framing on the north wall of classroom 10. This wall abuts the school's parking lot. All suspected bullet strikes were documented with photography in digital format, as well as being located with measurements taken by the Connecticut State Police Crash Analysis Reconstruction Squad (CARS). Refer to the supplemental Bullet Strike report and the CARS scene diagram.

A further search of the parking lot area lead investigators to identify three (3) vehicles that had sustained suspected bullet strikes during the incident. The vehicles were located in the first and second row of the parking lot nearest the north side of the building. Refer to the supplemental CARS scene diagram for further details with regards to the vehicle locations. The following is a list of the vehicles with suspected bullet strikes:

- 2004 Honda Civic bearing Connecticut registration 144WDM, VIN#2HGES165X4H594043

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Detective Matthew Greenstein	864	03/04/13	Sergeant James P. Thomas	129729	

- 2006 Toyota Camry bearing Connecticut registration 913UNY, VIN#4T1BF32U56U628804
- 2005 Toyota Sienna bearing Connecticut registration 600TVG, VIN#5TDBA23C25S047638

On Sunday, December 16, 2012 the above mentioned vehicles were processed by investigators. Processing consisted of investigators documenting the vehicle with video, digital photography, completing a motor vehicle survey, performing bullet strike analysis / trajectory and examining the interior and exterior of the vehicle for bullet projectiles as well as any other items of evidentiary value. Prior to the vehicles being returned to the owners, a secondary exterior search was conducted by investigators with negative findings for additional items of evidentiary value. Refer to the supplemental vehicle processing and bullet strike reports for the details regarding the vehicle processings and the evidence that was seized from the vehicles.

On December 17, 2012, investigators performed a cursory search of the mulch and plant area located on the north side of the school. The search yielded negative results. Then on December 18, 2012, investigators performed a systematic search of the mulch and plant area adjacent to the front entrance concrete patio, which was located in front of the windows on the north side of the school. Investigators raked out the mulch beds and plant area, utilized metal detectors and removed some plantings during the search. Investigators efforts yielded negative results for items of evidentiary value. It should be noted that WDMC previously processed the front entrance concrete patio area, which yielded the recovery of numerous expended shell casings. Refer to WDMC Detective Sliby's scene report for a detailed description of the items of evidentiary value that were seized from the front entrance patio area.

AFFIDAVIT AND APPLICATION
SEARCH AND SEIZURE WARRANT
JD-CR-61 Rev. 3-10
C.G.S. §§ 54-33a, 54-33c, 54-33j

STATE OF CONNECTICUT
SUPERIOR COURT
www.jud.ct.gov

Form JD-CR-52 must also be completed

Instructions To Applicant

File the application for the warrant and all affidavits upon which the warrant is based with the clerk of the court for the geographical area within which any person who may be arrested in connection with or subsequent to the execution of the search warrant would be presented, together with the return of the warrant.

Instructions To G.A. Clerk

Upon execution and return of the warrant, affidavits which are the subject of an order dispensing with the requirement of giving a copy to the owner, occupant or person within forty-eight hours shall remain in the custody of the clerk's office in a secure location apart from the remainder of the court file.

Police Case number **CFS# 12-00704559**

TO: A Judge of the Superior Court or a Judge Trial Referee

The undersigned, being duly sworn, complains on oath that the undersigned has probable cause to believe that certain property, to wit:

Connecticut registration 872YBO, a 2010 Honda Civic, 4-door sedan, color black, vin #2HGFA1F51AH54299, registered to Nancy Lanza, 36 Yogananda Street, Sandy Hook, CT. Blood, semen, saliva, physiological fluids and secretions, hair, fibers, fingerprints, palm prints, footprints, shoe prints, gunshot residue (GSR), weaponry and firearms including pistols, rifles, revolvers, shotguns, hatchets, axes, knives, cutting instrument and cutting tools, blunt force instruments, projectiles, ammunition, bullet casings and fragments, dirt, dust and soil, paint samples, glass and plastic fragments, marks of tools used to gain access to locked premises or containers, and items containing traces of any of the above mentioned articles or items.

The evidence will be collected and submitted to the Department of Public Safety Forensic Science Laboratory located at 278 Colony Street in Meriden, Connecticut for physical examination, scientific testing and forensic analysis.

☐ is possessed, controlled, designed or intended for use or which is or has been or may be used as the means of committing the criminal offense of:

☐ was stolen or embezzled from:

☒ constitutes evidence of the following offense or that a particular person participated in the commission of the offense of:

Murder, in violation of Connecticut General Statute 53a-54c

☐ is in the possession, custody or control of a journalist or news organization, to wit:

☐ and such person or organization has committed or is committing the following offense which is related to such property:

☐ and such property constitutes contraband or an instrumentality of the criminal offense of:

And is within or upon a certain person, place, or thing, to wit:

Connecticut registration 872YBO, a 2010 Honda Civic, 4-door sedan, color black is parked in front of the Sandy Hook Elementary School, 12 Dickinson Drive in Newtown, CT.

(This is page 1 of a 7 page Affidavit and Application.)

City/Town	Date	Signature and Title of Affiant
Newtown	12.14.12	DET [signature] 637
Newtown	12-14-12	Det [signature] 1268
Jurat — Subscribed and sworn to before me on *(Date)* Dec 14, 2012	Signed *(Judge/Judge Trial Referee)* [signature]	

And the facts establishing the grounds for issuing a Search and Seizure Warrant are the following:

1. That the affiant Detective James McGlynn, #1268 is a regular sworn member of the Connecticut State Police Department and has been a member of said Department for the past 23 years having participated in numerous criminal investigations, which have led to arrests and convictions. That the affiant McGlynn is presently assigned to the State Police Central District Major Crime Squad.

2. That the affiant Detective Scott Wisner, #507 is a regular sworn member of the Connecticut State Police Department and has been a member of said Department for the past 20 years having participated in numerous criminal investigations, which have led to arrests and convictions. That the affiant Wisner is presently assigned to the State Police Central District Major Crime Squad.

3. That on Friday, 12/14/12, at approximately 0935 hours, Newtown Police Department received a 911 call from a caller at the Sandy Hook Elementary School, 12 Dickinson Drive in Newtown, CT. The caller reported that an active shooting situation was occurring at the Sandy Hook Elementary School.

4. That as a result of the 911 call, numerous law enforcement personnel including members from the Newtown Police Department and the Connecticut State Police responded to Sandy Hook Elementary School, in Newtown. Upon arrival, law enforcement personnel conducted a search of the interior and exterior of the school. Investigators located CT registration 872YEO, a 2010, black colored Honda Civic unoccupied and parked in the fire lane directly in front of the school. A shotgun was noted in plain view to be in the interior of the vehicle. The registered owner for the Honda Civic is Nancy Lanza, DOB 09/06/60, 36 Yogananda Street in Sandy Hook, CT.

5. That as investigators entered the school numerous school children and school personnel were located deceased from apparent gunshot wounds in the first three classrooms located off the main hallway, adjacent to the school's front entrance. That investigators also located a teenaged white male dressed in military style clothing, wearing a bullet proof vest lying deceased on the floor in the middle classroom. That the deceased male was in possession of several handguns as well as a military style assault weapon. That the deceased male has been tentatively identified as Adam Lanza, DOB 04/22/92, who resides at 36 Yogananda Street in Sandy Hook, CT.

6. That law enforcement personnel including members of the Connecticut State Police, Emergency Service Unit, responded to the residence of Nancy Lanza at 36 Yogananda Street in Sandy Hook, CT. Upon arrival at Lanza's residence, Connecticut State Police Emergency Service Unit gained entry into the house and located a deceased middle aged white female lying in a supine position on a bed in the 2nd floor master bedroom. The white female sustained an apparent gunshot wound to her forehead. Investigators located a rifle on the floor near the bed. The deceased white female is presumed Nancy Lanza, DOB 09/06/60.

7. That 12/14/12, Agents of the Federal Bureau of Investigation interviewed 05 [redacted] rarely leaves his home and considers him to be a shut in and an avid gamer who plays Call of Duty, amongst other games. 05 [redacted] has a gun safe containing at least four guns. 05 [redacted] had attended Sandy Hook Elementary School and that the school was Adam Lanza's "life."

8. That the Affiants have personal knowledge, based upon their experience and training, that crimes of

(This is page 2 of a 7 page Affidavit and Application.)

	City/Town	Date	Signature and Title of Affiant
	Newtown	12.14.12	DET [signature] 507
	Newtown	12-14-12	Det [signature] - 1268
Jurat	Subscribed and sworn to before me on (Date) Dec. 14, 2012	Signed (Judge/Judge Trial Referee) 05369 [signature]	

violence involve a struggle, a break, the use of weapons and other instrumentalities, and/or the element of unpredictability; the person or persons participating in the commission of a violent crime is/are in contact with physical surroundings in a forceful or otherwise detectable manner; there is often an attempt to alter, destroy, remove, clean up, or cover up evidence of a crime. That traces may be left in the form of blood, semen, saliva, physiological fluids and secretions, hair, fibers, fingerprints, palm prints, footprints, shoe prints, weapons and firearms including pistols, rifles, revolvers, shotguns, knives, hatchets, axes, cutting instruments and cutting tools, blunt force instruments, projectiles, ammunition, bullet casings and fragments, gunshot residue (GSR), dirt, dust and soil, paint samples, glass and plastic fragments, marks of tools used to gain access to locked premises or containers and items containing traces of any of the above mentioned articles. Many of the above items are minute and/or microscopic, thus requiring additional specialized examination by forensic science laboratory techniques, such as that performed by the Connecticut State Police Forensic Science Laboratory.

9. That the Affiants also have personal knowledge, based upon their experience and training, that a crime scene, such as described above, will contain physical evidence, hereinbefore itemized, which will aid in establishing the identity of the perpetrator(s), the circumstances under which the crime was committed, and/or which in general will assist in the discovery of the pertinent facts and that such evidence requires a systematic search to locate, seize, record and process. That trace evidence left in the forms mentioned above is easily transferred between participants and inanimate objects such as surroundings, including their motor vehicle. That it is reasonable to believe and expect that a person responsible for committing a crime, such as the one described in this affidavit would come in contact with these forms of trace evidence and transfer them to their surroundings.

10. That the Affiants also have personal knowledge that the Department of Public Safety Forensic Science Laboratory located at 278 Colony St in Meriden, CT has the equipment, personnel and expertise necessary to conduct physical examination, scientific testing and forensic analysis, including but not limited to biological and chemical testing, instrumental analysis, firearms, photography, biochemistry, DNA, criminalistics, fingerprints, in order to locate, identify, compare and reconstruct items of evidence and trace evidence to aid in establishing the circumstances of the crime and identity of the participants involved in the crime. The Department of Public Safety Forensic Science Laboratory will use standardized and documented procedures to extract, amplify and detect DNA from evidentiary items and samples taken from known individuals. The resulting DNA profiles from the evidentiary items will be compared to the known individuals' profiles and the results documented in a laboratory report.

11. That based upon the facts and circumstances described above, your Affiants have probable cause to believe that evidence of the crime of murder, in violation of Connecticut General Statute 53a-54c, will be found within Connecticut registration 872YEO, a 2010 Honda Civic, 4-door sedan color black, vin #2HGFA1F51AH542299, registered to Nancy Lanza, DOB 09/06/30 of 36 Yogananda Street in Sandy Hook, Connecticut.

12. Therefore, the Affiants are requesting a Search and Seizure warrant be issued for Connecticut registration 872YEO, a 2010 Honda Civic, 4-door sedan color black, vin #2HGFA1F51AH542299, registered to Nancy Lanza, DOB 09/06/30 of 36 Yogananda Street in Sandy Hook, Connecticut.

AFFIDAVIT REQUESTING DISPENSATION WITH
REQUIREMENT OF DELIVERY
pursuant to § 54-33c, Connecticut General Statutes

TO: A Judge of the Superior Court or a Judge Trial Referee

For the reasons set forth below, the undersigned, being duly sworn, requests that the judge / judge trial referee dispense with the requirement of C.G.S. § 54-33c that a copy of the application for the warrant and a copy of any affidavit(s) in support of the warrant be given to the owner, occupant or person named therein with forty-eight hours of the search:

☐ The personal safety of a confidential informant would be jeopardized by the giving of a copy of the affidavits at such time;

☒ The search is part of a continuing investigation which would be adversely affected by the giving of a copy of the affidavits at such time;

☐ The giving of such affidavits at such time would require disclosure of information or material prohibited from being disclosed by chapter 959a of the general statutes;

☐ In addition, it is requested that the requirement of advance service of this warrant upon the customer whose financial records are being sought, be waived pursuant to C.G.S. § 36a-43 (a);

and the specific details with regard to such reasons are as follows:

This is an active and evolving investigation in which the identification of additional suspect(s) and co-conspirators could be potentially compromised by disclosure of the aforementioned information at this juncture.

The undersigned further requests that this affidavit also be included in such nondelivery.

(This is page 5 of a 7 page Affidavit and Application.)

SEARCH AND SEIZURE WARRANT — STATE OF CONNECTICUT SUPERIOR COURT — SEARCH AND SEIZURE WARRANT

The foregoing Affidavit and Application for Search and Seizure Warrant having been presented to and been considered by the undersigned, a Judge of the Superior Court or a Judge Trial Referee, and the foregoing Affidavit having been subscribed and sworn to by the affiant(s) before me at the time it was presented, the undersigned (a) is satisfied therefrom that grounds exist for said application, and (b) finds that said affidavit established grounds and probable cause for the undersigned to issue this Search and Seizure Warrant, such probable cause being the following: From said affidavit, the undersigned finds that there is probable cause for the undersigned to believe that the property described in the foregoing affidavit and application is within or upon the person, if any, named or described in the foregoing affidavit and application, or the place or thing, if any, described in the foregoing affidavit and application, under the conditions and circumstances set forth in the foregoing affidavit and application, and that, therefore, a Search and Seizure warrant should issue for said property.

NOW THEREFORE, by Authority of the State of Connecticut, I hereby command any Police Officer of a regularly organized police department, any State Police Officer, any inspector in the Division of Criminal Justice, or any conservation officer, special conservation officer or patrol officer acting pursuant to C.G.S. § 26-6 to whom these presents shall come within ten days after the date of this warrant to enter into or upon and search the place or thing described in the foregoing affidavit and application, or search the person described in the foregoing affidavit and application or both, to wit:

Connecticut registration 872YEO, a 2010 Honda Civic, 4-door sedan, color black is parked in front of the Sandy Hook Elementary School, 12 Dickinson Drive in Newtown, CT.

for the property described in the foregoing affidavit and application, to wit:

Connecticut registration 872YEO, a 2010 Honda Civic, 4-door sedan, color black, vin #2HGFA1F51AH54299, registered to Nancy Lanza, 36 Yogananda Street, Sandy Hook, CT. Blood, semen, saliva, physiological fluids and secretions, hair, fibers, fingerprints, palm prints, footprints, shoe prints, gunshot residue (GSR), weaponry and firearms including pistols, rifles, revolvers, shotguns, hatchets, axes, knives, cutting instrument and cutting tools, blunt force instruments, projectiles, ammunition, bullet casings and fragments, dirt, dust and soil, paint samples, glass and plastic fragments, marks of tools used to gain access to locked premises or containers, and items containing traces of any of the above mentioned articles or items.

The evidence will be collected and submitted to the Department of Public Safety Forensic Science Laboratory located at 278 Colony Street in Meriden, Connecticut for physical examination, scientific testing and forensic analysis.

[X] submit the property described in the foregoing affidavit and application to laboratory analysis and examination:

Department of Public Safety Forensic Science Laboratory located at 278 Colony Street in Meriden, Connecticut for physical examination, scientific testing and forensic analysis.

and upon finding said property to seize the same, take and keep it in custody until the further order of the court, and with reasonable promptness make due return of this warrant accompanied by a written inventory of all property seized.

[✓] The foregoing request that the judge or judge trial referee dispense with the requirement of C.G.S. § 54-33c that a copy of the warrant application and affidavit(s) in support of the warrant be given to the owner, occupant or person named therein and that the affidavit in support of such request also be included in such nondelivery is hereby:

[✓] GRANTED for a period of — NOT TO EXCEED 2 WEEKS BEYOND DATE WARRANT IS EXECUTED: Dec. 28, 2012

This order, or any extension thereof, dispensing with said requirement shall not limit disclosure of such application and affidavits to the attorney for a person arrested in connection with or subsequent to the execution of the search warrant unless, upon motion of the prosecuting authority within two weeks of such arraignment the court finds that the state's interest in continuing nondisclosure substantially outweighs the defendant's right to disclosure.

[ ] DENIED.

[ ] Service of this Search Warrant upon the customer whose financial records are being sought is hereby waived, pursuant to C.G.S. § 36a-43 (a).

(NOTE: AFFIANT'S OATH MUST BE TAKEN PRIOR TO JUDGE / JUDGE TRIAL REFEREE SIGNING BELOW)

(This is page 6 of a 7 page Affidavit and Application.)

Signed at Newtown, Connecticut, on:	Date: Dec. 14, 2012	At (Time): 8:36 [ ] a.m. [✓] p.m.
Signed (Judge/Judge Trial Referee): [signature]	Print name of Judicial Official: 05373 Hon. John F. Blawie

Central District Major Crime Squad
294 Colony Road
Meriden, CT 06451
203-630-5650

Date and Time of Investigation: On Friday, December 21, 2012 at approximately 1205 hours, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the vehicle processing of a 2010 black Honda Civic bearing Connecticut registration 872YEO, VIN# 2HGFA1F51AH542299.

Location of Investigation: Connecticut State Police
Troop A – Southbury
90 Lakeside Road
Southbury, Connecticut 06488

Summary of Incident: On December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound. The suspect reportedly traveled from his residence to the Sandy Hook Elementary School utilizing a 2010 black Honda Civic bearing Connecticut registration 872YEO, VIN# 2HGFA1F51AH542299, which was registered to Nancy Lanza. This vehicle was located in front of the main entrance of the Sandy Hook Elementary School, parked in a no parking zone. The Connecticut State Police Crash

Analysis Reconstruction Squad (CARS) completed a supplemental scene diagram which indicates the exact location of the vehicle. The vehicle was seized and secured at Troop A – Southbury. A search and seizure warrant was approved by a Danbury Superior Court Judge.

Vehicle Processed: 2010 Black Honda Civic
Bearing Connecticut registration 872YEO
VIN# 2HGFA1F51AH542299

Vehicle Description: The vehicle is described as a 2010 Black Honda Civic bearing Connecticut registration 872YEO, VIN# 2HGFA1F51AH542299 with a grey interior. The exterior of the vehicle had minor scratches and minor contact damage to the front passenger side quarter panel. The interior of the vehicle appeared to be recently cleaned out with only three personal items in the entire vehicle. The personal items included a pair of sunglasses and a package of Kleenex located in the center console. Additionally, there was an Aveeno brand shampoo bottle located under the passenger front seat. Nothing was located in the glove compartment. The interior was very clean and in excellent condition.

Vehicle Owner: Nancy Lanza
DOB 09/06/60
36 Yogananda Street
Sandy Hook, Connecticut 06482

Evidence: During the course of this investigation, the Connecticut State Police Central District Major Crime Squad processed the above listed vehicle and seized ten (10) items of evidence. The evidence seized consisted of a Siaga 12 Shotgun with two magazines containing 20 rounds of ammunition and swabbings of various exterior surfaces for the purposes of identifying a potential DNA source. Investigators also identified and lifted a shoe impression from the front passenger side door of the vehicle. All evidence items are detailed on separate evidence report.

Evidence item five hundred and five (505) was turned over to Detective Keith of WDMC on December 15, 2012 approximately 0008 hours. At the conclusion of the vehicle processing on December 21, 2012 at approximately 1330 hours, evidence items five hundred and eleven (511) through five hundred and nineteen (519) were turned over to the TFC Gravel #388 of the Connecticut State Police, Troop A.

Separate reports will be submitted by the above investigators regarding their specific assignments for this investigation.

Action Taken:

On Friday, December 14, 2012, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the vehicle processing of a 2010 black Honda Civic bearing Connecticut registration 872YEO, VIN# 2HGFA1F51AH542299. The vehicle was located in front of the main entrance of the Sandy Hook Elementary School, parked in a no parking zone. The vehicle was suspected to be operated by the suspect Adam Lanza (DOB 04/22/82). The vehicle was seized and processed under the legal authority of a Search and Seizure warrant obtained by the members of the Connecticut State Police. During the initial stages of the investigation, investigators obtained information that the vehicle possibly contained a weapon located in the trunk. Investigators conducted a cursory search of the vehicle including the trunk and located a Siaga 12 Shotgun, serial #H08402282, with two magazines containing 20 rounds of ammunition (Exhibit # 505). The weapon was made safe, seized and turned over to Detective Keith of WDMC at approximately 0005 hours on December 15, 2012. The vehicle was later transported to Troop A – Southbury, where it was processed on December 21, 2012 by investigators.

The vehicle was processed at Troop A - Southbury, located at 90 Lakeside Road in the Town of Southbury, Connecticut. Processing consisted of investigators swabbing various interior and exterior surfaces of the vehicle, documenting the vehicle with video, digital photography, completing a motor vehicle survey and examining the interior and exterior of the vehicle for latent fingerprints and shoe impressions. Processing began at approximately 1211 hours and ended at approximately 1342 hours.

Investigators examined the entire vehicle for identifiable latent fingerprints. The process for developing latent prints consisted of the conventional method utilizing volcanic powder applied with fiberglass brushes on the surfaces conducive to fingerprinting. Investigators yielded negative results for latent prints, but a shoe impression was lifted from the front

passenger door (Exhibit #515). Investigators then conducted a systematic search of the vehicle at which time investigators identified numerous possible DNA sources. Evidence items #511 through #514 consisted of DNA swabbings from the exterior door handles of the vehicle. Evidence items #516 through #519 consisted of DNA swabbings from the interior door handles of the vehicle.

At the conclusion of the vehicle processing on December 21, 2012 at approximately 1330 hours, evidence items five hundred and eleven (511) through five hundred and nineteen (519) were turned over to the TFC Gravel #388 of the Connecticut State Police, Troop A.

Vehicle Processed: 2004 green Honda Civic
Connecticut registration 144WDM
VIN#2HGES165X4H594043

Vehicle Description: The vehicle is described as a 2004 green Honda Civic bearing Connecticut registration 144WDM, VIN#2HGES165X4H594043 with a tan interior. The exterior of the vehicle had three (3) suspected bullet strikes to the passenger side area. The vehicle had minor contact damage to the lower passenger side front bumper, lower driver side front bumper and driver side rear bumper. The interior had damage to the front passenger seat and rear passenger seat nearest the driver side door as a result of the suspected bullet strike. The vehicle's interior condition was clean and consistent with the model year and mileage.

Vehicle Owner: Lauren Rousseau
03 [redacted]

Evidence: During the course of this investigation, the Connecticut State Police Central District Major Crime Squad processed the above listed vehicle and seized three (3) items of evidence. The evidence seized consisted of bullet like projectiles from various locations within the vehicle. All evidence items are detailed on a separate evidence report.

Evidence item five hundred and six (506) through five hundred and eight (508) were turned over to Detective Keith of WDMC at the conclusion of the vehicle processing on December 16, 2012 at approximately 1754 hours.

tion Taken: On Sunday, December 16, 2012, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the vehicle processing of 2004 Honda Civic bearing Connecticut registration 144WDM, VIN#2HGES165X4H594043. The vehicle was processed at its original location in the Sandy Hook Elementary School parking lot. Refer to the Connecticut State Police Crash Analysis Reconstruction Squad (CARS) supplemental scene diagram for the exact location of the vehicle.

Processing consisted of investigators documenting the vehicle with video, digital photography, completing a motor vehicle survey, performing bullet trajectory and examining the interior and exterior of the vehicle for bullet projectiles. The main objective of the vehicle processing was to perform bullet trajectory and retrieve any and all bullet like projectiles from the vehicle. Processing began at approximately 1400 hours and ended at approximately 1640 hours.

During the processing of the vehicle, suspected bullet strikes (BS) were located and identified as BS2, BS3 and BS4. BS2 was located on the lower portion of the A-Pillar located on the passenger side front door. BS3 was located on the front passenger side door upper portion of the door. BS4 was located on the upper portion of the A-Pillar located on the passenger side front door. Refer to the supplemental bullet strike/trajectory report.

Investigators then conducted a systematic search of the interior of the vehicle, specifically to retrieve the suspected bullet like projectiles. Investigators retrieved bullet like projectiles from the front driver's side of the trunk area (Exhibit #506), from the front passenger's side of the trunk area (Exhibit #507) and from the passenger's side front A-Pillar (Exhibit #508). An additional cursory search of the interior of the vehicle yielded negative results for any other items of evidentiary value.

Evidence items five hundred and six (506) through five hundred and eight (508) was turned over to Detective Keith of WDMC at the conclusion of the vehicle processing on December 16, 2012 at approximately 1754 hours.

Vehicle Description: The vehicle is described as a blue 2006 Toyota Camry bearing Connecticut registration 913UNY, VIN#4T1BF32U56U628804, with a tan interior. The exterior of the vehicle had one (1) suspected bullet strike to the passenger side rear door. The vehicle had minor contact damage to the front bumper. The interior had damage to the interior portion of the rear passenger side door as a result of the bullet strike. The interior also had minor damage to the rear passenger seat, seat back portion as a result of the partial penetration of the suspected bullet strike. The vehicle's interior condition was very clean and consistent with the model year and mileage.

Vehicle Owner: 03, 04 [redacted]

Evidence: During the course of this investigation, the Connecticut State Police Central District Major Crime Squad processed the above listed vehicle and seized one (1) item of evidence. The evidence seized consisted of bullet like projectile fragments from the rear driver's side passenger seat area. The evidence item is detailed on a separate evidence report.

Evidence item five hundred and ten (510) was turned over to Detective Keith of WDMC at the conclusion of the vehicle processing on December 16, 2012 at approximately 1754 hours.

CSP CDMC Personnel and Assignments:

Sgt. James Thomas #129	CDMC Scene Supervisor
Det. Matthew Greenstein #864	Case Officer / Evidence Officer
Det. Patrick Meehan #377	Primary Digital Photography
Det. Christopher Fongemie #1032	Video
Det. Matthew Gunsalus #430	Vehicle Survey / Bullet Trajectory
Det. Peter Farr #1117	Secondary Digital Photography

Separate reports will be submitted by the above investigators regarding their specific assignments for this investigation.

Action Taken: On Sunday, December 16, 2012, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the vehicle processing of a blue 2006 Toyota Camry bearing Connecticut registration 913UNY, VIN#4T1BF32U56U628804. The vehicle was processed at its original location in the Sandy Hook Elementary School parking lot. Refer to the Connecticut State Police Crash Analysis Reconstruction Squad (CARS) supplemental scene diagram for the exact location of the vehicle.

Processing consisted of investigators documenting the vehicle with video, digital photography, completing a motor vehicle survey, performing bullet trajectory and examining the interior and exterior of the vehicle for bullet projectiles. The main objective of the vehicle processing was to perform bullet trajectory and retrieve any and all bullet like projectiles from the vehicle. Processing began at approximately 1720 hours and ended at approximately 1800 hours.

During the processing of the vehicle, a suspected bullet strike (BS) was located and identified as BS5. BS5 was located on the upper portion of the exterior driver's side rear passenger door. Refer to the supplemental bullet strike/trajectory report.

Investigators then conducted a systematic search of the interior of the vehicle, specifically to retrieve the suspected bullet like projectiles. Investigators retrieved bullet like projectile fragments from the rear driver's side passenger seat (Exhibit #510). An additional cursory search of the interior of the vehicle yielded negative results for any other items of evidentiary value.

Evidence item five hundred and ten (510) was turned over to Detective Keith of WDMC on December 16, 2012 at approximately 1754 hours.

Investigating Officer: Detective Matthew Greenstein #864
Connecticut State Police
Central District Major Crime Squad
294 Colony Road
Meriden, CT 06451
203-630-5650

Date and Time of Investigation: On Sunday, December 16, 2012 at approximately 1700 hours, investigators of the Central District Major Crime Squad were requested by the Western District Major Crime Squad to assist with the vehicle processing of a grey 2005 Toyota Sienna bearing Connecticut registration 600TVG, VIN#5TDBA23C25S047638, which is registered to [redacted]

cation of Investigation: Connecticut State Police
Troop A – Southbury
90 Lakeside Road
Southbury, Connecticut 06488

Summary of Incident: On December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound. During the investigation it was discovered that three vehicles in the parking lot of the school had sustained bullet strikes during the incident. One of the vehicles was a grey 2005 Toyota Sienna bearing Connecticut registration 600TVG, VIN#5TDBA23C25S047638, which is registered to [redacted].

Vehicle Processed: 2005 grey Toyota Sienna
Connecticut registration 600TVG
VIN#5TDBA23C25S047638

Vehicle Description: The vehicle is described as a grey 2005 Toyota Sienna bearing Connecticut registration 600TVG, VIN#5TDBA23C25S047638, with a grey interior. The exterior of the vehicle had one (1) suspected bullet strike to the front bumper and radiator. The exterior of the vehicle also had scratches to the passenger side rear quarter panel and sliding door. Additionally, the vehicle had minor scratches to the driver's side sliding door and contact damage to the front and rear bumpers. There was no interior damage related to the suspected bullet strikes. The interior of the vehicle appeared to be somewhat unkempt with personal belongings strewn about the passenger area, although the condition of the interior was unkempt, it was consistent with the model year and mileage.

Vehicle Owner: 03, 04 [redacted]

Evidence: During the course of this investigation, the Connecticut State Police Central District Major Crime Squad processed the above listed vehicle and seized one (1) item of evidence. The evidence seized consisted of bullet like projectile fragments from underneath the front bumper/radiator area. The evidence item is detailed on a separate evidence report.

Evidence item five hundred and nine (509) was turned over to Detective Keith of WDMC at the conclusion of the vehicle processing on December 16, 2012 at approximately 1754 hours.

Medical Examiner Supplemental Report

Date and Time of Investigation: December 15, 2012 through December 16, 2012.

Summary of Incident: On December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound.

Action Taken: On December 15, 2012, I attended the post mortem examinations for the victims of the above mentioned incident. Several items of evidentiary value were seized from the victims while they were located at the Office of the Chief Medical Examiner (OCME) in Farmington, Connecticut. I transferred those items from the OCME, via my assigned department vehicle (416WHK), to the scene. I arrived on scene and transferred the items of evidence to Det. Silby (WDMC) at approximately 1751 hours. It should be noted that at the conclusion of the autopsies, the OCME turned over bullet fragments (Exhibit #125) they had recovered and indicated that they did not correspond with any one specific victim.

On December 16, 2012, I attended the post mortem examination for the suspect (Adam Lanza). Several items of evidentiary value were seized from the suspect while he was located at the OCME. I transferred those items from the OCME, via my assigned department vehicle (416WHK), to the scene. I arrived on scene and then transferred the items of evidence to TFC Keith Asman (Troop L Evidence Officer) at approximately 1534 hours.

The following is the list of items of evidence taken from the corresponding victim or suspect:

Medical Examiner Supplemental Report

Date and Time of Investigation: December 15, 2012 through December 16, 2012.

Summary of Incident: On December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound.

Action Taken: From December 15, 2012 through December 16, 2012, members of the Connecticut State Police Central District Major Crime Squad (CDMC) attended the autopsies for the victims and suspect of the above mentioned incident at the Office of the Chief Medical Examiner in Farmington Connecticut. The following is a list of CDMC members that were present at the autopsies:

Sgt. James Thomas
Det. Matthew Gunsalus
Det. Matthew Greenstein
Det. Patrick Meehan
Det. Christopher Fongemie
Det. Peter Farr

The following is a list of Medical Examiner's that performed the autopsies:

Chief Medical Examiner H. Wayne Carver II, MD
Associate Medical Examiner Susan Williams, MD
Associate Medical Examiner Frank Evangelista, MD
Associate Medical Examiner Ira J. Kanfer, MD

The following is a list of the Medical Examiner numbers (ME#) corresponding with the victims and suspect, the doctor that performed the autopsy, the manner of death and cause of death:

ACTION TAKEN:

On Thursday, 21 March 2013, I removed the following exhibits from the WDMC evidence room and drove them to the State Police Forensic Laboratory:

5a, 6a, 8 Thru 12, 18, 19, 20, 22 Thru 25, 31, 34, 36a, 37a, 38a, 40 Thru 48,
53a, 54a, 93, 95, 98, 101 Thru 126, 503, 505 and 506

I arrive at the SPFL at 1500 hours. I was told by the SPFL staff that they would not be able to accept the evidence at this time. I subsequently secured the above evidence and drove it back to WDMC where I secured the evidence in the evidence room at 1700 hours.

I have scheduled with the lab to bring the exhibits on Wednesday, 27 March 2013 at 1300 hours.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME. DEC 02 2013

On Wednesday, 27 March 2013, I removed the following exhibits from the WDMC evidence room and drove them to the State Police Forensic Laboratory:

5a, 6a, 8 Thru 12, 18, 19, 20, 22*, 23 Thru 25, 31, 34, 36a, 37a, 38a, 40 Thru 48, 53a, 54a, 93, 95, 98, 101 Thru 126, 500, 501, 503, 505 and 506.

I arrive at the SPFL at 1210 hours and subsequently turned over this evidence to Evidence Control Officer Cara Niazi.

* Number 22 was assigned (22 WDMC) to indicate it is Western District Major Crime evidence, based on the fact the laboratory has taken in other exhibits with other case numbers related to this case under one Lab ID:12- 2105.

ATTACHMENTS:
Photocopy of Lab Request (5 pages)
Photocopy of lab receipt (4 pages)

Digital Photography Report

The following photographs, numbered one (01) through one hundred fifty-seven (157), submitted on photography proof sheets, were taken by this investigator on Sunday, December 16, 2012, during the course of scene processing at the Sandy Hook Elementary School in Newtown, Connecticut.

On Friday, December 14, 2012, Connecticut State Police personnel responded to the Sandy Hook Elementary School at 12 Dickenson Drive, Sandy Hook, Connecticut, to assist the Newtown Police Department with a reported active shooting incident. Upon arrival, law enforcement personnel confirmed the active shooting incident with multiple fatalities. Connecticut State Police – Major Crime Squad personnel were subsequently assigned to assist with the investigation.

The attached photographs were taken utilizing a Department issued Nikon D300 programmable digital camera. Auxiliary light sources and/or flash were utilized when necessary. The photographs were stored on an Efilm 4GB Compact Flash digital media card. Following documentation, the digital media card was downloaded onto a compact disc and forwarded to the State of Connecticut, Forensic Laboratory. The photographs were printed onto photography paper and additional compact discs were made. The digital media card has since been reformatted and no longer contains images of the scene.

All attached photographs depict images of the doors, door knobs, locking mechanisms located within the classrooms, conference rooms, and offices within the northeast corridor where suspect Adam Lanza accessed during the shooting incident. The photographs also depict doors, door knobs and locking mechanisms within the school's main office, including the Principal's office and Nurse's office. The purpose of the photographs was to document the conditions of the doors and aid investigators with documentation. Furthermore, the photographs were taken to supplement Detective R. Insalaco's (#748) documenting report pertaining to the conditions of doors, door knobs, and locking mechanisms.

EVIDENCE SUBMITTED:

18. **Digital Video Recorder (#352A)**
19. **Digital Video Recorder (#352B)**
20. **Digital Video Recorder (#352C)**

RESULTS OF EXAMINATION:

1. Submission #18 consisted of one (1) Pelco DX8116-1500 DVR with the serial number 840-0563. The submitting agency listed a different number as the serial number.

   A. The requested dates needed for extraction from this DVR were: 4/25/12, 4/28/12, 5/9/12, 5/10/12, 5/12/12, 5/19/12, 6/2/12, 6/3/12, 6/16/12 and 6/17/12.

   B. The oldest recorded date present on this DVR was 6/22/2012, therefore no examination was done.

RESULTS OF EXAMINATION CONTINUED:

2. Submission #19 consisted of one (1) Pelco DX8116-1500 DVR with the serial number 840-0574. The submitting agency listed a different number as the serial number.

   A. The requested dates needed for extraction from this DVR were: 4/25/12, 4/28/12, 5/9/12, 5/10/12, 5/12/12, 5/19/12, 6/2/12, 6/3/12, 6/16/12 and 6/17/12.

   B. The oldest recorded date present on this DVR was 10/03/2012, therefore no examination was done.

3. Submission #20 consisted of one (1) Pelco DX8116-1500 DVR with the serial number 840-0554. The submitting agency listed a different number as the serial number.

   A. The requested dates needed for extraction from this DVR were: 4/25/12, 4/28/12, 5/9/12, 5/10/12, 5/12/12, 5/19/12, 6/2/12, 6/3/12, 6/16/12 and 6/17/12.

   B. The oldest recorded date present on this DVR was 10/25/2012, therefore no examination was done.

CRIME SCENE LOGS
(Sandy Hook Elementary School)

ACTION TAKEN: On Thursday, December 20th, 2012, prior to securing from the Sandy Hook Elementary School at the completion of processing this school shooting incident, I observed several sheets of paper on a table in the lobby of the school. I observed these sheets of paper to contain handwritten material of names, dates and times, consistent with a crime scene log. I collected these sheets of paper and maintained them until Thursday, April 25th, 2013 when I turned them over to Troop A Major Crime Sgt. Josh Pattberg #130.

This crime scene log appears to begin on December 14, 2012 at approximately 1045 hours with a list of Newtown Police Officers on scene and documents CSP-Lieutenant David DelVecchia at 1059 hours. It is unclear from these documents who begins this log and holds this post. On December 14, 2012 TFC. Thomas Fabian #1100 takes over the task of the log and post at 1705 hours. TFC. Eagleston takes over the talk of the log and post at 2130 hours. TFC. Abbey #1314 takes over the log and this post on December 15, 2012 at approximately 0800 hours. The log appears to conclude on December 15th, 2012 at 1000 hours with the last logs on this date by TFC. Abbey #1314.

Medical Examiner Supplemental Report

Date and Time of Investigation: Thursday, May 8, 2013at approximately 0915 hours.

Summary of Incident: On December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect, Adam Lanza (DOB 04/22/82), who entered the school, shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound.

Action Taken: On Thursday, May 8, 2013at approximately 0915 hours, I went to the Office of the Chief Medical Examiner in Farmington, Connecticut to review the final medical examiner reports for the victims of Sandy Hook and Adam Lanza. The final medical examiner reports stated the following information for the victims and Adam Lanza:

CASE STATUS:
× 1 ACTIVE ☐ 2 CLEARED BY ARREST ☐ 3 SUSPENDED ☐ 4 EXCEPTIONAL CLEARANCE ☐ 6 NO CRIMINAL ASPECT ☐ F FUGITIVE

VIDEO REPORT – SANDY HOOK ELEMENTARY SCHOOL

ACTION TAKEN:
On Friday, 14 December 2012, I was assigned by Sergeant COVELLO, #0167, to produce a video recording during the processing of the scene of a multiple homicide investigation located at Sandy Hook Elementary School, 12 Dickenson Drive, Newtown, Connecticut.

A Cannon XL-1, color, digital video recorder and two Maxell, Mini DV, 60 minute color videotape cassettes and three Sony, Mini DV, 60 minute color videotape cassettes were used to produce the video recordings. The recordings were made using ambient and artificial lighting. A total of five video tapes were used to capture the scene and the inside of the Sandy Hook Elementary School.

The video commenced at approximately 1546 hours on 14 December 2012 and concluded on 20 December 2012 at approximately 2015 hours.

Videotape #1 of 5: Depicts footage of the scene and the surrounding conditions as found by members of the Western District Major Crime Squad upon their arrival. This videotape begins outside showing an overall view of the front of the school as well as the parking area. This video continues into the school capturing the entryway, hallway and classrooms containing victims.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME. DEC 02 2013

/TFC STEVEN A RUPSIS/	1260	12/02/2013 10:19 am 05595	/SGT JEFFREY T COVELLO/	0167

Videotapes #2 through #5: Depicts footage of the entire school to include hallways, classrooms, and the courtyard. The videos each contain a handwritten paper showing the date and time of each starting of filming. The filming ends at the entryway of the school, which had been processed.

The original recordings were copied onto a digital DVD disk (DVD-R). (See attached DVDs). The original recordings will be retained within the repository of the master video film file at Western District Headquarters, Litchfield, Connecticut.

CASE STATUS: Active.

EXHIBIT REPORT - EXHIBIT #0133 GLASS DISPLAY TABLE

On the morning of May 11, 2013, I was contacted by Detective Daniel Sliby of the Western District Major Crime Squad - Litchfield, via phone, requesting me to assist him with an assignment. The assignment was to printout a department evidence label that he had prepared in the CAD/RMS. I was then placed the label onto a glass display table that had been secured at the Troop A garage and covered with a cloth. Det. Sliby further advised me that this glass display table had been removed from the Sandy Hook Elementary School and transported to Troop A for safe keeping. Det Sliby and I then discussed placing this new exhibit into the Troop A garage evidence cage, which I stated to him, could be accomplished with little effort. The evidence label was printed and affixed to the glass display table. The table was then moved from the Troop A garage into the Troop A evidence cage.

At 12:11 hours I e-mailed Det. Sliby to advise him that the assignment was completed, with a Cc of the e-mail to Sgt. Josh Pattberg - WDMC-A. No further action to be taken.

SECONDARY DIGITAL PHOTOGRAPHY REPORT

On Friday, December 14, 2012 at approximately 0935 hours, the Newtown Police Department and the Connecticut State Police responded to an active shooter situation at Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The incident involved the suspect Adam Lanza (DOB 04/22/82), who entered the school and shot and murdered numerous victims, which ultimately ended with Adam Lanza dying of a self inflicted gunshot wound. The Central District Major Crime Squad was requested to assist the Western District Major Crime Squad in processing the scene at the Sandy Hook Elementary School located at 12 Dickinson Drive in Newtown, Connecticut. The following photographs were taken on December 14, 2012 as part of scene processing and are images of the victims of the homicide scene. The photographs were taken for victim identification purposes.

The following color photographs, being submitted as proof sheets, were taken by this investigator during the scene processing. The photographs taken during the course of processing the scene depict images of the scene and evidentiary items seized. The attached photographs are being submitted as back up photographs to the photographs taken during the course of processing. The color photographs were taken utilizing the unit's assigned NIKON D300 digital programmable camera. The built in flash and/or artificial lighting was utilized when necessary. The images were stored on a Lexar 1GB digital media card. The images were transferred to a CD and printed by the Connecticut State Police Forensic Laboratory. The digital media card was reformatted for future use and no longer contains the images captured at this incident.

The status of the investigation remains active.

SCENE REPORT
(INSIDE SCENE: Sandy Hook Elementary School)

DATE AND TIME
OF INVESTIGATION:

On Friday, December 14, 2012 beginning at approximately 1546 hours and concluding on Thursday, December 20th, 2012 at approximately 2130 hours detectives of the Western District Major Crime (WDMC) Van Squad processed the interior scene of a mass murder shooting incident at the Sandy Hook Elementary School located at 12 Dickinson Drive in the Sandy Hook section of the Town of Newtown, Connecticut. This scene was processed under the authority of a Consent to Search.

ASSIGNMENTS:

Supervisor:	Sgt. Jeffrey Covello #167

Liaison to Sgt. Jeffrey Covello: Newtown PD LT. Richard Robinson
(12/14/2012 to 12/18/2012)

ACTION TAKEN:

On the above mentioned date, time and location, members of the Western District Major Crime (WDMC) Van Squad processed the interior portion of the Sandy Hook Elementary School. The processing of this scene encompassed seven (7) consecutive days. The following is a synopsis of the events of each day relative to processing.

Day 1 (12/14/2012 to 12/15/2012): Initial photos/video
1546 to 0100 hrs. Evidence collection of ballistic evidence at entrance, lobby, and hallway.
Location documentation and removal of victims (removal at 2035 hours).
Location documentation and collection of firearms and Magazines.
Processing and removal of deceased suspect.

Day 2 (12/15/2012): Evidence collection and documentation (ballistics, BLS, etc)
1000 to 2200 hrs. Trajectory documentation and processing
Documentation of personal effects as requested
Organizing and drying victims clothing (Tent)

Day 3 (12/16/2012): Systematically search and remove items from rooms 10 & 8.
1200 to 0045 hrs. Trajectory documentation and processing (continued)
CT Forensic Science Lab walk-thru and considerations
Blood spatter documentation and stringing trajectory

Day 4 (12/17/2012): Trajectory and blood spatter documentation (continued)
1000 to 0020 hrs. Documentation of personal effects
Begin processing victims clothing (2000 hrs. to 0020 hrs.)

Day 5 (12/18/2012): Process victims' clothing-completed at 1933 hours.
1000 to1945 hrs. Identifying/Organizing personal effects from classrooms
(Supervisor: Sgt. DeCesare)

Day 6 (12/19/2012): Document EVAC plans
1000 to 2100 hrs. Document protocol compliances
Locate and document intercom system
Identifying/Organizing personal effects from classrooms (cont.)

Day 7 (12/20/2012): Final documentation and review documentation
1000 to 2130 hrs. Assist movers by packing/removing furniture in immediate scene
Identifying/Organizing personal effects from classrooms (cont.)
Closing of scene (Video/Photographs)
Secure victims clothing on crime van
Secure from scene (2130 hrs.)
Transport remaining evidence and clothing to WDMC Evidence
Room (secured @ 2215 hrs.)

SCENE REPORT

(INSIDE SCENE: Sandy Hook Elementary School)

DATE AND TIME OF INVESTIGATION:

On Friday, December 14, 2012 beginning at approximately 1546 hours and concluding on Thursday, December 20th, 2012 at approximately 2130 hours detectives of the Western District Major Crime (WDMC) Van Squad processed the interior scene of a mass murder shooting investigation at the Sandy Hook Elementary School located at 12 Dickinson Drive in the Sandy Hook section of the Town of Newtown, Connecticut. This scene was processed under the authority of a Consent to Search.

LOCATION OF INCIDENT: This scene was located at the Sandy Hook Elementary School located at 12 Dickinson Drive in the Sandy Hook section of the Town of Newtown, Connecticut.

SUMMARY: On Friday, December 14, 2012 beginning at approximately 0935 hours, the Newtown Police Department received a 911 call from the Sandy Hook Elementary School at 12 Dickinson Drive in the Sandy Hook section of the Town of Newtown, Connecticut from an unknown female stating that there was shooting within the Sandy Hook Elementary School. Newtown Police, State Police and Emergency Responders (ie: Ambulance and Fire Personnel) responded to the school for this active shooter complaint. The WDMC Van Squad was on scene at approximately 1140 hours but was staged at the Sandy Hook
Firehouse until such time as the scene was safe to approach. The WDMC Van Squad Squad was tasked with processing the inside of the Sandy Hook Elementary School, while the Central District Major Crime (CDMC) Van Squad was tasked with processing the exterior of the Sandy Hook Elementary School. (Please Refer to the CDMC Van Squad Reports relative to their assignments).

At the time of this incident the weather was dry, clear and sunny with temperatures in the 40s. At approximately 1330 hours, the WDMC Van Squad was positioned in front of the Sandy Hook Elementary School and members of the WDMC Van Squad conducted a walk-thru of the scene from approximately 1412 hours to 1426 hours. Videotape documentation began at approximately 1546 hours. Processing of this scene by the WDMC Van Squad continued for seven (7) days and at all times the WDMC Van Squad remained on scene and at all times this scene remained secured by uniformed State Police personnel.

Detective Karoline Keith

At the conclusion of the scene processing it was known that eighteen (18) children, four (4) teachers and two (2) administrators were deceased within the school and two (2) children were pronounced deceased at Danbury Hospital. Two (2) other adults (teacher/administrator) were injured and treated at nearby hospitals where they survived their injuries. Also known is that a total of one hundred and fifty four (154) expended 5.56 mm (.223 caliber) bullet casings were recovered from the school to include the patio area adjacent to the front lobby of the school. Two (2) expended 10mm bullet casings were recovered from within the school. Three (3) firearms were recovered from within the school to include a semi-automatic "Bushmaster" .223 caliber rifle, a Glock 10mm pistol and a Sig Sauer P226, 9 mm pistol. Additionally, three hundred and fifty three (353) live rounds of assorted ammunition were also recovered within the school. **[NOTE: this information does not include evidence seized by CDMC Van Squad which begins with Exhibit #500].**

Specific descriptions of clothing worn by the victims will be documented within this report and the exhibit report.

PROCESSING VICTIMS:

On Friday 12/14/2012, into the early morning hours of Saturday 12/15/2012, members of the WDMC Van Squad and the OCME began the processing efforts to document, identify and remove the bodies of the twenty four (24) victims and one (1) shooter from within the school.

The victims were first identified by assigning them a numeric number 3 thru 26. 01 02 03 12 [redacted] and number 27 was assigned to the shooter). Then an assigned "OCME case number" was written on a tag with their previously assigned numeric and was placed on each victim. Photographic and written scene documentation was completed capturing clothing worn, location of victim, and assigned "OCME number" with identifying photographs of the victim. (NOTE: Prior to processing, the victims were observed to have "triage tags" previously laid upon their bodies by EMS personnel denoting their deceased status).

Once documentation was complete, the victims were placed into a body bag with their associated OCME case number written on the bag while their OCME tag was left on the ground in the place the victim was found. Each victim was carried out of the school and into a large military-style portable tent located within the north parking lot of the school in close proximity to the front lobby. Each victim was then processed by the OCME in an effort to make a positive identification of each victim, using school photographs and clothing descriptions provided by the parents of the children yet to be accounted for. On Saturday, 12/15/2012, all of the victims were transported from the scene to the OCME in Farmington, Connecticut, for an autopsy at a later time.

The CARS UNIT were directed to measure the victims' locations after the victims were removed by using the assigned numeric tag that was placed on the floor beneath the center mass location of the victim's body after their removal. **(REFER TO THE SKETCH AND ASSOCIATED REPORTS COMPLETED BY THE CARS UNIT).**

Once all the victims were removed from the school, only the shooter's body remained within the scene. The shooter's body (#27) was removed only after all firearms and ballistic evidence were recovered and processed from his

person. On Saturday, 12/15/2012, the shooter was transported from the scene to the OCME in Farmington, Connecticut, for an autopsy at a later time.

CLOTHING PROCESSING

On 12/15/2012 at 1751 hours, Central District Major Crime (CDMC) Detective Greenstein transported the clothing, ballistic evidence, and jewelry seized from the deceased victims during autopsy from the OCME in Farmington, Connecticut, to the previously mentioned large military-style portable tent that was located on scene. WDMC Sergeant Covello assisted by FBI Agents Lisa Skelly, Sammy DiPasquale and TFC Kenneth Dillon systematically hung the clothing numerically associated to exhibit number and OCME number. Once the clothing was dry, it was subsequently processed by WDMC Van Squad detectives, FBI Agents Lisa Skelly, Sammy DiPasquale and TFC Kenneth Dillon within an adjoining tent on scene. Processing of some of the clothing started on Monday, 12/17/2012 beginning at 2000 hours and concluded on Tuesday, 12/18/2012 at 0020 hours. Processing of the clothing resumed again on Tuesday 12/18/2012 at 1000 hours and concluded at 1933 hours. Each victim's clothing was individually packaged and secured collectively into a banker's box with the victim's name and clothing exhibit number on the box. Clothing evidence was documented from Exhibit #55 thru Exhibit #77. **(REFER TO SGT. COVELLO'S NEXGEN REPORT #00019254).**

On 12/15/2012 at 1751 hours, CDMC Van Squad Detective Greenstein transported clear plastic vials that contained ballistic evidence consisting of copper and lead fragments. These vials containing ballistic evidence were seized at the time of autopsy from each of the victims by the medical examiner. These items were turned over at autopsy to CDMC Detective Greenstein and transported by him from the OCME in Farmington, Connecticut to the scene and turned over to WDMC Detective Sliby #810 (Evidence Officer at this scene). The ballistic evidence was documented from Exhibit #101 thru #126. It was noted that vials of copper and lead fragments were collected from each victim.

The clothing (Exhibit #83) and a Gun Shot Residue Kit (Exhibit #100) seized by CDMC Van Squad Detective Greenstein at the autopsy of the shooter on 12/16/2012, were transported to Litchfield, Connecticut, and secured by WDMC Detective Rupsis #1260 into the WDMC Evidence Drying Cage in Litchfield, Connecticut.

This clothing was processed further on 01/17/2013 by Detective Walkley #589 and Detective Keith #533. **(REFER TO SUPPLEMENTAL REPORT RELATIVE TO PROCESSING THE SHOOTER'S CLOTHING).**

OVERALL SCENE

According to Vision Government Solutions Inc. Assessor's online database, the property of Sandy Hook Elementary School was located at 12 Dickinson Drive in Newtown, Connecticut, and was documented as a 1 story building with a brick veneer exterior. This building was listed as a public school owned by the Town of Newtown. This building was documented as being 66,027 square feet and was built in 1954. It should be noted that I observed the exterior of the building to be constructed of brick and not brick veneer. It should also be noted that the sign for the Sandy Hook Elementary School denoted its established date as 1956. (The Town of Newtown contracted with Vision Government Solutions Inc. of Northboro, Massachusetts to assist with the state mandated revaluation project. The above information was obtained from the Assessor's online database for the Town of Newtown, CT). **Refer to the attached Vision Appraisal Data.**

The building was located at the end of Dickinson Drive. Dickinson Drive was located off the south side of Riverside Road and traveled in a southeast direction and curved in a south west direction to a large parking lot at the front (northeast) side of the school. At the intersection of Dickinson Drive and Riverside Road was the Sandy Hook Volunteer Fire and Rescue Company (18 Riverside Road).

The school building was positioned with its front entrance patio and lobby area facing in a magnetic northeast direction; however for report purposes NORTH will be designated as the front of the school which includes the patio, lobby, and the exterior sides of rooms 12 through 2. The parking lot will be designated in this report as being located on the north side of the school.

The school was designed in a rectangular shape with four hallways in the main building and portable classrooms attached to the rear (south) side and accessed from a hallway located in the center south side of the main building. Classrooms located on the exterior walls of the building were even numbered and those on the interior walls of the building were odd numbered. The north hallway contained the lobby, main office that also contained the nurse's office, rooms numbered 1-10, and 12. [NOTE: Det. Sliby refers in the Exhibit Report as this being the East-West hallway]. This area was the area that processing was concentrated, however the remainder of the school

Detective Karoline Keith

was documented through videography. **(Refer to Video Report by Detective Rupsis: Nexgen Report #00104381).** The west hallway contained the cafeteria, staff lounge, custodial office, gymnasium and rooms numbered 19, 20, 21, 23, 24, 25, 27 and 29. [NOTE: Det. Sliby refers in the Exhibit Report as this being the North-South hallway]. The south hallway contained the media center, and rooms 26, 28, 30-38, 40 &42. The east hallway contained the rooms numbered 46, 48-54, and 56. The portable classrooms located to the south of the main building housed rooms numbered 62, 64, and 68 including a group work room. There was a courtyard located in the center open area of the school building.

CONDITIONS OF DOORS AND WINDOWS

All windows and doors were documented within this report; however, it should be considered that the positions of the doors were changed during the emergency response and protective sweep of this building by police and emergency personnel.

Only three (3) areas had damage consistent with having been forcibly entered: (1) The front (north) window adjacent to the west side of the front lobby doors was broken with a large hole visible. (2) Classroom #3 interior door between Classroom #3 and Classroom #5 was observed to be forcibly entered to gain access into Classroom #5 with the words "Breach" written on the door. Classroom #5 hallway door was locked and not breached. (3) The north window on the south-east exterior side door was reportedly breached by police to gain entry through this door from this side of the building. This door was located between classroom #46 and classroom #48 and provided access into the east hallway. Police reports indicate that this door was breached by Newtown Police Officer Seabrook. **(Refer to Det. Lukienchuk's Nexgen Report #29085).**

OVERALL DESCRIPTION OF THE NORTH HALLWAY ROOMS

Rooms in the north hallway were all observed by me to be unlocked with the exception of classroom #5. All doors opened outward toward the hallway with all classroom doors recessed within the hallway, with the exception of rooms 11A-5 (Storage Closet), #9 (Conference Room), #1 (Miss. Pasani's Room) and #2. All door handles had a key lock on the outside of the door handle and no locking device on the inside. All doors were solid wood with a large circular window in the upper half of the door. Only Classroom #5 and #12 had their classroom door windows completely covered. Classroom #6 had an "Apple" decoration hanging on the inside portion of the window that partially blocked the view into the room through a closed door. All classrooms had a bathroom and a closet contained within the classroom. The bathrooms in the

00118939.pdf

north hallway classrooms were uniformly designed approximately 4'7" east to west and 3 feet ½ inch north to south. The door of each bathroom opened inward and away from the toilet. Each bathroom door had a knob push button lock on the inside and a key lock on the outside. The conference room did not have a bathroom. At the time of processing this scene, in the north hallway, only classroom #5 was locked from both the hallway and the interior door connecting Room #3.

The following rooms in the north hallway have an interior door that is shared by the two classrooms: #12 and #10, #8 and #6, #6 and #4 and #3 and #5.

WALKTHROUGH

On Friday, 12/14/2012, between 1412 hours and 1426 hours, members of the WDMC Van Squad conducted a walk-through of the scene. The purpose of the walk-through is to identify transient and conditional evidence, as well as to determine order and methods of processing. During the walkthrough and during the processing of this scene, members of the WDMC Van Squad wore Tyvek coveralls, latex gloves, masks and booties as deemed necessary.

PROCESSING COMMENCES

Processing began with videotaped documentation on Friday, 12/14/2012 at 1546 hours. Photographic documentation began on this same day at 1617 hours.

FRONT ENTRANCE/PATIO AREA

The patio area was located north of the main entrance to the lobby of the school. The patio floor was concrete and recessed into the east portion of the north side of the school. The east brick wall of the patio area constituted the west wall of classroom #12. The west brick wall of the patio area constituted the east wall of the mechanical area. The patio area had a roof covering and shrubbery plantings in the center portion of the patio. The shrubbery plantings were located west of the main entrance doors and north of the lobby windows. There were blood-like stains, consistent with drip stains, located on the concrete floor of the patio in the area north of the exterior door. These blood-like stains collectively comprised a drip trail and were consistent with first responding officers' statements as being attributed to the injured persons that were removed from the school during this incident. The exterior door of the mechanical area on the west side of the patio was observed to be partially open. The hilt of the knob was broken and the knob was unlocked. The kitchen area within the school could be accessed from a door this mechanical room.

The main entrance consisted of two locked full glass doors that were both hinged on the east side and opened outwardly using a pull handle. These doors were secured with an electronic locking mechanism and require the door to be unlocked electronically or opened from the inside. The doors could be opened from the inside with a Safety Door Exit Device with Extruded Aluminum Mechanism Housing (push bar). This push bar design was mounted horizontally across the middle portion of the door. These doors provided access to a vestibule. There are two locked doors on the south side of the vestibule that provide access into the lobby of the school. These two doors were similar to the entrance doors with full glass, hinge on the east side and a push bar design. The vestibule was made up of a cinderblock wall on the east side that was also the west wall with classroom #12. There were three (3) full length windows on the west side and the two entrance doors to the lobby on the south side of the vestibule.

On the exterior side of the main entrance doorway, adjacent to the west side of the west entrance door to the vestibule, was a "call box" buzzer system with a video camera. Gino Faiella (Director of Facilities for the Newtown Schools) stated that this call box was installed seven (7) years ago, 2005, and confirmed that the video camera does not record. The call box video is viewed live on three (3) monitoring systems located on the three (3) secretary desks in the main office with no recording capabilities. The electronic unlocking of the front doors is done by using a "key button" on any of the three (3) monitoring systems. (For further details refer to Det. Mudry's Nexgen Report #74667)

Adjacent to the west side of the front entrance doors were six (6) large pane glass windows that made up the north wall of the lobby area. The large pane windows measured individually approximately 85 ½ inches high and 49 inches wide. The large pane of glass immediately adjacent to the west side of the west main entrance door was broken with a large oval shaped opening in the glass. This broken area in the glass measured approximately 35 1/3 inches wide and 42 ½ inches high. Glass shards were located on the patio and plantings in the area adjacent to the north side (outside) of the glass window area and also on the tile floor in the lobby. **Eight (8) expended brass colored casings,** each with the head stamp "S&B 60 5.56x45", were located in the patio area just north of the broken window and front entrance doors. These casings were seized as Exhibit #5 and Exhibit #94.

LOBBY

The lobby measured approximately 28 feet north to south and 36 feet east to west. The lobby was accessed upon entry into the school from the main entrance on the north side of the school. The southeast corner of the lobby allowed open access to

00118939.pdf

the north hallway of the school. The southwest corner of the lobby allowed open access to the west hallway of the school. The cafeteria could be accessed through a door on the west wall of the lobby. This door opened into the lobby. The cafeteria door was wooden and had a circular window in the upper portion of the door. This door was found in the open position. The kitchen of the cafeteria could be accessed through a door on the west wall of the lobby, north of the cafeteria doors. This door had no window and was found in the open position. The main office could be accessed from a door on the south wall of the lobby. This office door was comprised of solid wood with a narrow vertical window located to the east side and upper portion of the door. There were four large square windows with four small rectangular windows above them on the south wall of the lobby (north wall of the office). These windows were located east of the office entrance door. Each window and the door window of the office were comprised of diamond wire glass. There was a long brown wooden bench located under the windows of the office on the south wall of the lobby.

The floor in the lobby was made up of square two foot by two foot black, brown and white porcelain tile. The lobby ceiling was approximately 8 feet high. The walls were comprised of white painted cinder block over tan colored tile with a blue painted divide between them. The lower portion of the wall was approximately 4 feet 7 inches of tan colored tile and the upper portion was approximately 3 feet four inches of white painted cinder block. **Sixteen (16) brass colored expended bullet casings,** bearing the head stamp "S&B 60 5.56x45", were located on the floor and within the lobby area. The expended casings were seized as Exhibit #6.

Adjacent to the south side of the north windows in the lobby were assorted display cases, magazine racks and furniture. In the center west side of the lobby area was a wood table with six (6) wood framed with blue cushioned chairs. Adjacent to the east side of the lobby area against the west glass wall of the vestibule were two (2) wood framed, with blue cushion, chairs and a wood, with blue cushion, love seat. Adjacent to the west side of the broken window on the north wall of the lobby was a wooden magazine rack and a wood framed, with blue cushion, chair. The magazine rack and one of the wooden framed chairs on the east side of the wood table had holes consistent with bullet holes within them. There was a stack of magazines in the magazine rack that had a hole consistent with a bullet hole going through the stack of magazines. The stack of magazines was seized collectively as Exhibit #132. The magazine rack and the chairs appeared to be out of place and a potted plant was tipped over consistent with a person or persons entering the lobby through the large hole in the glass on the north wall adjacent to the west side of the entrance door.

Detective Karoline Keith

There were eleven (11) damaged areas consistent with bullet strikes in the lobby area. These bullet strikes were located within the cinder block and tile covered walls of the south wall of the lobby and west wall of the west hallway, as well as a display case on the south wall of the lobby, a magazine rack, coffee table and a chair located in the northern portion of the lobby. On the south wall of the lobby, west of the main office door, was a large built in display case with sliding glass doors and decorative arrangements. Beneath this display case was a free standing glass display case table with assorted decorative arrangements. This free standing display case had a hole in the glass that was consistent with a bullet hole located in the front (north) portion of the west side. This free standing display case was seized as **Exhibit #133**. Picture frames hanging on the west wall of the west hallway in the area of the lobby were damaged with holes consistent with bullet holes. The cinderblock walls behind the picture frames had damage consistent with divots made by a projectile passing through the picture frames and hitting the wall. No projectiles were observed in these divots. Two of these damaged picture frames were seized as **Exhibit #130 and Exhibit #131**. Exhibit #130 was a glass encased framed picture of "Red Slider" with a bullet hole and Exhibit #131 was a glass encased framed picture of "A Bear Named Trouble" with a bullet hole. There were two (2) copper-like projectiles seized from the west hallway, with one being adjacent to the gym (center of west hallway) seized as **Exhibit #15** and the other being at the south end of the west hallway, seized as **Exhibit #16**. **(The locations of the bullet strikes in the lobby labeled BH#1 thru BH #11 were measured into a sketch map for documentation by the CSP-CARS UNIT. REFER TO THE SKETCH MAP AND ASSOCIATED REPORTS COMPLETED BY THE CARS UNIT).**

NORTH HALLWAY

The north hallway, as previously mentioned, contained the lobby, main office, nurse's room, rooms 1-10, and 12. The north hallway floor was made up of square two foot by two foot black, brown and white porcelain-like tile. The ceiling was approximately 8 feet high and the width of the hallway was approximately 8 feet 5 inches. The walls were comprised of white painted cinder block over tan colored tile with a blue painted divide between them. The lower portion of the wall was approximately 4 feet 7 inches of tan colored tile and the upper portion was approximately 3 feet 4 inches of white painted cinder block.

The even numbered rooms were on the north side of the hallway with classroom #12 being the western-most classroom and classroom #2 being the eastern-most. The odd numbered rooms were on the south side of the hallway with the main office being the western-most room and classroom #1 being the eastern-most. East of the main

00118939.pdf

office is a closet labeled "11A-5 storage" and east of the closet was a conference room identified as Room #9.

In the western-most area of the north hallway, before entry into the lobby area, were two deceased adult females, later identified as Principal Dawn Hochsprung (OCME#12-17592) and School Psychologist Mary Sherlach (OCME#12-17595). There was a writing easel lying on its side to the west of the victims. Newtown Police Detective Jason Frank reported to me that he put this easel in this location to prevent exiting children from seeing the victims.

- **Dawn Hochsprung** (d.o.b. 03 [redacted]) #3 [OCME#12-17592] was lying on her back in a position with her head to the west and her feet to the east, with her right side adjacent to the south wall of the hallway. Mrs. Hochsprung was positioned west of Mrs. Sherlach and east of the wooden bench located in the lobby beneath the main office windows. Mrs. Hochsprung's feet were touching Mrs. Sherlach's left shoulder. Mrs. Hochsprung had brown hair and was wearing a grey and red hooded sweater, red long sleeve shirt, blue jeans and calf-length brown colored boots. She had a ring on her right ring finger and a bracelet on her left wrist. There was a gold colored necklace in close proximity to the west side of her head. Jewelry seized at autopsy includes a gold colored ring, two silver colored rings (1 with a clear stone), gold colored chain necklace, two gold colored studded earrings, two gold colored with clear stone studded earrings, a charm bracelet, a wrist watch with a brown leather band and a gold colored bracelet. **[Clothing seized from OCME as Exhibit #71]**

- **Mary Sherlach** (d.o.b. 03 [redacted]) #4 [OCME#12-17595] was positioned lying on her back with her head to the south and her feet to the north and her head adjacent to the south side of the hallway. Mrs. Sherlach was wearing a blue long sleeve shirt, tan tank top shirt, blue jeans, blue socks with brown colored shoes. There was a pair of eyeglasses on the floor east of her body. There was a blue colored material around her head that was possibly a head dress or large neck scarf. Jewelry seized at autopsy includes two (2) silver colored hoop earrings each with a blue colored stone, silver colored wrist watch, black framed "JM New York" brand reading glasses (+2.50), four (4) gold colored rings (3 with stones). **[Clothing seized from OCME as Exhibit #58]**

Both victims were lying in pools of a blood-like substance appearing to originate from relative wounds on their bodies. Spatter of a blood-like substance was evident on the south wall of the hallway in the area of the two victims. The spatter was measured to

00118939.pdf

a range no higher than 2 feet 1 inch from the floor. The spatter areas had characteristics of various different spatter patterns. **One (1) brass colored expended bullet casing**, bearing the head stamp "S&B 60 5.56x45", was located and seized as Exhibit #78, from the floor in the location of Mrs. Hochsprung and Mrs. Sherlach.

There was a blue folder, with the name [redacted] written on it, located on the floor in the hallway west of the storage closet (denoted 11A-5). There were stains consistent with blood-like stains on the floor and east door jamb of the Room #9 (Conference Room) doorway. There was a stain consistent with a contact transfer pattern of a blood-like stain on the inside lower portion of the Room #9 (Conference Room) door. Two swabs of this blood-like stain were seized as Exhibit #89. Sgt. Cario reported to me that the area of this blood-like stain, in the threshold of Room #9, was the location he found a woman, later identified as Natalie Hammond. He placed her in a chair within the conference room until such time as she could be removed from the school for further treatment.

There was a hole consistent with a bullet hole (BH-12) in the bore side of the door to Room #9 (Conference Room). This door opened outward into the hallway with the hinge side on the west side. The damage to the door was consistent with this door having been open to some degree at the time the projectile passed through it. This door was wooden with a large circular window on the upper portion of the door. There was yellow caution tape applied to the hallway floor in the area of the conference door. On the floor of the hallway, within this rectangular area marked with caution tape adjacent to Room #9 (Conference Room) was a lead-like projectile that was seized as Exhibit #7. There was a hole consistent with a bullet hole (BH-13) in the south wall of the hallway adjacent to the east side of the east door jamb of Room #9 (Conference Room). **(The locations of these bullet strikes labeled BH#12 thru BH #13 were measured into a sketch map for documentation by the CSP-CARS UNIT. REFER TO THE SKETCH MAP AND ASSOCIATED REPORTS COMPLETED BY THE CARS UNIT).**

There were Police and EMS belongings on the north hallway floor adjacent to the west side of Room #5 to include two "Life Pacs." On the floor in the north hallway was a tan bin containing children's books located on the floor adjacent to the west side of classroom #10 and on the east side of classroom #7. Also on the north hallway floor located west of classroom #7 was a [redacted] back pack.

One (1) brass colored expended bullet casing bearing the head stamp "10mm Auto" was located and seized as Exhibit #8 from the south side of the north hallway floor just east of the conference room (Room #9).

REPORT TYPE:
☐ INITIAL ☐ ASSIST ☒ SUPP ☐ RE-OPEN ☐ CLOSING

ATTACHMENTS: ☐ STATEMENTS ☐ TELETYPE ☐ PHOTOS ☐ SKETCH MAP ☐ EVIDENCE ☒ OTHER

On the floor on the north side of the north hallway west of classroom #6 and east of classroom #8 were **four (4) live rounds** of 5.56 mm ammunition with the head stamp "S&B 60 5.56x45" (Seized as Exhibits #9-12). Adjacent to these live rounds was a "PMAG 30" black plastic magazine that contained **eleven (11) live rounds** of 5.56 ammunition. This magazine and the eleven (11) live rounds were seized as Exhibit #13.

At the southeast side of the north hallway was classroom #1 (Mrs. Perry and Miss Pisani). The door was located on the south wall of the north hallway and was located east of the east hallway. The door was not recessed into the hallway but instead opened directly into the hallway and was hinged on the east side. There was a hole, consistent with a bullet hole in the interior side of the lower portion the door to classroom #1. This projectile perforated the door leaving a hole on the exterior side of the door (BH#17) and a hole (BH#16) in the east wall of the north hallway to the south of classroom #1C (Custodial Closet). These series of holes are consistent with the door having been fully opened at the time the projectile inflicted the damage to the door.

There was a second hole in the east wall of the north hallway, in close proximity to the previously mentioned hole, also consistent with a bullet hole (BH-#15). This hole did not line up with any of the previously mentioned other holes in the door to classroom #1 and therefore would have occurred when the door was not fully open. There was a hole in the door for Room #1C (Custodial Closet) on the east wall of the north hallway in close proximity to the previously mentioned hole #15. This hole was also consistent with a bullet hole (BH-14). A copper jacketed projectile was seized as Exhibit #14 from the hallway area in close proximity to the threshold of classroom #1 entrance door from this hallway. There were blood-like stains on the floor in the hallway adjacent to the north side of classroom #1. There were blood-like stain areas consistent with shoe wear transfer patterns traveling from this hallway door into classroom #1, in a southeast direction, to the teacher's desk and then in a northeastern direction to the northeast exit door, into a vestibule, and out the exit door on the northeast side of the school. **(The locations of these bullet strikes labeled BH#14 thru BH #17 were measured into a sketch map for documentation by the CSP-CARS UNIT. REFER TO THE SKETCH AND ASSOCIATED REPORTS COMPLETED BY THE CARS UNIT).**

During processing, a purse with personal documents and a Connecticut Driver's License identifying this purse belonging to [redacted] was located in the north wall closet of classroom #1. This purse was inventoried in the presence of Lieutenant David DelVecchia. This purse contained seventeen ($17) dollars (1 ten

dollar bill and 7 one dollar bills) as well as a set of keys with a [redacted] emblem. At the request of Lt. DelVecchia, this purse and its contents were turned over to Newtown Police Lieutenant Robinson on 12/15/ 2012 at 1644 hours, to be returned to [redacted]

CONFERENCE ROOM (ROOM #9)

The conference room (Room #9) was located on the south side of the north hallway. The conference room door was located on the opposite side of the hallway and approximately 16 feet east of the entrance door for classroom #12. The conference room was approximately 39 feet east of the lobby. The conference room door, as previously mentioned, was wooden with a large circular window in the upper half of the door.

This window was not covered and the door was not locked. The conference room had a carpeted floor with an oval shaped conference table in the middle of the room. There were laptop computers and iPads on the table, as well as seven (7) paper name tags affixed to metal tag holders on the table. These name tags presumably denote the location of people sitting around this conference table. The name tags around the table denoted the names: [redacted], Natalie Hammond (Lead Teacher), Dawn Hochsprung (Principal), Mary Sherlach (School Psychologist), and [redacted] There was a laptop in the area of Mary Sherlach's name tag, and iPads in the area of Natalie Hammond, [redacted], and Dawn Hochsprung's name tags. It appeared from documents on the table that this was a Review Session for student [redacted]

This room appeared orderly with the exception that there were chairs tipped over on their sides. Two chairs were tipped over in the area of Dawn Hochsprung's name tag located on the south side of the conference table. There were two chairs tipped over in the southeast corner of the room adjacent to a rectangular table with a desk phone on top of it. The desk phone was a hard-lined phone and was on its receiver. There was a tipped over chair in the southwest corner of the room adjacent to a rectangular table. There was a cream colored hard-lined wall phone mounted in the center of the west wall. This phone was on its receiver. There was a chair tipped over on the west side of the entrance door. There was a chair on the east side of the entrance door that was upright and had blood-like stains on it. Sgt. Cario later reported to me that he placed Natalie Hammond in this chair to render her first aid.

00118939.pdf

The Emergency Evacuation Map was located inside Room #9 on the eastern door trim and was seized as Exhibit #82.

CLASSROOM #12 (Miss. Riog)

Classroom #12 was located on the north side of the north hallway and was the first classroom east of the front lobby. This classroom door was located approximately 23 feet east of the lobby and is accessed from a door that was recessed within the north side of the north hallway. As previously mentioned, the door opened outward (toward the hallway) and was wooden with a large circular window in the upper portion. This door was hinged on the east side. The window was covered on the outside (hallway side) with dark colored paper. The door could only be locked by using a key on the exterior door handle key lock. The interior door handle had no locking mechanism. This room was measured to be approximately 27 feet east to west and 30 feet north to south with carpeted floors and painted cinderblock walls.
Fluorescent ceiling lights automatically turned on when entering the room.

There were eight large glass windows across the north wall which provided a view into the front (north) parking lot of the school and a partial view of the front patio area. There were four panes of glass to each large window. The top and second from the bottom panes opened up in a push-style manner. None of these windows appeared to be open. These windows had four (4) venetian blinds that covered two (2) windows each. The western-most blind was fully open and the blind was fully retracted toward the ceiling. The blind adjacent to the western-most blind was extended approximately 3/4 length of the window and partially closed. The other two blinds were extended approximately 3/4 the length of the window and in the open position. There were large posters across the lower portion of the windows limiting the view into the parking lot, with the exception of the two western-most windows. There was a book case along the entire north wall under the windows that stood approximately 2 feet 5 inches high and 1 foot 6 inches deep. There were posters across the lower portion of the windows partially but not completely limiting the view into the parking lot. There were stacks of items and supplies on the top of the bookcase under the windows that partially blocked the view from these eight (8) windows.

The teacher's desk was located in the northwest corner of the room. On the south side of the teacher's desk was a white bag with an orange wallet that contained the Connecticut driver's license for Kaitlin Mary Roig (d.o.b. [redacted]. There was also a set of keys on the desk to include a vehicle key for a "BMW". The west wall of the classroom was a shared wall with the front lobby of the school. The northwest corner of this classroom was closest to the area of the front entrance to the school.

There was a bathroom located within the classroom in the southwest corner of the room. This bathroom had a door knob with a pushbutton locking device on the inside knob. The exterior knob had a key lock that could be used to unlock the door. There was a black scarf on the floor in the bathroom as well as some miscellaneous papers that appeared to have fallen off the exterior portion of the bathroom door. This bathroom door opened inward and was hinged on the east side. On the west wall north of the bathroom door was a sink with under/over cabinets. There was a large standing wood colored rolling cabinet with the word "Math" on it that appeared out of place. This cabinet was haphazardly positioned partially against the northeast corner of the sink cabinets. Sgt. Cario reported to me that this rolling cabinet was originally located in front of the bathroom door, preventing his view of the bathroom door. Sgt. Cario moved this rolling cabinet to access the bathroom in this room. **[REFER TO SGT. WILLIAM CARIO'S NEXGEN REPORT #00026724].**

This room appeared to be a typically furnished classroom, with three (3) clusters of desks and chairs positioned around the room. There was a cluster of four desks in the southeast side of the room, the center east side of the room and the center west side of the room. These desks appeared neat and orderly with the exception of one desk tipped on its side. This desk was the western-most desk of a cluster of four desks located in the southeast side of the room, northwest of the entrance door. There was an oval table near the center portion of the west wall.

There was a rectangular table adjacent to the center portion of the north wall, east of the teacher's desk. There was a smart board located in the north side of the east wall. There was a speaker above the smart board. There was a storage closet in the southeast corner of the room. The closet door had no locking mechanism.

There was a door that provided access into classroom #10 on the center of the east wall south of the smart board. This door opened into classroom #12 and was hinged on the north side. This door had a key lock on both sides of the handle and was unlocked. At the conclusion of processing this room, members of the Connecticut Forensic Lab were requested to review the processing efforts of the Western District Major Crime Squad. Specific to this room the lab personnel suggested that both handles of this door were swabbed in effort to collect any genetic material that may later determine if the shooter's DNA is present on these door handles. These swabs were seized as Exhibit #87 (swab from the handle on the classroom #12 side) and Exhibit #88 (swab from the handle on the classroom #10 side).

00118939.pdf

There was a cream colored wall mounted telephone located on the south side of the east wall, north of the closet. An "Emergency Response Plan" packet was hanging on the south wall adjacent to the east side of the entrance door. This packet was above a laminated map depicting the emergency evacuation route for this classroom. The "Emergency Response Plan" packet was seized as Exhibit #79. There were open wooden standing cubbies positioned in an "L" shape formation on the west side of the entrance door. These cubbies appeared to hold the personal belongings of the students. On top of one of the cubbies in close proximity to the west side of the entrance door was a cell phone. This cell phone was seized as Exhibit #86 (One (1) black colored "Blackberry" cellular phone with Sprint logo).

CLASSROOM #10 (Miss. Soto)

Classroom #10 was located on the north side of the north hallway and was the second classroom east of the front lobby. The hallway doorway for classroom #10 was approximately 27 feet east of classroom #12. This classroom was accessed from a door that was recessed within the north side of the north hallway. As previously mentioned, the door opened outward (toward the hallway) and was wooden with a large circular window in the upper portion. This door was hinged on the east side. This window was not completely covered but did have a decoration over part of the inside of the window. The door could only be locked by using a key on the exterior door handle key lock. The interior door handle had no locking mechanism. This room measured approximately 27 feet east to west and 30 feet north to south. This room was carpeted with painted cinderblock walls. Fluorescent ceiling lights automatically turned on when entering the room.

There were eight (8) large glass windows across the north wall with four (4) rectangular panes to each window. The second pane from the bottom and the top can be opened in a push-out style. The second panes were slightly open but the upper windows appeared closed. These windows provided a view into the front (north) parking lot of the school. There was a book case along the entire north wall under the windows that stood approximately 2 feet 5 inches high and 1 foot 6 inches deep. The windows on the north wall had four (4) venetian blinds that covered two (2) windows each. The blinds were partially retracted covering the upper 1/3rd of the window. All the blinds were closed with the exception of the eastern-most blind that was open. The eastern-most blind appeared inconsistent with the other blinds, in that it was open and the bottom portion of the blind was hanging lower on the west side than the east

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN, DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAINING TO THIS INCIDENT NUMBER. Detective Karoline Keith

side. There were posters across the lower portion of the windows partially but not completely limiting the view into the parking lot. There were stacks of items and supplies on the top of the bookcase under the windows that partially blocked the view from these eight (8) windows.

There were six (6) visible holes consistent with bullet holes in the metal framing of the top of the second pane of the third window from the east wall. There was one (1) hole in the glass on the lower east portion of the third pane of this same window. There were two (2) holes in the glass on the upper east portion of the second pane of this same window. One of the holes in the upper east side of the second pane was larger and visually contained one hole but due to the missing glass it was unclear if more than one (1) projectile caused this broken section of the window. All of these holes were consistent with bullet holes and there were **no less** than nine (9) holes in this window area. These holes and respective trajectory processing are described under the caption TRAJECTORY OF PROJECTILES IN ROOM #10.

This room appeared to be a typically furnished classroom, with two (2) clusters of desks and chairs. There was a cluster of eight (8) desks in the center of the room, south of a second cluster of eight (8) desks. These desks on the south center portion of the room were arranged like the letter "E" in an east to west direction. This cluster of desks measured approximately 13 feet north of the south wall and approximately 8 feet 9 inches east of the west wall and 9 feet 8 inches west of the east wall. The northern-most cluster of desks was arranged like an inverted letter "E" in an east to west direction. This cluster of desks measured approximately 17 feet north of the south wall and approximately 8 feet 5 inches east of the west wall and 10 feet 9 inches west of the east wall. The student desks were approximately 2 feet high, 2 feet wide and 1 foot 6 inches deep. The student desk chair was measured with an overall height of approximately 2 feet 4 inches, the seat bottom height was approximately 1 foot 4 inches and the depth of the chair was approximately 1 foot 2 inches.

There was a 14 foot 2 inch long shelf on the south wall west of the entrance door and east of the bathroom. This shelf was approximately 4 feet 7 inches high and one foot deep. There were coat hooks under the shelf that appeared to hold the personal belongings of the students, to include their backpacks. There was a rectangular table on the south side of the room, west of the entrance door.

There was a bathroom located within the classroom in the southwest corner of the room. This bathroom only contained a toilet and was measured to be approximately 4 feet 7 inches east to west and 3 feet 2 inches north to south. This bathroom had a door knob with a pushbutton locking device on the inside knob. The exterior knob had

State of Connecticut, Department of Public Safety- Investigation Report (DPS-302-C) (Revised 12/07/04)	DPS INCIDENT NUMBER: CFS-12-00704597	Page 21 of 54
REPORT TYPE: ☐ INITIAL ☐ ASSIST ☒ SUPP ☐ RE-OPEN ☐ CLOSING	ATTACHMENTS: ☐ STATEMENTS ☐ TELETYPE ☐ PHOTOS ☐ SKETCH MAP ☐ EVIDENCE ☒ OTHER	

a key lock that could be used to unlock the door. This bathroom door opened inward and was hinged on the east side. On the west wall north of the bathroom door was a sink with under/over cabinets. There was a storage closet in the southeast corner of the room. The closet door had no locking mechanism.

There was a door that provided access into classroom #12 on the center south side of the west wall, approximately 8 feet 6 inches north of the bathroom. This door opened into classroom #12 and was hinged on the north side. This door knob had a key lock on both sides of the handle and was unlocked.

There was a semi-circular table adjacent to the northwest corner of the room. There were two small book cases positioned parallel to each other and perpendicular to the north wall east of the semi-circular table.

The teacher's desk was positioned in the northeast corner. On the desk was an iPhone in a pink case with an associated phone number of [redacted] There was a brown purse adjacent to the east side of the desk that had a Connecticut driver's license #[redacted] in the name of Victoria L. Soto (d.o.b. [redacted]). There were cubbies on the south side of the teacher's desk. There was a black lunch container that also contained an AT&T cell phone and the "Sandy Hook Staff" photo ID in the name of Mrs. Murphy.

There was a smart board located in the center north side of the east wall, south of the teacher's desk. There was a speaker above the smart board. There was a large bulletin board with a smaller dry erase board attached to it along the east wall, south of the smart board. On the south side of the east wall attached to the bulletin board south of the dry erase board was an 8.5" by 11" piece of paper that was contaminated with a physiological substance. This paper was located on the east wall approximately 9 feet 1 inch from the south wall and 7 feet 6 inches from the floor. This piece of paper was seized as Exhibit #91.

There was a cream colored wall mounted telephone located on the south side of the east wall, north of the closet. An "Emergency Response Plan" packet was hanging on the south wall adjacent to the east side of the entrance door. This packet was above a map depicting the emergency evacuation route for this classroom. The "Emergency Response Plan" packet was seized as Exhibit #80.

Detective Karoline Keith

There was a Class Schedule on the bulletin board adjacent to the teacher's desk that noted what the class was scheduled to be doing at certain times of the day. It noted: 0830-0915-arrive and unpack. 0915-0930-morning meeting. 0930-1015-writing. 1015-1020-snack. **(Refer to the Attached Copy of the Class Schedule).**

DECEASED VICTIMS LOCATION WITHIN CLASSROOM #10

- [redacted] was located laying on her back on the floor in the center north side of the classroom between the two clusters of desks. Her head was to the west and her feet to the east. [redacted] was wearing [redacted] [Clothing was seized from OCME as Exhibit #57]

- **Mrs. Anne Marie Murphy** (d.o.b. [redacted]) #7 [OCME#12-17603] was located on the center west side of the room, west of the northern-most cluster of desks and northeast of the door that provides access to classroom #12. She was positioned face down and partially on her left side with her right arm entirely over the chest of a child later identified as [redacted] Mrs. Murphy was located partially on top of and along the east side of [redacted] Her head was to the south and her feet to the north. Her back left side was in contact with the west side of the western-most desk in the northern-most cluster. She was wearing a pink long sleeve sweater, tan top with straps, beige colored slacks, black socks and dress shoes. There was a gold necklace and pair of glasses in her right front pocket. A watch later identified as belonging to Mrs. Murphy was located approximately 3 feet south east of her position. Jewelry seized at autopsy included one pair of dark framed eye glasses, one metal neck chain, two (2) small gold colored hoop earrings, one (1) ring with stones. [Clothing was seized from OCME as Exhibit #65]

- [redacted] was located on the center west side of the room, west of the northern-most cluster of desks and northeast of the door that provides access to classroom #12. He was positioned face up on his back with both his legs bent completely at the knees and each adjacent to the right

and left sides of his hips. His head was to the north and his knees were to the south. His left (east) side was partially underneath Mrs. Murphy's right (west) side. Mrs. Murphy's right arm was entirely around the chest of [redacted] He was wearing [redacted]
[Clothing was seized from OCME as Exhibit #64]

- [redacted] was located northwest of Mrs. Murphy and in close proximity to Mrs. Murphy's right foot. [redacted] was located near the northwest corner of the room south of the center portion of the semi-circular table. [redacted] was observed in a crouched face down position with her left leg bent at the knee and hip and positioned under her left side. Her right leg was bent at the knee and hip and positioned out to her right side. Her head was to the east and her buttocks to the west. She was wearing [redacted] [Clothing was seized from OCME as Exhibit #61]

- [redacted] was located on the north side of the northern-most cluster of desks, southeast of the semi-circular table. His shoulders and head were underneath the second western-most desk. His head was to the south and his feet were to the north. He was lying on his left side facing west with his legs bent at the knees and hips in a west direction. He was in close proximity to both Mrs. Murphy and Mrs. Soto. Mrs. Murphy was located southwest and Mrs. Soto was located northeast of [redacted] was wearing [redacted]
[Clothing was seized from OCME as Exhibit #67]

- **Victoria Soto** (d.o.b. [redacted] #10 [OCME#12-17610] was located south of the north wall, between the two small book cases that were positioned parallel to each other and perpendicular to the north wall east of the semi-circular table. She was located approximately 2 feet northeast of [redacted]. She was observed to be lying on her left side with her legs bent at the knees and hips in an east direction. Her head was to the north and her buttocks was to

the south. Her left arm was extended perpendicular to the shoulder in an east direction and bent at the elbow in a north direction. She had a long gold colored neck chain around her neck that had her Sandy Hook Staff photo ID attached to it. The ID tag was grasped in her left hand. On the floor adjacent to the east side of her chest area was a set of keys to include a pink flamingo key fob. Mrs. Soto was wearing a green wool scarf, white long sleeve turtleneck sweater, green tank top, "Old Navy" brand blue jeans, black socks with green shamrocks, and calf-length brown colored boots. Jewelry was seized at autopsy to include silver colored with multi-colored leather neck chain with attached "Sandy Hook Staff Photo ID" in the name of Victoria Soto, four (4) rings (three gold colored and one silver colored) and two (2) pearl studded earrings. [Clothing was seized from OCME as **Exhibit #55**]

- [redacted] was reportedly removed from this room at the time of the incident by Newtown Officer William Chapman and transported to Danbury Hospital by ambulance where she later succumbed to her injuries. No clothing evidence from [redacted] was seized by WDMC. [redacted] was seized at autopsy. **(REFER TO DET. COMBES REPORT RELATIVE TO NPD OFFICER CHAPMAN'S STATEMENT-NEXGEN REPORT #00258158).**

CLASSROOM #10:
Total Deceased Children (including transported victim: [redacted]): 5
Total Deceased Teachers: 2
Total Surviving Children: 11 (assuming they all were attending school on this day)

THE SHOOTER

An adult white male, later identified as **Adam Lanza** (d.o.b. 04/22/1992) #27 [OCME#12-17618] was located just east of the rectangular table and northwest of the hallway entrance door within classroom #10. The shooter was later determined to be approximately 6 feet tall and weighed approximately 112 pounds, according to Dr. Sue Williams of the Office of the Chief Medical Examiners.

The shooter was lying on his right side facing in an east direction. His head was positioned to the south and his feet positioned to the north. The shooter's left arm

Det. K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

was along his left side with his forearm and hand across his lower back. His right arm was bent and underneath the right side of his body. His legs were bent slightly at the hips and knees with his knees in an east direction.

The following observations were made with the shooter located in his found position prior to moving his body. There was a blood-like substance on the left arm above and in the area of the left elbow. The shooter had reddish-brown hair and blue eyes and was wearing a pale green pocket vest over a black colored polo-style short sleeve shirt over a black t-shirt. He had yellow colored ear plugs in each ear. He was wearing black cargo pocket pants, black socks, black sneakers, a black canvas belt and black fingerless gloves on each hand. He had an empty drop holster that was affixed to his right thigh. This drop holster was black with a camouflaged padding affixed to the back (thigh side) of the holster and camouflage straps that secure the holster around the thigh. There were blood-like stains on the left lower portion of the green vest and the left trouser pocket of the black pants. There was tissue consistent with human tissue located on the outer portion of the left knee. There were blood-like stains consistent with a spatter pattern on the lower leg portion of both legs of the pants and the sneakers.

I observed an obvious injury to the right side and top front portion of the shooter's head consistent with bullet holes. There was a large pool of a blood-like substance on the carpet under and around the area of the shooter's head. Upon moving the shooter's body, two swabs of this blood-like stain were seized as Exhibit #90. These swabs were collected from the blood-like stain at a location of approximately 5 feet 4 inches from the south wall and 9 feet from the east wall. The shooter's clothing was seized during the autopsy at the OCME as Exhibit #83 (A-Q). Further photographic and written documentation was completed by Det. Walkley and Det. Keith relative to the shooter's clothing on January 17, 2013 **(Refer to supplemental Shooter Clothing (Exhibit #83) Processing Report).**

Weapons and Ammunitions on the Shooter's Person:
(All weapons were made safe by assigned Evidence Detective Dan Sliby #810).

- Left upper breast pocket of the vest were a total of three (3) magazines seized as Exhibit #41 (Two (2) "Sig Sauer" magazines each containing twenty (20) live rounds of 9 mm ammunition and one (1) "Plus 2" magazine containing eighteen (18) rounds of live 9mm ammunition). Each magazine was loaded to full capacity.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN, DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAINING TO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1) MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2) INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT: OR (3) INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Det. K. Keith	533	11/18/2013	Sgt. Jeffrey T. Covello	167	11/19/13

Detective Karoline Keith

- Right upper breast pocket of the vest were a total of three (3) magazines seized as Exhibit #45 (two (2) "Sig Sauer" magazines each containing twenty (20) live rounds of 9 mm ammunition and one (1) "Glock 10mm" magazine containing fifteen (15) live rounds of 10 mm ammunition). Each magazine was loaded to full capacity.

- Right lower vest pocket were two (2) black "PMAG 30" magazines each containing thirty (30) live rounds of 5.56 mm ammunition (head stamp S&B 5.56x45). These magazines were seized as Exhibit #46. Each magazine was loaded to full capacity.

- Left front trouser pocket of pants was a Sig Sauer P226 semi-automatic 9 mm pistol that was seized as Exhibit 20 (One Sig Sauer P226 9mm, S/N UU676027 handgun with an empty chamber and a magazine of eighteen (18) "Speer 9mm Luger" live rounds). This magazine was loaded to full capacity.

- Left cargo pocket of pants contained one (1) live round of 5.56mm ammunition (head stamp S&B 5.56x45) that was seized as Exhibit #40.

- Right cargo pocket of pants contained one (1) green colored "Winchester" 12 gauge shotgun shell that was seized as Exhibit #39.

- Left rear pants pocket contained two (2) "Glock 10 mm" magazines each containing fifteen (15) live rounds of 10 mm ammunition. These magazines were seized as Exhibit #43. Each magazine was loaded to full capacity.

- Right rear pants pocket contained two (2) "Glock 10 mm" magazines each containing fifteen (15) live rounds of 10 mm ammunition. These magazines were seized as Exhibit #44. Each magazine was loaded to full capacity.

253 live rounds of ammunitions on the shooter's person:

9 mm:	116 rounds
10mm:	75 rounds
5.56 mm:	61 rounds
12 ga:	1 round

Located on the floor underneath the shooter was one (1) black "PMAG 30" magazine containing thirty (30) live rounds of 5.56 mm ammunition (head stamp S&B 5.56x45). This magazine was seized as Exhibit #42. This magazine was loaded to full capacity.

Located on the floor east of the shooter was a "Glock" 10 mm semi-automatic pistol that was seized as Exhibit #19 (one "Glock" 10 mm, S/N SMA461). One round was partially loaded in the chamber, with a magazine of eight (8) rounds remaining). I observed this pistol to be lying on its left side pointed in a southwest direction. This pistol was measured to be approximately 2 feet 6 inches north of the hallway entrance door and approximately 2 feet 8 inches east of the suspect. This pistol appeared to be jammed with a partially open ejection port and one (1) live round of "10mm Auto" ammunition partially loaded into the chamber. This pistol contained one (1) "Glock 10mm" magazine that contained eight (8) live rounds of 10mm ammunition with the head stamp "10 mm Auto". (Magazines full capacity is 15). This pistol had numerous attached hairs to the front sight area of the pistol. These hairs were consistent in color with that of the shooter's hair. I observed one expended 10 mm casing located on the west side of the hallway entrance door in the area of the shooter. This expended casing was seized as part of Exhibit #37 (from the southwest quadrant of classroom #10). There were four (4) live rounds of 10 mm ammunition all with the head stamp "10mm AUTO" on the floor in the southeastern portion of the classroom which is also the area the shooter was located. These live rounds of 10mm ammunition were seized as Exhibits #22 thru #25. **[NOTE: Four live 10 mm rounds found under the body, nine live 10 mm rounds in the pistol, and two expended 10 mm casings located = 15 rounds total, making a full capacity magazine]**

A black colored "Flexfit" canvas "boonie-styled" hat was located on the floor northeast of the suspect. This hat was seized as Exhibit #21. This hat had blood-like stains, hairs and a hole consistent with a bullet hole in the forward portion of the top of the hat. This hole was consistent with having been worn by the shooter at the time the shooter received a bullet to the right rear lower portion of his head which exited out the top forward portion of his head and hat. There was a pair of small wire framed glasses on the floor north of Exhibit #19 (Glock 10 mm). These glasses had blood-like stains on them and appeared to be small and consistent with child size glasses. There was no deceased child in close proximity to the shooter's body.

TRAJECTORY OF SUSPECTED SUICIDE SHOT

There was a hole consistent with a bullet hole located in the ceiling tile located approximately 8 feet 1 inch from the south wall and 5 feet 2 inches from the east wall. This hole was documented in photographs as "SBH #1 room 10". This projectile struck but did not penetrate a corrugated metal ceiling that was

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN, DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAINING TO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1) MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2) INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT: OR (3) INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Det K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

elevated and behind the ceiling tile. This strike was documented in photographs as "Strike #1 A". The projectile ricocheted and was later located above the ceiling tile in classroom 8 and seized as Exhibit # 98 (a lead and copper projectile). In the ceiling there was only a knee wall separating the two rooms.Trajectory documentation was completed on this hole with a documented horizontal angle (right (east) to left (west) of 66 degrees) and a vertical angle of 40 degrees from the floor. At a height of 5 feet along the path of this trajectory the muzzle would be located at approximately 7 feet 7 inches from the east wall and 7 feet 9 inches from the south wall.

Trajectory documentation, locations of blood-like stains, tissue, hair, and the shooter's body are all consistent with the shooter standing and facing in an east direction at the time of receiving a suspected self-inflicted gunshot wound to the right side of his head.

"BUSHMASTER" semi-automatic rifle [Exhibit #17]

A Bushmaster caliber .223 riflé, model XM15-E2S with associated serial number L534858 was located on the floor of classroom #10 and was seized as Exhibit #17. This rifle was located west of the southern-most cluster of desks and east of the door on the west wall that provides access to classroom #12. This rifle was lying on its right side pointed in a northeast direction. This rifle had a shoulder strap that was attached in the front to the underside of the forearm in the area under the rear attachment for the front site. The rear portion of the sling attachment had become detached when a threaded nut failed and detached from the underside of the rear portion of the stock. The black threaded nut that was consistent with the sling attachment to the rifle was located on the floor in close proximity (approximately 2 feet northeast) of the rifle (Exhibit #17). This black thread nut was seized as Exhibit #33. It could not be determined whether the sling failed during use or when it was placed, thrown or dropped on the floor.

The rifle (Exhibit #17) was observed to be lying on the floor on its right side. The rifle safety indicator was on "FIRE". There was one (1) live round of 5.56 mm ammunition in the chamber and one (1) "PMAG 30" magazine in the magazine well, containing fourteen (14) live 5.56 mm rounds of ammunition. The charging handle was observed to be in the forward position with no obvious malfunctioning issues. The barrel of the rifle had a muzzle break.

The barrel appeared to have a chalky residue on all sides of the muzzle break to, and including, the front site. This weapon was made safe by assigned Evidence Detective Dan Sliby #810 with its configuration documented.

CLASSROOM #10 (Continued)

On the floor within inches of the barrel of Exhibit #17 (Bushmaster Rifle), there were two (2) empty "PMAG 30" magazines duct taped together in a tactical configuration. These two (2) magazines were seized as Exhibit #18. There was one (1) live round of 5.56 mm ammunition located on the floor in close proximity to the west side of the barrel of Exhibit #17 (Bushmaster rifle). This round was seized as Exhibit #34.

Search for casings and projectiles in classroom #10

Detective Sliby #810 measured equal distances on each wall of classroom #10 and cordoned off the room into four (4) quadrants. The southeast, southwest, northeast and northwest quadrants were established for purposes of collecting expended bullet casings and projectiles.

- **NE Quadrant**: Exhibit #36 (Fifteen (15) expended 5.56 mm casings and copper jackets and lead-like fragments)
- **NW Quadrant:** Exhibit #35 (one (1) expended 5.56 mm casing)
- **SE Quadrant:** Exhibit #38 (Twenty six (26) expended 5.56 mm casings)
- **SW Quadrant:** Exhibit #37 (Seven (7) expended 5.56 mm casings and one (1) expended 10 mm casing)

Six (6) lead projectiles were seized from the northwest quadrant and seized as Exhibits #26 and # 28 thru 32. One (1) lead projectile was seized as Exhibit #27 from the southwest quadrant near the door to classroom #12. One (1) lead and copper fragment with wood particles was seized as Exhibit #84 from the west wall approximately 8 inches from the floor and 1 foot 4 ½ inches from the south edge of the bookcase on the north wall. This projectile was in an area near the semi-circular table. There was a lead and copper like fragment that was seized as Exhibit #96 from the venetian blind on the north wall approximately 6 feet 8 inches from the floor and 4 ½ inches from the east wall. There was a copper jacketed projectile (seized as Exhibit #129) lodged in the top metal portion of the north corner of this bulletin board in an area above the teacher's desk. There was a lead and copper like fragment seized as Exhibit #85 from the top metal bulletin board frame on the east wall. This

projectile was measured to be approximately 7 feet from the floor and 5 feet 8 inches from the north wall.

Spatter of blood-like substance, 03 12 [redacted]

The "majority" of blood-like substance consistent with impact spatter, projected spatter and contact transfer patterns were measured to be no more than 3 feet high and in close proximity to where each victim was located. 03 12 [redacted] 03 12 [redacted] No definitive impact patterns could be discerned from the blood-like stains in these higher locations. 03 12 [redacted] The underside of the semi-circular table had a large amount of blood-like substance to include tissue. There was a large amount of contact transfer and impact spatter on the north west side of the shelf along the north wall in the area north of the semi-circular table. This area north of the semi-circular table had blood-like stains consistent with a saturation stain and spatter stains. There was no deceased victim observed to be in the area of these stains during processing. Based on the characteristics of these stains, the lack of any deceased victim in the area of these stains, this area is consistent with the area that 01 02 03 12 [redacted] was removed from by Newtown Officer Chapman. (Refer to Det. Peters Nexgen Report #00085751)

WDMC Van Squad detectives and members of the OCME physically collected 03 12 [redacted] from areas within this classroom. This collected material was then turned over to the OCME for further examination.

TRAJECTORY OF PROJECTILES IN ROOM #10

As previously mentioned there were eight (8) windows across the north wall, each with four rectangular panes. The top and second from the bottom panes open in a push out fashion. Each of the second panes of glass in each of the eight windows was partially open.

00118939.pdf

As previously mentioned, in the metal framing of the top of the second pane of the third window from the east wall were six (6) visible holes consistent with bullet holes. There was one (1) hole in the glass on the lower east portion of the third pane of this same window. There were two (2) holes in the glass on the upper east portion of the second pane of this same window. One of the holes in the upper east side of the second pane was larger and visually contained one hole but due to the missing glass it was unclear if more than one (1) projectile caused this broken section of the window. All of these holes were consistent with bullet holes and there were **no less** than nine (9) holes in this window area. There was no tissue, hair or blood-like stains surrounding the areas of these holes.

The characteristics of the holes in the metal frame consisted of the metal being bent outward toward the parking lot. The characteristics of the holes in the glass window consisted of the inside of the glass around the hole being smooth and the concaved cone fracture being located on the outside of the glass. These characteristics of the holes observed in both the metal and glass portions of the window were consistent with these projectiles exiting classroom #10 in a direction toward the north parking lot.

Trajectory efforts were conducted on four (4) of the holes that were observed in the metal frame of the top portion of the second window pane. These holes were the only holes that had enough integrity to produce a low degree of variance when reconstructing the trajectory of these projectiles. These holes were identified as BH#1-4 for the purposes of trajectory in this room and should not be confused with documented bullet holes in the lobby that may have been identified with the same designation (BH#1-4). [NOTE: This window was partially open but the position of the window did not affect the trajectory as the metal frame was fixed and did not move with the window.]

BH#1 was measured to be:

- 7 feet 8 inches from the east window
- 5 feet from the floor.
- 2 degrees upward Vertical angle
- 49 degree (west to east) Horizontal angle

BH#2 was measured to be:

- 7 feet 9 inches from the east window
- 5 feet 1 inch from the floor
- 1 degree upward Vertical angle
- 50 degree (west to east) Horizontal angle

BH#3 was measured to be:

8 feet 9 inches from the east window
5 feet 0 inch from the floor
1 degree upward Vertical angle
51 degree (west to east) Horizontal angle

BH#4 was measured to be:

8 feet 10 inches from the east window
5 feet 0 inch from the floor
1 degree upward Vertical angle
51 degree (west to east) Horizontal angle

TRAJECTORY REPORT:

The trajectory performed within classroom #10 indicated that the four (4) projectiles were similarly traveling in a northeast direction along a similar path within classroom #10 in the area of the door to classroom #12 on the west wall and in the direction over the known location of the bodies of Anne Marie Murphy, 01 02 03 12 and Victoria Soto. It was also evident that with the shooter's standing height approximately 6 feet, and the trajectory at a 1 to 2 degree upward path (+ or – 5 degree of reasonable variance) and at a height of approximately 5 feet from the floor, and a distance of approximately 29 feet to the west wall, these projectiles could have reasonably originated from <u>any point</u> along the trajectory path within this room.

The hole consistent with a bullet hole in the glass on the lower east portion of the third pane of the third window from the east wall was measured to its center to be approximately 7 feet from the east wall and 5 feet 6 inches from the floor. Trajectory was not performed on this hole due to the missing glass that compromised the integrity of the hole that is needed to produce a lowest degree of variance when reconstructing the trajectory of the projectile.

Outdoor Trajectory

Three (3) vehicles parked in the north parking lot and located northeast of the windows of classroom #10 had damage consistent with bullet holes. These vehicles and the damage to each of these vehicles were documented by the CDMC Van Squad.

ATTACHMENTS: ☐ STATEMENTS ☐ TELETYPE ☐ PHOTOS ☐ SKETCH MAP ☐ EVIDENCE ☒ OTHER

Trajectory was performed by members of the WDMC Van Squad on two (2) holes of the four (4) holes previously mentioned as being located in the top metal frame portion of the second window pane of the third window from the east wall of classroom #10. The laser was mounted on the trajectory rod and in both cases the laser terminated at a point on a vehicle struck, however, the actual hole on the vehicle was located three to four feet north of the laser area and on the same horizontal plane. That is to say that the point was the same height from the ground as the bullet hole but was three to four feet south of the actual hole. This information is consistent with the projectile having hit an intermediary barrier (metal window frame) at an angle and deflecting to its impact sight thereby not matching the actual straight direction of the laser end point. It should be noted that there was no damage consistent with a bullet hole or strike in the area of the laser end point on the vehicles. No further trajectory was attempted, by the WDMC Van Squad, from the window into the parking lot due to the previously demonstrated fact that the projectiles were deflected, from the intermediary object (the windows), and therefore such trajectory efforts would not glean any fruitful information.

CARPET and OTHER OBSERVATIONS

There were numerous furrow holes consistent with bullet holes in the carpet area in the northwest quadrant in the area of the deceased victims and in most cases in an area that was under the victims. This carpet was cut and pulled back in an effort to recover any remaining lead projectiles with no projectiles located. A 14 feet 2 inches (east to west) and 11 feet 7 inches (north to south) section of carpet was cut from a point adjacent to the west wall with the northwest edge of the cutting approximately 5 feet 9 inches south of the north wall. The projectiles had in each case, penetrated through the carpet, through the tile located under the carpet and into the concrete flooring. The holes in the carpets and very few bullet holes in the west wall or north windows and bookcases, 03 12 [redacted] Evidence of soot, charring and muzzle blast in the area of the bullet holes and of the clothing material of the victims' also indicates that many of these rounds of ammunition were shot 03 12 [redacted] Holes and damage consistent with bullet strikes/holes were document as BH #18 thru #28 from within classroom #10. **(The locations of these bullet strikes labeled BH#18 thru BH #28 were measured into a sketch map for documentation by the CSP-CARS UNIT. REFER TO THE SKETCH AND ASSOCIATED REPORTS COMPLETED BY THE CARS UNIT).**

EXPENDED CASINGS SEIZED (TOTAL: 50)

5.56 mm: 49 (by quadrant: 1-NW, 15-NE, 7-SW, 26-SE)
10 mm: 1

CLASSROOM #8 (Mrs. D'Amato)

Classroom #8 was located on the north side of the north hallway and was the third classroom east of the front lobby, with its entrance door approximately 27 feet east of classroom #10. This classroom was accessed from a door that is recessed within the north side of the north hallway. As previously mentioned, the door opened outward (toward the hallway) and was wooden with a large circular window in the upper portion. This door was hinged on the east side. This window was not covered. The door could only be locked by using a key on the exterior door handle key lock. The interior door handle had no locking mechanism. This room measured approximately 27 feet east to west and 30 feet north to south. This room was carpeted with painted cinderblock walls. Fluorescent ceiling lights automatically turned on when entering the room.

There were eight (8) large glass windows across the north wall with four (4) rectangular panes to each window. The second pane from the bottom and the top pane could be opened in a push-out style. These windows provided a view into the front (north) parking lot of the school. There was a bookcase along the entire north

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Det. K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

wall under the windows that stood approximately 2 feet 5 inches high and 1 foot 6 inches deep.

The windows on the north wall had four (4) venetian blinds that covered two (2) windows each. The western-most blind was fully retracted and the other three (3) blinds were extended half the length of the windows and closed. There were posters affixed to the three (3) extended blinds. There were stacks of items and supplies on the top of the bookcase under the windows that partially blocked the view from the bottom and second from the bottom panes of glass in these eight (8) windows.

This room appeared to be a typically furnished classroom, with three (3) clusters of desks and chairs. There was a cluster of five desks in the southeast and southwest side of the room. There was a cluster of six desks located in the center north side of the room. The center of the cluster of five desks in the southeast side of the room was measured to be approximately 9 feet 6 inches from the south wall and 17 feet 5 inches from the west wall. The center of the cluster of five desks in the southwest side of the room was measured to be approximately 11 feet 2 inches from the south wall and 8 feet 9 inches from the west wall. The center of the cluster of six (6) desks in the center north side of the room was measured to be approximately 17 feet 10 inches from the south wall and 13 feet 1 inch from the west wall.

The student desks were standard and measured to be approximately 2 feet high, 2 feet wide and 1 foot 6 inches deep. The student desk chair was measured with an overall height of approximately 2 feet 4 inches, the seat bottom height was approximately 1 foot 4 inches and the depth of the chair was approximately 1 foot 2 inches.

There were two (2) approximately 14 feet 2 inch long shelves on the south wall west of the entrance door and east of the bathroom. These shelves were located with one above the other. The first shelf was approximately 3 feet 4 inches high and the second shelf was approximately 5 feet 4 inches high and both were approximately one foot deep. There were coat hooks under the shelf that appear to hold the personal belongings of the students, to include their backpacks.

There was a bathroom located within the classroom in the southwest corner of the room. This bathroom only contained a toilet and was measured to be approximately 4 feet 7 inches east to west and 3 feet 1/2 inch north to south. This bathroom had a solid wood door and a door knob with a pushbutton locking device on the inside knob. The exterior knob had a key lock that could be used to unlock the door.

State of Connecticut, Department of Public Safety- Investigation Report (DPS-302-C) (Revised 12/07/04)	DPS INCIDENT NUMBER: CFS-12-00704597	Page 36 of 54

The bathroom door opened inward and was hinged on the east side. On the west wall, north of the bathroom door, was a sink with under/over cabinets. There was a storage closet in the southeast corner of the room. The closet door had no locking mechanism.

There was a rectangular table located adjacent to the book cases on the center west wall. There was a semi-circular table adjacent to the center portion of the north wall. The teacher's desk was positioned in the northeast corner. There was a purse on the desk chair at the teacher's desk with a Connecticut driver's license #187347431 in the name of Lauren Rousseau (d.o.b.[redacted]). This purse also contained an iPhone and $30.00 in US cash currency (1 twenty and 1 ten dollar bill). On the teacher's desk was the "Substitute plan for Amanda D'Amato" dated 12/14/2012. Mrs. D'Amato was documented in the main office as being absent on 12/14/2012 and having Miss Rousseau as a substitute teacher for her class in classroom #8. The Substitute Plan documented from 9:00 am-9:15 am-morning work, 9:20-9:30 Morning Meeting, and 9:30-1015-Writing. **(SEE ATTACHED COPY OF PAGES 1 and 2 OF THE SUBSTITUTE PLAN AND STAFF ATTENDANCE SHEET).**

There was a door located on the north side of the east wall behind the teacher's desk. This door opened inward to classroom #6 and was hinged on the north side. This door knob was unlocked and had key locks on both sides of the door.

There was a smart board located in the center north side of the east wall, south of the teacher's desk. There was a speaker above the smart board. There was a large bulletin board with a smaller dry erase board attached to it along the east wall, south of the smart board. There was a cream colored wall mounted telephone located on the south side of the east wall, north of the closet. An "Emergency Response Plan" packet dated August 8, 2012 was hanging on the south wall adjacent to the east side of the entrance door. This packet was above a map depicting the emergency evacuation route for this classroom. The "Emergency Response Plan" packet was seized as Exhibit #81.

DECEASED VICTIMS in Classroom #8:

The deceased children of classroom #8 were originally located by CSP-Sergeant William Cario to be inside the bathroom with the bathroom door in the fully opened position. The bathroom door opened in a south direction into the bathroom with the hinge on the east side. Six (6) photographs were taken by CSP-Trooper Carlos

Guerrera at the time Sgt. Cario was checking the victims for signs of life. These six (6) photographs were seized as **Exhibit #51**. These photographs depict the children victims within the bathroom and the two (2) adult female victims, later identified as **Rachel D'Avino (d.o.b**[redacted] **[OCME#12-17609]** and **Lauren Rousseau (d.o.b.** [redacted]**) [OCME#12-17606]** located adjacent to the north side of the bathroom door on the floor against the cabinets under the sink in the southwest corner of the classroom.

From the photographs depicted of Sgt. Cario, he can be observed checking for signs of life in the photographs seized as **Exhibit #51**. It appears from the photographs that [redacted] was close to the door of the bathroom. [redacted] was observed to be close to the door and east of the toilet. [redacted] was observed along the east side of the bathroom. [redacted] was observed west of [redacted] and east of the toilet. No other children's locations were identifiable from these photographs.

Sgt. Cario removed twelve (12) of the fifteen (15) children from the bathroom. One (1) child [redacted]) was transported to the hospital. The eleven (11) others were placed on the floor of classroom #8. Three (3) children remained within the bathroom. The two (2) teachers remained in their original found position. Crime Scene Photographs taken by Det. Walkley and Det. Tranquillo depict the scene as it appeared after Sgt. Cario had removed most of the children from the bathroom. Sgt. Cario reported to me that the children that were positioned farther away from the bathroom were the ones he removed last and the children closer to the bathroom and in close proximity to the teachers were removed first. The deceased children were spread out by Sgt. Cario in an east direction over an area of 21 feet from the west wall and 9 feet from the south wall in an effort to find survivors and check the children for signs of life.

There were three (3) children left in the bathroom after checking for signs of life. These children were [redacted] was located slumped to the floor in a seated position partially on her right side on the south side of the toilet [redacted] was located, adjacent to the southwest corner of the bathroom, in a standing position and bent over the south side of the toilet. [redacted] was located in a seated position with her back against the west wall on the north side of the toilet. **(REFER TO SGT. CARIO'S NEXGEN REPORT #0026724 AND SGT. COVELLO'S NEXGEN REPORT #002530-relative to Exhibit #51-TFC. Carlo Guerra's six (6) photographs)**

DECEASED TEACHERS OF CLASSROOM #8

- **Rachel D'Avino** (d.o.b. [redacted] #23 [OCME#12-17609] was in a crouched position; face down with her head in a south direction against the west bathroom door jamb and partially inside the bathroom. Her right leg was positioned fully bent at the knee and hip and positioned under the right side of her torso. Her left leg was bent at the hip and knees and positioned on the east side of her body. Rachel D'Avino was wearing a black, grey and white short sleeve sweater, white shirt with straps, black jeans and white socks and New Balance brand grey and pink sneakers. Jewelry seized at autopsy included two (2) silver colored earring studs. [Clothing seized from OCME as Exhibit #68].

- **Lauren Rousseau** (d.o.b. [redacted]) #22 [OCME#12-17606] was located to the north side of Rachel D'Avino. There was a grey plastic waste paper basket and a blue plastic recycling paper basket adjacent to the northeast side of the lower cabinets under the sink in the southwest corner of the room. Lauren Rousseau was positioned lying on her back partially on her right side with her feet pointed in an east direction and her head in a south direction. Her shoulders were against the grey plastic waste paper basket and her head was on the left buttock of Rachel D'Avino. Lauren Rousseau was wearing a grey and white herringbone patterned long sleeve sweater, grey top with straps, blue jeans, grey and blue argyle socks, and black leather zip up boots. She had her Sandy Hook staff photo identification on a lanyard around her neck Jewelry was seized at autopsy to include Vera Bradley brand multi colored neck lanyard, "Sandy Hook Staff Photo ID" in the name of Ms. Rousseau, Pandora-like charm bracelet, one gold colored wrist watch, one silver colored ring, one pair of dark framed eye glasses. [Clothing seized from OCME as Exhibit #59]

  There was a large amount of blood-like stains on the east side of the cabinets under the sink in the area Lauren Rousseau and Rachel D'Avino.

One (1) child [redacted] survived the shooting within the bathroom of Classroom #8 and was removed from the school prior to processing. Reportedly [redacted] was removed from the school by Newtown Police Officer Leonard Penna **(Refer to Tpr. Combes' Nexgen Report #00258036)**

CLASSROOM #8:

Total Deceased Children (including transported victim: [redacted]): 15
Total Deceased Teachers: 2
Total Surviving Children: 1

Spatter of blood-like substance in bathroom of classroom #8

As previously mentioned the bathroom was located within the classroom in the southwest corner of the room. This bathroom was measured to be approximately 4 feet 7 inches east to west and 3 feet 1/2 inch north to south. This bathroom contained only a toilet. The toilet was on the center west wall positioned eastward. There was a large plastic circular toilet paper dispenser affixed to the south wall, from 2 feet 1 inch to 3 feet 3 inches from the floor and 1 foot 10 inches to 3 feet from the west wall. The bathroom door entrance was located on the east side of the north wall of the bathroom. The bathroom door was solid wood (no windows) and had a door knob with a push button locking device on the inside knob. The exterior knob had a key lock that could be used to unlock the door. At the time of processing, this door knob was in the "unlocked" position. As previously mentioned, this bathroom door opened inward and was hinged on the east side. The doorway was approximately 2 feet 3 inches wide and 6 feet 7 inches high. The bathroom had 4 inch square brownish colored tile from the floor to a height of 4 feet around the walls of the bathroom. The rest of the wall was white painted cinder block from the tile (4 feet height) to the ceiling (7 feet 10 ½ inches). Each cinderblock was approximately 1 foot 8 inches wide and 8 inches tall.

All the walls, the floor and ceiling were covered in a blood-like substance [redacted]

The east wall of the bathroom had a distinguishable void pattern that was measured to be approximately 2 feet 3 inches wide (width of door). The exterior side of the bathroom door had a substantial amount of blood-like substance while the interior side of the bathroom door was clean. The void on the east wall and the blood-like substance on the exterior side of the bathroom door were consistent with the door

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN, DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAINING TO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1) MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2) INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT: OR (3) INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Det K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

having been in a fully opened position and against the east wall of the bathroom at the time the blood-like substance was deposited.

03 12 [redacted] There were holes consistent with bullet holes on the west door jamb of the bathroom and on the south wall in an area east of the toilet paper dispenser. There was damage to the tile on the walls and the toilet consistent with bullet strikes. Approximately 1 foot 5 inches from the floor and 3 feet from the west wall was damage to the tile consistent with a bullet strike. In the area of this bullet strike was a dark grey colored powder-like material.

WDMC Van Squad detectives and members of the OCME physically collected 03 12 [redacted] within this classroom. This collected material was then turned over to the OCME for further examination.

There was a large amount of lead and copper-like fragments located within the bathroom of classroom #8 that were seized collectively as part of Exhibit #95. There were lead and copper-like fragments located within the southwest quadrant of classroom #8 that were seized collectively as part of Exhibit #54.

TRAJECTORY OF PROJECTILES IN CLASSROOM #8

Holes and damage consistent with bullet strikes/holes were located and documented as BH #29 thru #36 from within classroom #8. **(The locations of these bullet strikes labeled BH#29 thru BH #36 were measured into a sketch map for documentation by the CSP-CARS UNIT).** There were two holes consistent with bullet holes on the west door jamb of the bathroom and two holes consistent with bullet holes on the south wall in an area east of the toilet paper dispenser. The bullet holes in the west door jamb were labeled for measuring purposes as BH #34 and BH #35.

The bullet holes in the west wall of the bathroom in the area of the toilet paper dispenser were labeled as BR #1 and BR #2 and were not measured in by the CARS UNIT but were measured and documented within this report.

BR#1 was measured to be:

1 foot 3 inches from the east wall
2 feet from the floor

00118939.pdf

6 degree downward Vertical angle
85 degree (east to west) Horizontal angle

Calculations:

@ 6 feet from BH#1 the height of muzzle 31.57 inches (2.63 feet)
@ 15 feet from BH#1 the height of muzzle 42.09 inches (3.57 feet)
@ 25 feet from BH #1 the height of muzzle 55.53 inches (4.62 feet)

BR#2 was measured to be:

8 and 9/16ths inches from the east wall
2 feet 8 and 5/8ths inches from the floor
1 degree downward Vertical angle
85 degree (east to west) Horizontal angle

Calculations:

@ 6 feet from BH#2 the height of muzzle 33.26 inches (2.77 feet)
@ 15 feet from BH#2 the height of muzzle 35.14 inches (2.92 feet)
@ 25 feet from BH #2 the height of muzzle 37.24 inches (3.10 feet)

BH#34 (labeled for sketch map) was measured to be:

2'4" from the floor
3 feet from south wall
20 degree downward Vertical angle
132 degree (south to north) Horizontal angle

Calculations:

@ 2 feet from BH#34 the height of muzzle 49.86 inches (4.16 feet)
@ 4 feet from BH#34 the height of muzzle 63.71 inches (5.31 feet)
@ 6 feet from BH #34 the height of muzzle 77.56 inches (6.46 feet)

BH#35 (labeled for sketch map) was measured to be:

3'6" from the floor
3 feet from south wall
12 degree downward Vertical angle
133 degree (south to north) Horizontal angle

Calculations:

@ 2 feet from BH#35 the height of muzzle 56.26 inches (4.69 feet)
@ 4 feet from BH#35 the height of muzzle 64.53 inches (5.38 feet)
@ 6 feet from BH #35 the height of muzzle 72.79 inches (6.07 feet)

TRAJECTORY REPORT (Classroom #8):

BR #1 and BR#2 were measured to be approximately 2 feet and 2 feet 8 inches from the floor with a 6 and 1 degree vertical angles respectively, in an 85 degree east to west horizontal angle. (+ or – 5 degrees of reasonable variance). This information, with respect to the room being measured approximately 27 feet (north to south) and the shooter being approximately 6'0" tall, would indicate that these two projectiles could have reasonably originated at **any point** along the trajectory path within this room provided there were no intermediary objects in their path. This determination is based on standard average muzzle heights ranges of 48 inches, 54 inches and 60 inches.

BH#34 and BH #35 were measured to be approximately 2 feet 4 inches and 3 feet 6 inches from the floor with a 20 degree and 12 degree vertical angle respectively, in a northeast to southwest direction. (+ or – 5 degrees of reasonable variance). This information, with respect to the shooter being approximately 6'0" tall, would indicate that if the shooter was positioned with his feet on the floor **(as there was no evidence to indicate otherwise)**, the position of the muzzle would be reasonably no further away than a range of approximately 2 feet to approximately 4 feet from either BH #34 or #35. (Range determination based on standard average muzzle height ranges of 48 inches, 54 inches and 60 inches)

PROCESSING OF BLOOD SPATTER PATTERNS

On the west wall adjacent to the north side of the bathroom was a sink with white colored over and under wall cabinets. There was a paper towel dispenser affixed to the south wall (north bathroom wall). The lower sink cabinet was measured to be approximately 2 feet 4 inches high (includes 3 ½ inch toe kick under cabinet), 4 feet 11 inches wide and 2 feet 1 inch deep. The over cabinet was located approximately 1 foot 8 inches above the lower sink cabinet. The upper cabinet was measured to be approximately 4 feet 10 inches wide, 3 feet high and 1 foot 2 inches deep.

The over-the-sink cabinet had two pairs of doors on the east face of the cabinet. One pair of cabinet doors was on the south side and one pair was on the north side of the east face of the cabinet. There were distinguishable impact spatter patterns of a blood-like substance on the southern-most cabinet door (later seized as Exhibit #97). There were also distinguishable impact spatter patterns of a blood-like substance on the cinder block wall above and to the west of the paper towel dispenser located adjacent to the south side of the sink on the exterior north wall of the bathroom.

These two (2) areas of spatter patterns were processed to determine the area of origin. Yellow colored string was used for photographic purposes of the processing of the spatter pattern **(Pattern #1)** that was located on the face of the southern-most cabinet. Orange string was used for photographic purposes of the processing of the spatter pattern **(Pattern #2)** that was located on the cinder block wall south of the sink and on the exterior side of the north wall of the bathroom.

The following are the measurements taken and angles determined for each of the impact stains from each of the patterns to determine the areas of origin.

PATTERN #1 (located on the face of the southern-most cabinet)

BLS #	WIDTH (mm)	LENGTH (mm)	ANGLE (+ or – 3 degree of reasonable variance)
1	1.2	3	24 DEGREE
2	1	2.2	27 DEGREE
3	1.4	4.2	19 DEGREE
4	3.2	11	17 DEGREE
5	2	6	19 DEGREE

An area of origin was observed to be located approximately 8 inches east of the southern-most cabinet face, 1 foot 5 inches from the exterior side of the north bathroom wall and 5 feet 6 inches from the floor. This information would suggest that the victim who was impacted, presumably either teacher, Rachel D'Avino or Lauren Rousseau, was in a standing position and slightly over the sink area at the time of impact.

Locations of the drops of blood-like stains are seized on Exhibit #97 (Southern-most cabinet door). The bottom of the cabinet door was approximately 4 feet 1 and 1/8th inches from the floor. The top of the cabinet door was approximately 1 and 1/16 inches below the top of the cabinet that was located 5 feet 1 inch from the floor. This cabinet door was located approximately 1 foot 2 inches extended from the west wall. The southern edge of the cabinet door was located approximately 1 and 13/16th inches from the exterior side of the north wall of the bathroom. The cabinet door (Exhibit #97) was measured to be approximately 1 foot and 9/16ths of an inch wide and 2 feet 9 and13/16ths inches tall.

Det. K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

PATTERN #2 (located on the exterior side of the north wall of the bathroom)

BLS #	WIDTH (mm)	LENGTH (mm)	ANGLE (+ or – 3 degree of reasonable variance)	CEILING	WEST WALL
1	1	2.2	27 DEGREE	1' 2 & ¾"	2' 7/8"
2	2	4.2	28 DEGREE	1' 2 & 3/16"	2' 1 7 3/16"
3	1	2.2	27 DEGREE	1' 2 & 3/16"	2' 1 & 7/8"
4	1.2	2.2	33 DEGREE	1' 2"	2' 1 &13/16"
5	1	2.2	27 DEGREE	1' 1 & ¾"	2' 3"

An area of origin was observed to be located approximately 1 foot east of the southern-most cabinet face, 1 foot from the exterior side of the north bathroom wall and 5 feet 8 inches from the floor. This information would suggest that the victim who was impacted, presumably either teacher, Rachel D'Avino or Lauren Rousseau, was in a standing position and slightly over the sink area at the time of impact.

BALLISTIC EVIDENCE IN CLASSROOM #8

Three (3) black colored "PMAG 30" magazines were located on the floor in the southeast side of the room, adjacent to the area of the coat hooks along the south wall from which the children stored their backpacks. These magazines were seized as Exhibit #47. One of the magazines was empty, one of the magazines had ten (10) live rounds of 5.56 mm ammunition and one of the magazines had thirteen (13) live rounds of 5.56 mm ammunition. One (1) live round of 5.56 mm ammunition was seized as Exhibit #48 from the southeast portion of the classroom and east of the magazines seized as Exhibit #47.

Search for casings and projectiles in classroom #8

Detective Sliby #810 measured equal distances on each wall of classroom #8 and cordoned off the room into four (4) quadrants. The southeast, southwest, northeast and northwest quadrants were established for purposes of collecting expended bullet shell casings and projectiles.

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Det K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

- **NE Quadrant**: *no expended shell casings recovered*
- **NW Quadrant:** Exhibit #53 (Thirty seven (37) expended 5.56 mm casings as well as copper and lead fragments that were collected into an envelope)
- **SE Quadrant:** *no expended shell casings recovered*
- **SW Quadrant:** Exhibit #54 (Forty two (42) expended 5.56 mm casings as well as copper and lead fragments that were collected into an envelope)

There was one (1) expended 5.56 mm shell casing seized as **Exhibit # 128.** This casing was located within the removed contents of this classroom, specifically the desks removed from the southwest corner of the room.

There was a large amount of lead and copper-like fragments located within the bathroom of classroom #8 that were seized collectively as part of **Exhibit #95**. There were lead and copper-like fragments located within the southwest quadrant of classroom #8 that were seized collectively as part of **Exhibit #54**.

BALLISTIC TOTALS FOR CLASSROOM #8

LIVE ROUNDS SEIZED from Classroom #8: (TOTAL: 24)
EXPENDED CASINGS SEIZED from Classroom #8: (TOTAL: 80)
5.56 mm: Total 80 (by quadrant: NW-37, SW 43 (includes Exh. #128 found in removed items from classroom)

CLASSROOM #6

Classroom #6 was located on the north side of the north hallway and was the fourth classroom east of the front lobby and approximately 27 feet east of classroom #8. This classroom was accessed from a door that was recessed within the north side of the north hallway. As previously mentioned, the door opened outward (toward the hallway) and was wooden with a large circular window in the upper portion. This door was hinged on the east side. This window was partially covered on the inside of the window by a wooden "Apple" designed decoration. The door could only be locked by using a key on the exterior door handle key lock. The interior door handle had no locking mechanism. This room was carpeted with painted cinderblock walls. Florescent ceiling lights automatically turned on when entering the room.

There was a door on the north side of the west wall that provided access into classroom #8. This door opened inward to classroom #6 and was hinged on the north side. This door knob was unlocked and had key locks on both sides of the door.

REPORT TYPE: ☐ INITIAL ☐ ASSIST ☒ SUPP ☐ RE-OPEN ☐ CLOSING

ATTACHMENTS: ☐ STATEMENTS ☐ TELETYPE ☐ PHOTOS ☐ SKETCH MAP ☐ EVIDENCE ☒ OTHER

There was a teacher's desk adjacent to the south side of this door. On the desk was a Sandy Hook Staff photo Identification for [redacted]. On the floor under the desk was a purse that contained documents in the name of [redacted]. This purse also contained a Verizon cell phone with an associated phone number of [redacted], an iPad, six (6) one dollar bills, and a set of keys with a [redacted] ignition key.

This room also contained personal effects of the following other adult persons, possibly staff members. There was a coat hanging on a short partial room divider on the south wall. This coat had a pink iPhone in the pocket with an associated phone number of [redacted] and keys to a [redacted] vehicle. There was a teacher's desk in the northeast corner of the room with a purse that contained vehicle registration for [redacted] This desk also had a brown bag with an iPad and a black coat on the chair with [redacted] vehicle keys. There was a red coat hanging on the partial room divider on the south wall adjacent to the entrance door that had a gold watch in the pocket but no other identifiable documents. There was a purse in the southwest corner of the room with the CT. Driver's license in the name of [redacted] and one (1) five dollar bill.

In classroom #6 located on the floor west of the hallway entrance door, was one (1) live "Federal Tactical" 12 gauge slug shot gun shell. This shotgun shell was seized as Exhibit #49. This shotgun shell was made of a clear-like plastic and was different in color from the shotgun shell that was seized on the shooter's person. It was possible that this shotgun shell was that of a responding tactical officer.

CLASSROOM #4
(OT/PT Room: Mrs. Bradbury, Mrs. Day, Mrs. Murray)

Classroom #4 was located on the north side of the north hallway and was the fifth classroom east of the front lobby, east of classroom #6. This classroom was accessed from a door that was recessed within the north side of the north hallway. On the floor in the south-central portion of the classroom was one (1) live shot gun shell. This shotgun shell was blue colored 12 gauge slug shotgun shell with the words "Federal Premium Tactical Rifled Slug" stamped on the side of the shell and "12 GA Made in USA" stamped on the head of the shell. This shotgun shell was seized as Exhibit #99. This shotgun shell was made of a blue colored plastic and was different in color from the shotgun shell that was seized on the shooter's person. It was possible that this shotgun shell was dropped by a responding tactical officer during the tactical clearing of the school. **(REFER TO TFC. BLUMENTHAL'S FIRST RESPONDER REPORT #00011235).**

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Det K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

A black leather coat was located in the northwest corner of classroom #4. In the coat was a cell phone with an associated phone number [redacted], a doctor appointment in the name of [redacted], and vehicle keys to a [redacted] vehicle. This information would lend itself to this being the coat of [redacted]

CLASSROOM #2
(PROBE ROOM)

Classroom #2 was located on the north side of the north hallway and was the last classroom east of the front lobby, east of classroom #4. This classroom was accessed from a door that was on the north side of the north hallway. Located on the floor of classroom #2 approximately 3' 3" from the west wall and 7'1" from the south wall was one (1) copper jacket type fragment that was seized as **Exhibit #93**. The location of this fragment was consistent with possibly one of two projectiles that struck the east wall in the north hallway between classroom #2 and classroom #1.

THE MAIN OFFICE

The main office is accessed by a door on the south side of the front (north) lobby. This office door was comprised of solid wood with a narrow vertical window located to the east side and upper portion of the door. There were four large square windows with four small rectangular windows above them on the south wall of the lobby (north wall of the office). These windows were located east of the office entrance door. Each window and the door window of the office were comprised of diamond wire glass.

Upon entering the main office through the lobby door, there was a long counter on the east side of the door that was positioned in a north to south direction, creating a room divider between office personnel and visitors to the office. On the east side of the counter were three (3) office desks. One (1) office desk was located east of the counter facing west and had personal papers suggesting this desk belonged to [redacted] A second office desk was located adjacent to the south wall also facing in a west direction and personal papers would suggest this desk belonged to [redacted] There was a third office desk adjacent to the south side of the east wall. This desk was south of a door on the east wall that accessed Principal Dawn Hochsprung's office. Personal papers on this desk would suggest that this desk belonged to [redacted].

00118939.pdf

It should be noted that prior to processing this scene that items in the main office specifically; student and staff information, Emergency Response Plans and attendance documents were removed by police personnel. Also prior to processing this scene, the main office was being used by command staff, troopers and trooper escorted school staff members for purposes of copying or obtaining school documents within this main office location. **(Refer to the Det. Down's Nexgen Report #259480 relative to CAD remarks, Det. Roy's Nexgen Report #25008 and Sgt. Salmeri's Nexgen Report #19772)**

The following item was provided on 12/14/2012 to Det. Sliby #810 and was reportedly seized earlier from the main office.

Exhibit #1a: One banker's box containing forty eight (48) student files and class photo CD relative to Sandy Hook Elementary School Teachers: Kaitlin Roig (Room #12), Victoria Soto (Room #10), and Amanda D'Amato (Room #8). [Original files of surviving students and copies of files of decedents] **(NOTE: this exhibit was returned to Sandy Hook Elementary School [redacted] on 12/31/2012)**

Exhibit #1b: One banker's box containing forty eight (48) student files and class photo CD relative to Sandy Hook Elementary School Teachers: Kaitlin Roig (Room #12), Victoria Soto (Room #10), and Amanda D'Amato (Room #8). [Copies of files of surviving students and original files of decedents].

The following items were seized from the main office on 12/14/2012 by Det. Sliby #810.

Exhibit #2: One red colored three ring binder that was open to "Sign-In" pages for 12/13/2012 and 12/14/2012. This binder was on the counter top in the main office.

Exhibit #3: One white three ring binder that was open to pages of "Sandy Hook Staff and the 12/14/2012 morning announcements. This binder was in the main office.

Exhibit #4: Twelve papers denoting both written and typed school tardiness and absences. These papers were located on the counter top of the main office.

INTERCOM SYSTEM

All the office desks had a black hardline desk phone with a video screen that could view the person at the front door through the call box system. On Julie Obre's desk was a tan vintage push button hard line telephone with handwriting on the lower portion under the buttons that read "BAT PHONE." Pressing the pound sign (#) and the number "1" on this phone opened the Intercom System that could be heard throughout the school.

On 01/03/2012 it was learned with the assistance of Det. Mudry that the intercom system could be accessed from nine (9) phones located within seven (7) rooms. **These rooms were**: three (3) phones in the main office, the principal's office, the nurse's office (room #57), room #9 (conference room), room #29 (southwest side of school-FREDA), room #32 (southwest side of school-AMANZIO), room #60 (portable classrooms attached to the south side of school). The **"All Call"** which opens the intercom to the entire school was accessed by pressing "# 0" from the phones in the previously mentioned 7 locations. The "All Call-except the quiet rooms" opens the intercom to the school with the exception of the designated quiet rooms. This option was accessed by pressing "# 1" from the phones in the previously mentioned seven (7) locations. **(REFER TO DETECTIVE MUDRY'S NEXGEN REPORT #0004165 RELATIVE TO THE INTERCOM SYSTEM).**

THE PRINCIPAL'S OFFICE

The principal's office was accessed from within the main office through a door on the east wall. The personal effects of this office were documented by me and witnessed by CSP- WDMC Lieutenant DelVecchia. This office had a black purse and a "Coach" wallet containing the personal documents and the driver's license of Dawn L. Hochsprung (d.o.b. 06/28/1965). Also within this purse was one (1) twenty dollar bill in the purse, a set of three (3) keys to include a key to a "Chevy" and a "Ford" vehicle. Also in her purse was a green and white "iPhone". There was a "Valentino" bag that contained home school folders in the name of Dawn Hochsprung. There was an empty multi-colored bag with flowers within the office. These items were removed by LT. DelVecchia on 12/15/2012 at 1630 hours. A red case with an iPad was located in the Conference Room #9 in front of the tagged seating place of Dawn Hochsprung. This iPad was removed on 12/15/2012 by LT. DelVecchia at approximately 1636 hours.

Detective Karoline Keith

00118939.pdf

On the west wall of the principal's office was a bookshelf with numerous books and three (3) ring binders. A red binder containing the "Sandy Hook Elementary School Emergency Operations Procedure" was located on this bookshelf and seized as Exhibit #92.

THE NURSE'S OFFICE

The nurse's office was located on the south west side of the main office and accessed only by a door in the office on the west side of the east wall. This room was noted as Room #57.

OTHER NOTED LOCATIONS WITHIN THE SCHOOL

Kitchen:

On 12/17/2012 at 1850 hours, a plastic bag containing US Currency and personal checks was removed from the kitchen of the school. This bag, money and checks were documented on a JD-CR-18 by CSP Major MacLean and witnessed by Sgt. Jeffrey Covello #167. Sgt. Covello also photographed this money and checks. **(Refer to Sgt. Covello's Nexgen Report #00013113)**

Classroom #54:

On 12/15/2012 at 1649 hours, at the request of CSP-WDMC Lieutenant David DelVecchia a purse located on a chair in classroom #54 was inventoried in effort to release it to its owner, [redacted]. However, upon documenting its contents it was determined that its release would be arranged at a later time. This purse contained personal documents to include a Connecticut Driver's license in the name of [redacted] Money within this purse totaled $110.00 (four (4) twenties, two (2) tens, one (1) five and five (5) one dollar bills). There was a set of keys with a key chain depicting [redacted] emblem.

MISCELLEANEOUS:

Walkthrough with Sgt. William Cario:
(REFER TO SGT. CARIO'S NEXGEN REPORT #0026724)

On Sunday, 12/16/2012 from 1010 hours to 1025 hours, I escorted Sgt. William Cario through the scene. Sgt. Cario provided information relative to his observations at this time. Some of this information was previously mentioned within this report.

INVESTIGATOR SIGNATURE:	INVESTIGATOR I.D.#:	REPORT DATE:	SUPERVISOR SIGNATURE:	SUPERVISOR I.D.#:	APPROVAL DATE:
Det. K. Keith	533	11/18/2013	Sgt. Jeffrey Covello	167	11/19/13

Detective Karoline Keith

Sgt. Cario pointed out that a woman, later identified as Vice Principal/Lead Teacher, Natalie Hammond was in the conference room #9 with a foot and hand injury. He helped her to TFC. Kick's vehicle at the front lobby door so she could be driven to awaiting emergency personnel.

Sgt. Cario mentioned Det. Pat Dragon handing him a child victim. Sgt. Cario was not sure from which room the child came from. (This was possibly 01 02 03 12 [redacted] Classroom #8).

Sgt. Cario reported to me that he observed classroom #8 to have no child victims located outside of the bathroom. All children were within the confines of the bathroom with the two (2) adult females on the floor north of the bathroom door by the sink. He observed the bathroom door to be fully open and it appeared it could not be shut based on the position of the children.

Sgt. Cario made an observation at the time he was removing the children from the bathroom that he verbalized to me. 03 12 [redacted]

MOVING FURNITURE FROM CLASSROOMS #10 and #8

On Sunday, 12/16/2012, following photograph and sketch map documentation the furniture from Classroom #10 and #8 were systematically moved into the north hallway in an effort to conduct a thorough search of the classrooms for any physical evidence. Newtown Police Officers Paula Wickman and Richard Merkton, in addition to the already mentioned Newtown Police Officers, assisted with this moving process.

PERSONAL EFFECTS OF DECEASED VICTIMS

Commencing on Tuesday, 12/18/2012, the personal effects of the children and teachers specifically within, but not limited to, the confines of Classrooms #8 and #10, were systematically processed, cleaned, and organized within assorted banker boxes to be accounted for and returned to the families. Sgt. Michael DeCesare oversaw and coordinated this process with the assistance of Sgt. Eric Dency, Det. Christopher Allegro and Det. Raymond Insalaco. Property was systematically turned over to

Family Liaisons Officers/Troopers to respective families for the return of this property with all property documented on JD-CR-18 forms.

Connecticut Forensic Science Laboratory:

On 12/16/2012, the final day of processing this inside of the school, members of the Connecticut Forensic Science Laboratory were requested by the Western District Major Crime Van Squad to review their processing efforts ensure that any and all evidence was preserved. Members of the Connecticut Forensic Science Laboratory who were present were: Forensic Science Laboratory Director Guy Vallaro, Major William Podgorski, Robert O'Brien, Lucinda Lopes-Phelan and Mark Anderson.

CONCLUSION:

Processing of this scene by members of the Western District Major Crime Van Squad concluded on Thursday, 12/20/2012 at approximately 2130 hours. This scene remained secured at this time under the direction of Lieutenant David DelVecchia, Commanding Officer of the Western District Major Crime Squad. As of the date of this report submission this case status remains active with Detective Daniel Jewiss assigned as the case officer. All evidence collected from the scene by Det. Dan Sliby of the Western District Major Crime Van Squad was secured within the Western District Major Crime Evidence Room located at 452 B Bantam Road in Litchfield, Connecticut.

ATTACHEMENTS TO SCENE REPORT:

- Vision Appraisal specs of 12 Dickinson Drive, Sandy Hook, CT.
- Schematic of Sandy Hook Elementary School dated 08/27/2012 (used for emergency drills and evacuations)
- Amanda D'Amato Substitute Plans dated December 14, 2012.
- Certified Employee's Absence/Professional Development Report dated December 14, 2012 for Sandy Hook Elementary School.
- Removal Authorization Forms ME-12 (Denoting #3 thru 27 with their associated Medical Examiner Numbers). Victims were provided a number with an associated ME number at the time of removal and prior to identification, so therefore these Removal Authorizations do not have associated victim's names noted on the forms. All forms were signed by Sgt. Jeffrey Covello #167 of the CSP-WDMCS and Angel Negron of the OCME.

ACTION TAKEN

On Friday, December 21, 2012, at approximately 1450 hours, I arrived at the Troop A Barracks in Southbury to escort the 2010 black Honda Civic, with CT Registration No. 872YEO (the "Subject Vehicle"), to the Troop L Barracks in Litchfield. The Subject Vehicle was being stored in a secured garage bay at Troop A. At approximately 1525 hours, Christopher Dinino, DOB[redacted], of Town Plot Auto Body, Inc., arrived at Troop A to transport the Subject Vehicle. Mr. Dinino loaded the Subject Vehicle onto the Town Plot Auto Body, Inc. flat bed wrecker bearing CT Commercial Registration No. K44498, and CT Wrecker Registration No. 8274. Mr. Dinino secured the Subject Vehicle to the bed of the wrecker and at approximately 1535 hours he began to drive to Troop L under my escort. At approximately 1615 hours, I arrived at Troop L with Mr. Dinino and the Subject Vehicle. Mr. Dinino unloaded the Subject Vehicle into the Troop L impound lot where it was secured behind a locked gate.

At no time did either Mr. Dinino or I enter the interior of the Subject Vehicle as Mr. Dinino was able to pull the Subject Vehicle both on and off the flat bed wrecker using cables attached to the undercarriage. Wrecker and Operator information, as well as the starting and ending mileage data, were entered into a separate Administrative Services incident under CFS# 1200717707.

SHOOTER'S CLOTHING PROCESSED

(Supplemental Report)

DATE AND TIME OF INVESTIGATION:

On Thursday, January 17th, 2013 beginning at approximately 0943 hours and concluding on this same day at approximately 1404 hours Detective Arthur Walkley #589 and I processed the clothing of the shooter (Exhibit 83 B-P) relative to the mass murder shooting investigation at the Sandy Hook Elementary School located at 12 Dickinson Drive in the town of Sandy Hook (Newtown), Connecticut.

ASSIGNMENTS:

Supervisor:	Sgt. Jeff Covello #167
Scene:	Det. Karoline Keith #533
Primary Photographs:	Det. Arthur Walkley #589

ACTION TAKEN:

On December 14th, 2012, while at the scene of the mass murder shooting investigation at the Sandy Hook Elementary School located at 12 Dickinson Drive in the town of Sandy Hook (Newtown), Connecticut, the following observations were made of the shooter located in his found position prior to moving his body. The shooter had reddish-brown hair and blue eyes and was wearing a pale green pocket vest over a black colored polo-style short sleeve shirt over a black t-shirt. He had yellow colored ear plugs in each ear. He was wearing black cargo pocket pants, black socks, black sneakers, a black canvas belt and black fingerless gloves on each hand. He had an empty drop holster that was affixed to his right thigh. This drop holster was black with a camouflaged padding affixed to the back (thigh side) of the holster with camouflage straps that secure the holster around the thigh. There were blood-like stains on the left lower portion of the green vest and the left trouser pocket of the black pants. There was tissue consistent with human tissue located on the outer portion of the left knee. There were blood-like stains consistent with a spatter pattern on the lower leg portion of both legs of the pants and the sneakers. All weapons and ammunition were seized at the scene prior to the removal and transport of the shooter's body to the Office of the Chief Medical Examiners for autopsy.

The shooter's post mortem finger prints (Exhibit 83 #A), the shooter's clothing (Exhibit #83 B-P) and a Gun Shot Residue Kit (Exhibit #100) was seized by CDMC Detective Matt Greenstein #864 at the autopsy of the shooter on December 16, 2012 and were subsequently transported by Det. Greenstein to Litchfield, Connecticut and secured by WDMC Detective Steven Rupsis #1260 into the WDMC Evidence Drying Cage in Litchfield, Connecticut.

On Thursday, January 17, 2013 Detective Arthur Walkley and I processed the shooter's clothing (Exhibit 83 B-P) by removing each item individually from the Western District Major Crime Evidence Room drying cage. Each item was photographed by Detective Art Walkley #589, described in this scene report and documented in Detective Sliby's exhibit report. In some instances presumptive blood tests and gunpowder particle presumptive field tests were conducted on different pieces of clothing. Each item was then packaged individually, sealed with integrity tape, and then placed collectively in a large paper bag that was labeled as Exhibit #83 (B-P) and secured back in the Western District Major Crime Evidence Room.

Presumptive tests:

Phenolphthalein (Kastle-Meyer) reagent was tested before and after processing this scene on a control blood sample and a blank sample. This reagent was observed to be functioning properly in both instances.

Sirchie brand "BlueView™ Gunpowder Particle Test Kit" was used to conduct presumptive gunpowder particle tests on different items or areas of clothing.

Items Processed:

The following is a description of each item processed as part of Exhibit #83.

B) Black "Toesox" brand gloves size small with ½ finger covering.
There were blood-like stains on the left glove on the back of the hand area by the right index finger. There were blood-like stains on the back of the right glove in the area above the pinky finger above the blade area of the palm. A swabbing of these stains was tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded positive results. Gunpowder particle presumptive field test was conducted on the back of the left glove with positive results.

Det. K. Keith	533	06/04/2013	Sgt. [signature]	167	7/2/13

Detective Karoline Keith

C) Green colored "Eddie Bauer" vest size small with four (4) outside pockets and three (3) inside pockets.

This vest had a full zip and snap front with two (2) snap close breast pockets and two (2) zip close lower front pockets. There were two (2) Velcro close pockets in each inside flap of the vest and one (1) vertical zip close pocket on the inside upper left chest area.

There were blood-like stains on the front of the vest as well as areas of unknown physiological-type fluid. These stains were consistent with impact spatter and contact transfer patterns. There were blood-like stains on the upper right back area consistent with a contact transfer pattern and saturation stain. These stains and pattern of stains are indicative of the bleeding head injury sustained at the scene and the shooter lying on his right side in a pool of blood-like substance.

A swabbing of blood-like stains located on the right side of the vest was tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded positive results.

Gunpowder particle presumptive field test was conducted on the right shoulder area of the vest with positive results.

D) Black colored "Old Navy" brand short sleeve polo-style shirt, size M/M with two buttons on the upper front portion.

There was unknown physiological-type fluid on the front lower left area, left and center chest area and left and right shoulder area of the shirt. A swabbing of the unknown physiological-type fluid on the left shoulder was tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded positive results.

E) Black colored "Comfort Soft" t-shirt, size SP.

This t-shirt was worn under polo-style shirt ("D). There was an unknown physiological-type fluid on the right shoulder area of the shirt. A swabbing of the unknown physiological-type fluid on the right shoulder was tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded positive results.

F) Black colored "Propper" brand cargo pants size 32R.
These pants had two (2) trouser pockets, two (2) Velcro close side cargo pockets, one (1) Velcro close lower right calf area pocket, and two (2) rear button close pockets.

State of Connecticut, Department of Public Safety- Investigation Report (DPS-302-C) (Revised 12/07/04)	DPS INCIDENT NUMBER: CFS-12-00704597 Page 4 of 5
REPORT TYPE: ☐ INITIAL ☐ ASSIST ☒ SUPP ☐ RE-OPEN ☐ CLOSING	ATTACHMENTS: ☐ STATEMENTS ☐ TELETYPE ☐ PHOTOS ☐ SKETCH MAP ☐ EVIDENCE ☒ OTHER

There were numerous areas of blood-like stains consistent with impact spatter as well as tissue-like material on the pants. The impact spatter was measured to be approximately 2 mm in length and approximately 0.5 mm in width and was consistent with spatter caused from a high velocity event such as a gunshot. There were approximately 64 visual spatter stains located on the front portion of the pant legs, with the majority of the spatter stains located on the front lateral (outer) portion of the left pant leg. There were approximately 18 visual spatter stains located on the medial (inside) portion of the lower right pant leg. This observation of spatter stain evidence support the reasonable belief that the shooter's left leg was positioned forward and the right leg was positioned slightly behind the left leg at the time of the event causing the spatter pattern.

A swabbing of blood-like stains located on the right and left legs of the pants were tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded positive results in each instance.

Gunpowder particle presumptive field test was conducted on the upper right front area of the pants with positive results.

G) **Black colored "Nunn Bush" brand right sneaker size 8 ½.**
There were numerous blood-like stains consistent with impact spatter located on the medial side portion of the sneaker with very few impact spatter stains located on the lateral side portion of the sneaker. The impact spatter stains were measured to be less than 1 mm width consistent with spatter caused from a high velocity event such as a gunshot.

A swabbing of a blood-like stain located on right sneaker was tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded a positive result.

H) **Black colored "Nunn Bush" brand left sneaker size 8 ½.**
There were numerous blood-like stains consistent with impact spatter located on the top and lateral toe portion as well as the lateral side portion of the sneaker. There were very few impact spatter stains located on the medial side portion of the sneaker. The impact spatter stains were measured to be less than 1 mm width consistent with spatter caused from a high velocity event such as a gunshot.

Det. K. Keith	533	06/04/2013	Sgt. [signature]	167	7/2/13

Detective Karoline Keith

A swabbing of a blood-like stain located on right sneaker was tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded a positive result.

The observations of blood-like stain evidence, consistent with impact spatter, on the two sneakers worn by the shooter (G & H) also support, as does the blood-like stain evidence on the pants, that it is reasonable to believe that the shooters left leg was positioned forward and the right leg was positioned slightly behind the left leg at the time of the event causing the spatter pattern.

I) Black colored pistol holster affixed to a camouflaged patterned leg pad with straps.

J) Black colored 5 inch web belt model #59551
[Model # identified on internet search as a 5.11 Tactical Duty Use Belt]

K) Black colored suspenders with silver fasteners
Blood-like stains were observed on the left and right clip fasteners on the exterior front portion of the suspenders.

A swabbing of a blood-like stain located on the clip fastener was tested using Phenolphthalein (Kastle-Meyer) blood presumptive test which yielded a positive result.

L) Black colored "Ex Officio" brand men's boxer style underwear.

M) Black colored "Thorlos" brand sock removed from left foot of shooter.

N) Black colored "Thorlos" brand sock removed from right foot of shooter.

O) Yellow colored foam ear plug with blood-like and unknown stains removed from the right ear of the shooter.

P) Yellow colored foam ear plug with blood-like and unknown stains removed from the left ear of the shooter.

Q) Five (5) used presumptive gunpowder field test kit pouches used while processing shooters clothing (Exhibit 83).

ACTION TAKEN:

On Wednesday, 05 June 2013, I received a five page Supplemental DNA Report from the Forensic Laboratory.

The report has the following "AGENCY CASE #:":
"CFS12-00 704 597 (WDMCS)"
"CFS12-00 711 626 (WDMCS)"
"CFS12-00 705 354 (EDMCS)"
"12-17618 (OCME)"
"12-17626 (OCME)"

This report refers to Laboratory Case #: ID12-002105.

'CFS12-00 771 626' is not related to the above other cases. Item #3 in the report, an Envelope with stamp & "letter to SHEH", was submitted relative to CFS12-00 771 626. Items #3-S1 and 3-S2, were created from item 3 at the forensic laboratory and are releated to this case. The complete lab report is attached to reports under CFS 12-00 704 597 and CFS 12-00 705 354.

#2-1S1	Swabbing – forearm of rifle
#2-1S2	Swabbing – trigger of rifle
#2-1S3	Swabbing – pistol grip of rifle
#2-1S4	Swabbing – shoulder stock of rifle
#2-2S1	Swabbing – cartridge "chambered round"
#2-3S2	Swabbing – feed area and side of magazine
#2-4S1	Swabbing – cartridges from magazine

SUPPLEMENTAL DNA REPORT

EVIDENCE EXAMINED CONTINUED:

#3	Envelope with stamp and "letter to SHES"
#3-S1	Swabbing – both sides of Christmas Card
#3-S2	Swabbing – adhesive side of stamp
#4-1S1	Swabbing – bolt of .22 caliber Savage rifle
#4-1S2	Swabbing – trigger of .22 caliber Savage rifle
#4-2S1	Swabbing – empty magazine
#4-2S2	Swabbing - .22 caliber cartridges
#13-S2	Known blood, N. Lanza
#14	Swabbing from liver – A. Lanza

RESULTS OF EXAMINATION:

1. A swabbing was taken from submission #3, designated item #3-G1 (swabbing – both sides of envelope flap). DNA was previously extracted and analyzed from items #13-S2 and #14-G1 (see DNA Report dated 02/01/13). DNA was extracted from items #2-1S1, #2-1S2, #2-1S3, #2-1S4, #2-2S1, #2-3S2, #2-4S1, #3-G1, #3-S1, #3-S2, #4-1S1, #4-1S2, #4-2S1, and #4-2S2. DNA was purified according to standard laboratory protocols.

2A. Extracted material obtained from items #2-1S1, #2-1S2, #2-1S3, #2-1S4, #2-2S1, #2-3S2, #2-4S1, #3-G1, #3-S1, #3-S2, #4-1S1, #4-1S2, #4-2S1, and #4-2S2 was amplified by the AmpF/STR Identifiler procedure as described in laboratory protocols. STR alleles were separated and detected by standard laboratory protocols. Insufficient amplification products were detected from items #4-1S1, #4-1S2, and #4-2S1 to generate DNA profiles, therefore, no comparisons could be made for these items.

00122616.pdf

SUPPLEMENTAL DNA REPORT

RESULTS OF EXAMINATION CONTINUED:

2B. The following results were obtained on the amplified items:

Identifiler Alleles Detected

14	13,15.2	14	11,12	13,17	X,Y	12	20,23

* = additional minor peak(s) detected. NR = No Results.

3. Items #2-1S1, #2-1S2, #2-1S3, #2-1S4, #2-2S1, #2-3S2, #2-4S1, #3-G1, #3-S1, #3-S2, #4-1S1, #4-1S2, #4-2S1, #4-2S2, and #13-S2 were consumed in testing. Submissions #3 and #14 were returned to the submitting agency.

CONCLUSIONS:

4. The results demonstrate that item #2-1S1 (swabbing – forearm of rifle) is a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profile from item #2-1S1. The expected frequency of individuals who could be a contributor to the DNA profile from item #2-1S1 is approximately 1 in 81,000 in the African American population, approximately 1 in 6,900 in the Caucasian population, and approximately 1 in 13,000 in the Hispanic population.

N. Lanza (item #13-S2) is eliminated as a contributor to the DNA profile from item #2-1S1.

SUPPLEMENTAL DNA REPORT

CONCLUSIONS CONTINUED:

5. The results eliminate N. Lanza (item #13-S2) and A. Lanza (submission #14) as the source of the DNA profiles from items #3G1 (swabbing – both sides of envelope flap), #3-S2 (swabbing – adhesive side of stamp), and #4-2S2 (swabbing - .22 caliber cartridges).

6. N. Lanza (item #13-S2) and A. Lanza (submission #14) are eliminated as contributors to the DNA profiles from items #2-1S2 (swabbing – trigger of rifle), #2-1S3 (swabbing – pistol grip of rifle), #2-1S4 (swabbing – shoulder stock of rifle), #2-2S1 (swabbing – cartridge "chambered round"), #2-3S2 (swabbing – feed area and side of magazine), #2-4S1 (swabbing – cartridges from magazine), and #3-S1 (swabbing – both sides of Christmas Card).

7. The DNA profiles from items #3G1 (swabbing – both sides of envelope flap) and #4-2S2 (swabbing - .22 caliber cartridges) were searched against the Connecticut and National DNA Databases. On January 7, 2013, a hit was obtained with the Convicted Offender DNA profile from New York State Police Investigation Center DB #NY10011106A (see Hit Notification dated 01/18/2013). No matching profiles were found for item #4-2S2. These profile results will be searched periodically. If another suspect is developed, please notify the examiner as soon as possible.

This report reflects the test results, conclusions, interpretations, and/or the findings of the analyst as indicated by their signature below.

Evidence Report Report atached under NEXGEN LEAS Major Crime Tab / One page of DPS-302-C

ACTION TAKEN: On Thursday, March 21st, 2013, the following exhibits were removed from the Troop L evidence area by Detective Rupsis and I. The following exhibits were opened and two casings from each were removed and new exhibit numbers were created per CT Scientific Services Lab request. These exhibits were later transported to the lab by Detective Rupsis on March 27th, 2013. Each original exhibit was comprised of multiple casings. Each original exhibit was returned to storage. New flow charts were added to reflect this change.

On Wednesday, June 5th, 2013, the following exhibits were removed from the Troop L evidence area by Detective Rupsis and I. The following exhibit was opened and one (1) casing was removed and a new exhibit number was created per CT Scientific Services Lab. This exhibit was later transported to the lab by Detective Walkley on June 5th, 2013. Note: There is no designation for an Exhibit 37b as it was inadvertently skipped.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME. NOV 20 2013

ACTION TAKEN:

On Wednesday, 05 June 2013 at approximately 0910 hours, I received exhibit 134 from the Forensic Laboratory in Meriden.

I subsequently transported the exhibit to the WDMC evidence room and secured it in the evidence freezer, per the laboratory, at approximately 1017.

DATE OF REPORT: **02/01/13**

REPORT TO: **Commanding Officer of above**

EVIDENCE SUBMITTED:

#13-S2 Known blood sample, Nancy Lanza
#14 Known liver sample, "Adam Lanza"

RESULTS OF EXAMINATION:

1. DNA was extracted from item #13-S2 and submission #14. DNA was purified according to standard laboratory protocols.

2A. Extracted material obtained from item #13-S2 and submission #14 was amplified by the AmpF*l*STR Identifiler procedure as described in laboratory protocols. STR alleles were separated and detected by standard laboratory protocols.

DNA REPORT

RESULTS OF EXAMINATION CONTINUED:

2B. The following results were obtained on the amplified items:

Identifiler Alleles Detected

Item #	D8S1179	D21S11	D7S820	CSF1PO	D3S1358	TH01	D13S317	D16S539	D2S1338
13-S2	13,15	29,32.2	10	10,11	15,16	6,7	9,11	12,13	17,22
14	8,13	30.2,32.2	10,11	10,13	14,16	6,7	11,12	12,13	17

Item #	D19S433	vWA	TPOX	D18S51	AMEL	D5S818	FGA
13-S2	14,15.2	14,19	8,12	11,17	X	11,12	21,23
14	13,15.2	14	11,12	13,17	X,Y	12	20,23

3. Item #13-S2 was consumed in testing. Submission #14 was returned to the submitting agency.

CONCLUSIONS:

4. The results are consistent with Nancy Lanza (item #13-S2) being the mother of "Adam Lanza" (submission #14). The expected frequency of females who could be the mother of "Adam Lanza" is approximately 1 in 530,000 in the African American population, approximately 1 in 37,000 in the Caucasian population, and approximately 1 in 53,000 in the Hispanic population.

This report reflects the test results, conclusions, interpretations, and/or the findings of the analyst as indicated by their signature below.

Agencies submitting evidence to the Division of Scientific Services Laboratories for specific analysis agree to allow the laboratory to determine the appropriate methodology for the evidence submitted. Descriptions of analyses offered by the Division are detailed on our website. If the laboratory needs to deviate from standard test methodologies you or your agency will be contacted prior to the analysis being performed. The laboratory reserves the right to use contract laboratories to perform case analysis as needed. This contract serves to inform you as the client of this potential event. In the event a contract laboratory is used the name and address of the contract laboratory will be stated on the laboratory report to the submitting agency. Any concerns or specific requests about the required testing can be discussed with the section supervisor or Director prior to case analysis.

DATE OF REPORT:	**05/29/13**
REPORT TO:	**Commanding Officers of above** **Dr. H. Wayne Carver, II**

EVIDENCE EXAMINED:

#4-1S4	Swabbing – left side of stock area
#4-1S5	Swabbing – handle area of rifle
#4-1S6	Swabbing – forend area of rifle
#40	Swabbing from "drivers exterior front door handle"
#41	Swabbing from "drivers exterior rear door handle"
#42	Swabbing from "passengers exterior front door handle"
#43	Swabbing from "passengers exterior rear door handle"

SUPPLEMENTAL DNA REPORT II

EVIDENCE EXAMINED CONTINUED:

#44	Swabbing from "drivers side front interior door handle"
#45	Swabbing from "drivers side rear interior door handle"
#46	Swabbing from "passenger side front interior door handle"
#47	Swabbing from "passenger side rear interior door handle"
#13-S2	Known blood, N. Lanza
#14	Swabbing from liver – A. Lanza

RESULTS OF EXAMINATION:

1. DNA was previously extracted and analyzed from item #13-S2 and submission #14 (see DNA Report dated 02/01/13). DNA was extracted from items #4-1S4, #4-1S5, #4-1S6, submissions #40, #41, #42, #43, #44, #45, #46, and #47. DNA was purified according to standard laboratory protocols.

2A. Extracted material obtained from items #4-1S4, #4-1S5, #4-1S6, submissions #40, #41, #42, #43, #44, #45, #46, and #47 was amplified by the AmpF*l*STR Identifiler procedure as described in laboratory protocols. STR alleles were separated and detected by standard laboratory protocols. Insufficient amplification products were detected from submissions #42, #43, #44, #45, #46, and #47 to generate DNA profiles, therefore, no comparisons could be made for these items.

2B. The following results were obtained on the amplified items:

Identifiler Alleles Detected

Item #	D8S1179	D21S11	D7S820	CSF1PO	D3S1358	TH01	D13S317	D16S539	D2S1338

40	NR	NR	NR	NR	NR	NR	NR
41	NR	NR	NR	NR	NR	NR	NR
13-S2	14,15.2	14,19	8,12	11,17	X	11,12	21,23
14	13,15.2	14	11,12	13,17	X,Y	12	20,23

* = additional minor peak(s) detected. NR = No Results.

3. Items #4-1S4, #4-1S5, #4-1S6, submissions #40, #41, #42, #43, #44, #45, #46, and #47 were consumed in testing.

CONCLUSIONS:

4. The results are consistent with item #4-1S4 (swabbing – left side of stock area) being a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profile from item #4-1S4. The expected frequency of individuals who could be a contributor to the DNA profile from item #4-1S4 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

N. Lanza (item #13-S2) is eliminated as a contributor to the DNA profile from item #4-1S4.

5. The results demonstrate that item #4-1S6 (swabbing – forend area of rifle) is a mixture. The results are consistent with a laboratory staff member being included as a contributor to the DNA profile from item #4-1S6.

A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #4-1S6. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at loci D21S11, D13S317, D19S433, vWA, TPOX, and D5S818) from item #4-1S6 is approximately 1 in 9,000 in the African American population, approximately 1 in 640 in the Caucasian population, and approximately 1 in 1,100 in the Hispanic population.

N. Lanza (item #13-S2) is eliminated as a contributor to the DNA profile from item #4-1S6.

SUPPLEMENTAL DNA REPORT II

CONCLUSIONS CONTINUED:

6. The results eliminate N. Lanza (item #13-S2) and A. Lanza (submission #14) as the source of the DNA profiles from item #4-1S5 (swabbing – handle area of rifle), submissions #40 (swabbing from "drivers exterior front door handle"), and #41 (swabbing from "drivers exterior rear door handle").

This report reflects the test results, conclusions, interpretations, and/or the findings of the analyst as indicated by their signature below.

TRANSPORT OF EVIDENCE
(Exhibit #344)

ACTION TAKEN: On January 4th, 2013 at approximately 1040 hours, Det. Michael Mudry provided me with Exhibit 3344 (One (1) expended copper jacketed lead bullet). I transported this exhibit from CSP-Troop A and secured it within the Western District Major Crime Evidence Room at approximately 1220 hours.

CASE STATUS: ACTIVE

ACTION TAKEN:
On April 22, 2013 I received, by way of Det. Rupsis, the following four (4) exhibits from the Forensic Lab Photo Section;

Lab Exhibit No. 026 (Victim's property photos)
Lab Exhibit No. 112 (Tfc. Guerra's cell phone photos)
Lab Exhibit No. 113 (Victims Clothing)
Lab Exhibit No. 114 (SA Lisa Skelly-Byrnes cell phone photo)

These four packets contain graphic photos on proof sheets, captured during the processing of the Sandy Hook School Shooting mass murder investigation. They have been resealed by me on 02JUL13, and entered into the case jacket for archival.

CASE STATUS:
Case remains open and active.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. LAB: ID-12-002105

ACTION TAKEN:

On Tuesday, 02 July 2013 at approximately 1316 hours, I received the following exhibits from the Forensic Laboratory in Meriden:

EXHIBITS: 5a, 6a, 8, 17, 19, 20, 31, 36a, 37a, 38a, 53a, 54a, 85, 93, 95, 96, 98, 101 through 126, 129, 505 and 506.

The evidence was subsequently brought to & secured in the WDMC Evidence room at approximately 1448 hours.

REPORT TO:
Commanding Officers of above
Dr. H. Wayne Carver, II

EVIDENCE EXAMINED:

#56-1S1 Swabbing – handle of Glock handgun
#56-1S2 Swabbing – grip area on slide of Glock handgun
#56-1S3 Swabbing – trigger area of Glock handgun
#56-2S1 Swabbing – cartridge from chamber of Glock
#56-3S1 Swabbing – Glock magazine
#56-4S1 Swabbing – eight cartridges from Glock magazine
#57-1S1 Swabbing – handle of Sig Sauer handgun
#57-1S2 Swabbing – grip area on slide of Sig Sauer handgun

SUPPLEMENTAL DNA REPORT III

EVIDENCE EXAMINED CONTINUED:

#57-1S3 Swabbing – trigger area of Sig Sauer handgun
#57-2S1 Swabbing – Mec-Gar magazine
#57-3S1 Swabbing – twenty cartridges from Mec-Gar magazine
#13-S2 Known blood, N. Lanza
#14 Swabbing from liver – A. Lanza

RESULTS OF EXAMINATION:

1. DNA was previously extracted and analyzed from item #13-S2 and submission #14 (see DNA Report dated 02/01/13). DNA was extracted from items #56-1S1, #56-1S2, #56-1S3, #56-2S1, #56-3S1, #56-4S1, #57-1S1, #57-1S2, #57-1S3, #57-2S1, and #57-3S1. DNA was purified according to standard laboratory protocols.

2A. Extracted material obtained from items #56-1S1, #56-1S2, #56-1S3, #56-2S1, #56-3S1, #56-4S1, #57-1S1, #57-1S2, #57-1S3, #57-2S1, and #57-3S1 was amplified by the AmpF*l*STR Identifiler Plus procedure as described in laboratory protocols. STR alleles were separated and detected by standard laboratory protocols. Insufficient amplification products were detected from items #56-4S1 and #57-3S1 to generate DNA profiles, therefore, no comparisons could be made for these items.

2B. The following results were obtained on the amplified items:

Identifiler / Idenifiler Plus Alleles Detected

Item #	D8S1179	D21S11	D7S820	CSF1PO	D3S1358	TH01	D13S317	D16S539	D2S1338

14	13,15.2	14	11,12	13,17	X,Y	12	20,23

* = additional minor peak(s) detected.   NR = No Results.

3. Items #56-1S1, #56-1S2, #56-1S3, #56-2S1, #56-3S1, #56-4S1, #57-1S1, #57-1S2, #57-1S3, #57-2S1, and #57-3S1 were consumed in testing.

CONCLUSIONS:

4. The results demonstrate that items #56-1S2 (swabbing – grip area on slide of Glock handgun), #57-1S2 (swabbing – grip area on slide of Sig Sauer handgun), and #57-2S1 (swabbing – Mec-Gar magazine) are mixtures. A. Lanza (submission #14) is included as a contributor to the DNA profiles from items #56-1S2, #57-1S2, and #57-2S1. The expected frequency of individuals who could be a contributor to the DNA profiles from items #56-1S2, #57-1S2, and #57-2S1 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

5. The results demonstrate that item #56-1S1 (swabbing- handle of Glock handgun) is a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profile from item #56-1S1. The expected frequency of individuals who could be a contributor to the DNA profile from item #56-1S1 is less than 1 in 7 billion in the African American and Hispanic populations and approximately 1 in 4.0 billion in the Caucasian population.

SUPPLEMENTAL DNA REPORT III

CONCLUSIONS CONTINUED:

6. The results demonstrate that item #56-1S3 (swabbing – trigger area of Glock handgun) is a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profile from item #56-1S3. The expected frequency of individuals who could be a contributor to the DNA profile from item #56-1S3 is approximately 1 in 1.4 billion in the African American population, approximately 1 in 5 million in the Caucasian population, and approximately 1 in 57 million in the Hispanic population.

7. Insufficient amplification products were detected from item #56-2S1 (swabbing – cartridge from chamber of Glock) for comparison to the known DNA profile of A. Lanza (submission #14).

8. The results demonstrate that item #56-3S1 (swabbing – Glock magazine) is a mixture. A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #56-3S1. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at all loci tested except D18S51) from item #56-3S1 is approximately 1 in 350 million in the African American population, approximately 1 in 14 million in the Caucasian population, and approximately 1 in 63 million in the Hispanic population.

9. The results demonstrate that item #57-1S1 (swabbing – handle of Sig Sauer handgun) is a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profile from item #57-1S1. The expected frequency of individuals who could be a contributor to the DNA profile from item #57-1S1 is approximately 1 in 85 million in the African American population, approximately 1 in 10 million in the Caucasian population, and approximately 1 in 15 million in the Hispanic population.

10. The results are consistent with item #57-1S3 (swabbing – trigger area of Sig Sauer handgun) being a mixture. A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #57-1S3. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at loci D8S1179, D21S11, D19S433, and vWA) from item #57-1S3 is approximately 1 in 17 million in the African American population, approximately 1 in 900,000 in the Caucasian population, and approximately 1 in 1 million in the Hispanic population.

00146690.pdf

SUPPLEMENTAL DNA REPORT III

CONCLUSIONS CONTINUED:

11. The results eliminate N. Lanza (item #13-S2) as the source of, or contributor to, the DNA profiles from items #56-1S1, #56-1S2, #56-1S3, #56-2S1, #56-3S1, #57-1S1, #57-1S2, #57-1S3, #57-2S1.

This report reflects the test results, conclusions, interpretations, and/or the findings of the analyst as indicated by their signature below.

REPORT TO:
Commanding Officers of above
Dr. H. Wayne Carver, II

EVIDENCE EXAMINED:

#55-S1	Swabbing – unstained areas of black, duct-taped, magazines
#68-1S1	Swabbing – 9mm Sig Sauer P226 magazine
#68-2S1	Swabbing – twenty 9mm Win cartridges from magazine 68-1
#68-3S1	Swabbing – 9mm Sig Sauer P226 magazine
#68-4S1	Swabbing - twenty 9mm Win cartridges from magazine 68-3
#68-5S1	Swabbing – 9mm Mec-Gar Plus 2 magazine
#68-6S1	Swabbing - twenty 9mm Win cartridges from magazine 68-5

SUPPLEMENTAL DNA REPORT IV

EVIDENCE EXAMINED CONTINUED:

#69-1S1	Swabbing – PMAG 30 magazine
#69-2S1	Swabbing – thirty 5.56 X 45 cartridges from magazine 69-1
#70-1S1	Swabbing – Glock 10mm magazine
#70-2S1	Swabbing – fifteen cartridges from magazine 70-1
#70-3S1	Swabbing – Glock 10mm magazine
#70-4S1	Swabbing – fifteen cartridges from magazine 70-3
#71-1S1	Swabbing – Glock 10mm magazine
#71-2S1	Swabbing – fifteen cartridges from magazine 71-1
#71-3S1	Swabbing – Glock 10mm magazine
#71-4S1	Swabbing – fifteen cartridges from magazine 71-3
#73-S1	Swabbing – exterior of taped magazines
#73-S2	Swabbing – cartridges from magazine
#73-S3	Swabbing – cartridges from magazine
#107-S1	Swabbing – 5.56 X 45 cartridge
#110-S1	Swabbing – neckline and cuff areas of C Sport sweatshirt
#110-S2	Cutting – stain on back left shoulder of C Sport sweatshirt
#111-S1	Swabbing – neckline and cuff areas of C Sport sweatshirt
#13-S2	Known blood, N. Lanza
#14	Swabbing from liver – A. Lanza

RESULTS OF EXAMINATION:

1. DNA was previously extracted and analyzed from item #13-S2 and submission #14 (see DNA Report dated 02/01/13). DNA was extracted from items #55-S1, #68-1S1, #68-2S1, #68-3S1, #68-4S1, #68-5S1, #68-6S1, #69-1S1, #69-2S1, #70-1S1, #70-2S1, #70-3S1, #70-4S1, #71-1S1, #71-2S1, #71-3S1, #71-4S1, #73-S1, #73-S2, #73-S3, #107-S1, #110-S1, #110-S2, and #111-S1. DNA was purified according to standard laboratory protocols.

2A. Extracted material obtained from items #55-S1, #68-1S1, #68-2S1, #68-3S1, #68-4S1, #68-5S1, #68-6S1, #69-1S1, #69-2S1, #70-1S1, #70-2S1, #70-3S1, #70-4S1, #71-1S1, #71-2S1, #71-3S1, #71-4S1, #73-S1, #73-S2, #73-S3, #107-S1, #110-S1, #110-S2, and #111-S1 was amplified by the AmpF*l*STR Identifiler Plus procedure as described in laboratory protocols. STR alleles were separated and detected by standard laboratory protocols. Insufficient amplification products were detected from items #68-2S1, #68-4S1, #68-6S1, #70-2S1, #70-4S1, #71-2S1, #71-4S1, #73-S2, #107-S1, and #111-S1 to generate DNA profiles, therefore, no comparisons could be made for these items.

00146699.pdf

SUPPLEMENTAL DNA REPORT IV

RESULTS OF EXAMINATION CONTINUED:

2B. The following results were obtained on the amplified items:

Identifiler / Idenifiler Plus Alleles Detected

Item #	D8S1179	D21S11	D7S820	CSF1PO	D3S1358	TH01	D13S317	D16S539	D2S1338

14	13,15.2	14	11,12	13,17	X,Y	12	20,23

* = additional minor peak(s) detected. NR = No Results.

3. Items #55-S1, #68-1S1, #68-2S1, #68-3S1, #68-4S1, #68-5S1, #68-6S1, #69-1S1, #69-2S1, #70-1S1, #70-2S1, #70-3S1, #70-4S1, #71-1S1, #71-2S1, #71-3S1, #71-4S1, #73-S1, #73-S2, #73-S3, #107-S1, #110-S1, #110-S2, and #111-S1 were consumed in testing.

CONCLUSIONS:

4. The results are consistent with item #68-1S1 (swabbing – 9mm Sig Sauer P226 magazine) being a mixture. A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #68-1S1. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at loci D8S1179, D3S1358, and vWA) from item #68-1S1 is approximately 1 in 1,500 in the African American population, approximately 1 in 300 in the Caucasian population, and approximately 1 in 800 in the Hispanic population.

5. The results are consistent with A. Lanza (submission #14) being the source of the DNA profiles from items #68-5S1 (swabbing – 9mm Mec-Gar Plus 2 magazine) and #73-S1 (swabbing – exterior of taped magazines). The expected frequency of individuals who could be the source of the DNA profiles from items #68-5S1 and #73-S1 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

SUPPLEMENTAL DNA REPORT IV

CONCLUSIONS CONTINUED:

6. The results are consistent with item #70-1S1 (swabbing – Glock 10mm magazine) being a mixture. A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #70-1S1. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at loci TH01, vWA, and D5S818) from item #70-1S1 is approximately 1 in 8,700 in the African American population, approximately 1 in 1,500 in the Caucasian population, and approximately 1 in 4,300 in the Hispanic population.

7. The results demonstrate that item #70-3S1 (swabbing – Glock 10mm magazine) is a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profile from item #70-3S1. The expected frequency of individuals who could be a contributor to the DNA profile from item #70-3S1 is less than 1 in 7 billion in the African American population, approximately 1 in 4.3 billion in the Caucasian population, and approximately 1 in 4.1 billion in the Hispanic population.

8. The results demonstrate that item #71-1S1 (swabbing – Glock 10mm magazine) is a mixture. A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #71-1S1. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at loci D8S1179, D21S11, D3S1358, D13S317, D19S433, vWA, and D5S818) from item #71-1S1 is approximately 1 in 5.6 million in the African American population, approximately 1 in 370,000 in the Caucasian population, and approximately 1 in 640,000 in the Hispanic population.

9. Insufficient amplification products were detected from item #71-3S1 (swabbing – Glock 10mm magazine) for comparison to the known DNA profile of A. Lanza (submission #14).

10. The results are consistent with item #73-S3 (swabbing – cartridges from magazine) being a mixture. A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #73-S3. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at all loci tested except D7S820 and D18S51) from item #73-S3 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

11. A. Lanza (submission #14) cannot be eliminated as the source of the DNA profile from item #110-S1 (swabbing – neckline and cuff areas of C Sport sweatshirt). The expected frequency of individuals who cannot be eliminated as the source of the DNA profile (at all loci tested except D7S820) from item #110-S1 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

00146699.pdf

SUPPLEMENTAL DNA REPORT IV

CONCLUSIONS CONTINUED:

12. The results are consistent with N. Lanza (item #13-S2) being the source of the DNA profile from item #110-S2 (cutting – stain on back left shoulder of C Sport sweatshirt). The expected frequency of individuals who could be the source of the DNA profile from item #110-S2 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

13. The results eliminate N. Lanza (item #13-S2) as the source of, or contributor to, the DNA profiles from items #55-S1 (swabbing – unstained areas of black, duct-taped, magazines), #68-1S1 (swabbing – 9mm Sig Sauer P226 magazine), #68-3S1 (swabbing – 9mm Sig Sauer P226 magazine), #68-5S1 (swabbing – 9mm Mec-Gar Plus 2 magazine), #69-1S1 (swabbing – PMAG 30 magazine), #69-2S1 (swabbing – thirty 5.56 X 45 cartridges from magazine 69-1), #70-1S1 (swabbing – Glock 10mm magazine), #70-3S1 (swabbing – Glock 10mm magazine), #71-1S1 (swabbing – Glock 10mm magazine), #71-3S1 (swabbing – Glock 10mm magazine), #73-S1 (swabbing – exterior of taped magazines), #73-S3 (swabbing – cartridges from magazine), and #110-S1 (swabbing – neckline and cuff areas of C Sport sweatshirt).

14. The results eliminate A. Lanza (submission #14) as the source of, or contributor to, the DNA profiles from items #55-S1, #68-3S1, #69-1S1, #69-2S1, and #110-S2.

This report reflects the test results, conclusions, interpretations, and/or the findings of the analyst as indicated by their signature below.

Report To:	Detective Steven Rupsis #: 1260

EVIDENCE SUBMITTED:

002. Item #17 Box w/ "Bushmaster Cal .223 Mod XM15-E2S, serial #L534858, 1 round removed from chamber and PMAG inserted with 14 live rounds."
048. #5a Envelope w/ "two (2) S&B 60 5.56x45 casings, randomly chosen for lab submission"
049. #6a Envelope w/ "two (2) S&B 60 5.56x45 casings, randomly chosen for lab submission"
050. #8 Envelope w/ "one (1) brass colored 10mm AUTO casing"
051. #9 Envelope w/ "one (1) S&B 60 5.56x45 live round"
052. #10 Envelope w/ "one (1) S&B 60 5.56x45 live round"
053. #11 Envelope w/ "one (1) S&B 60 5.56x45 live round"
054. #12 Envelope w/ "one (1) S&B 60 5.56x45 live round"
055. #18 Bag w/ "two (2) black PMAG 5.56 magazines, duct taped together -no rounds"
056. #19 Box w/ "one (1) Glock 10mm serial #SMA461, one (1) round partially loaded, round removed from barrel, with magazine of eight (8) rounds remaining"
057. #20 Box w/ "one (1) Sig Sauer P226 9mm serial- UU 676027 handgun, chamber empty, magazine of eighteen (18) Speer 9mm Luger rounds remaining"
058. #22WD Envelope w/ "one (1) 10mm AUTO live round"
059. #23 Envelope w/ "one (1) 10mm AUTO live round"
060. #24 Envelope w/ "one (1) 10mm AUTO live round"
061. #25 Envelope w/ "one (1) 10mm AUTO live round"
062. #31 Envelope w/ "one (1) 5.56 copper jacket with lead projectile"
063. #34 Envelope w/ "one (1) 5.56 live round"
064. #36a Envelope w/ "two (2) S&B 60 5.56x45 casing, randomly chosen for lab submission"
065. #37a Envelope w/ "two (2) S&B 60 5.56x45 casing, randomly chosen for lab submission"
066. #38a Envelope w/ "two (2) S&B 60 5.56x45 casing, randomly chosen for lab submission"
067. #40 Envelope w/ "one (1) S&B 60 5.56x45 live round"
068. #41 Bag w/ "two (2) Sig Sauer magazines each with twenty (20) rounds and one (1) Plus 2 magazine with eighteen (18) rounds"
069. #42 Envelope w/ "one (1) black PMAG 5.56 magazine with thirty (30) live rounds"
070. #43 Bag w/ "two (2) Glock 10mm magazines with fifteen (15) rounds each"
071. #44 Bag w/ "two (2) Glock 10mm magazines with fifteen (15) rounds each"
072. #45 Bag w/ "two (2) Sig Sauer magazines each with twenty (20) rounds, one (1) Glock magazine 10mm with fifteen (15) rounds"

104. #124 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# 12-17610 (Soto) "
105. #125 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy/ sink area"
106. #126 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy. Printed label of Mary Sherlach (ME# 12-17595) /Black handwritten noted ME# 12-17609"
107. #503 Envelope w/ "one (1) S&B 60 56x45 round"
108. #505 Box w/ "one (1) Saiga 12 shotgun. serial # HO8402282 with two magazines containing 20 rounds of Winchester 12 guage shotgun rounds"
109. #506 Envelope w/ "one (1) bullet like projectile"
120. #85 Envelope w/ "lead and copper like fragments"
121. #96 Envelope w/ "one (1) lead and copper like fragment"
122. #129 Envelope w/ "copper / lead like fragment"
123. #37c Bag w/ "one (1) 10mm casing removed from existing package of 37"

RESULTS OF EXAMINATION:

Submission#: 002. Item #17 Box w/ "Bushmaster Cal .223 Mod XM15-E2S, serial #L534858, 1 round removed from chamber and PMAG inserted with 14 live rounds."
Bushmaster semiautomatic rifle, model XM15-E2S, serial number L534858, 5.56 mm / .223 caliber. Submitted with the rifle were fourteen S&B (Sellior & Bellot) 5.56 mm x 45 09 cartridges in a plastic bag. (removed from magazine). Envelope containing a similar cartridge labeled," Chambered Round". A plastic PMAG-30 cartridge capacity 5.56 mm.

Submission#: 048. #5a Envelope w/ "two (2) S&B 60 5.56x45 casings, randomly chosen for lab submission"
Two discharged S&B 5.56 mm x 45 caliber cartridge cases from exhibit #5 (#5D, #5C)

Submission#: 049. #6a Envelope w/ "two (2) S&B 60 5.56x45 casings, randomly chosen for lab submission"
Two discharged S&B 5.56 mm x 45 caliber cartridge cases from exhibit #6 (#6V, #6W)

Submission#: 050. #8 Envelope w/ "one (1) brass colored 10mm AUTO casing"
One discharged Starline 10 mm auto caliber cartridge case. Exhibit #8

Submission#: 056. #19 Box w/ "one (1) Glock 10mm serial #SMA461, one (1) round partially loaded, round removed from barrel, with magazine of eight (8) rounds remaining"
Glock semiautomatic pistol, model 20, serial number SMA461, 10mm auto caliber. Submitted with the pistol were a total of nine Star Line jacketed hollow point 10mm auto caliber cartridges and one Glock 10mm fifteen cartridge capacity magazine.

Submission#: 057. #20 Box w/ "one (1) Sig Sauer P226 9mm serial- UU 676027 handgun, chamber empty, magazine of eighteen (18) Speer 9mm Luger rounds remaining"
Sig Sauer semiautomatic pistol, model P226, serial number UU676027, 9mm caliber. The pistol was submitted with a Sig twenty cartridge capacity magazine. There were a total of twenty 9mm caliber cartridges submitted as well. One Federal flat nose jacketed 9mm caliber cartridge and nineteen Speer jacketed hollow point 9mm +P caliber cartridges.

Submission#: 062. #31 Envelope w/ "one (1) 5.56 copper jacket with lead projectile"
62-1, one bullet jacket fragment weighing 13.4 grains. (Classroom 10)
62-2, one lead frgament weighing 20.6 grains.

RESULTS OF EXAMINATION(Continued) :

Submission#: 064. #36a Envelope w/ "two (2) S&B 60 5.56x45 casing, randomly chosen for lab submission"
Two discharged S&B 5.56 mm x 45 caliber cartridge cases from exhibit # 36 (#36A, #36B)

Submission#: 065. #37a Envelope w/ "two (2) S&B 60 5.56x45 casing, randomly chosen for lab submission"
Two discharged S&B 5.56 mm x 45 caliber cartridge cases from exhibit #37 (#37A, #37B)

Submission#: 066. #38a Envelope w/ "two (2) S&B 60 5.56x45 casing, randomly chosen for lab submission"
Two discharged S&B 5.56 mm x 45 caliber cartridge cases from exhibit #38 (#38A, #38B)

Submission#: 076. #53a Envelope w/ "two (2) 5.56 brass like casings, randomly chosen for lab submission"
Two discharged S&B 5.56 mm x 45 caliber cartridge cases from exhibit #53 (#53A, #53B)

Submission#: 077. #54a Envelope w/ "two (2) 5.56 brass like casings, randomly chosen for lab submission"
Two discharged S&B 5.56 mm x 45 caliber cartridge cases from exhibit #54 (#54A, #54B)

Submission#: 078. #93 Envelope w/ "one (1) copper jacket type fragment"
78-1, one bullet jacket fragment weighing 13.0 grains. (Classroom 8 bathroom)

Submission#: 079. #95 Envelope w/ "lead and copper like fragments"
79-1, one bullet jacket fragment weighing 13.9 grains. (Classroom 8 bathroom)
79-2, one lead frgament weighing 10.8 grains.
79-3, one lead frgament weighing 4.0 grains.

Submission#: 080. #98 Envelope w/ "one (1) lead and copper projectile"
80-1, one jacketed hollow point bullet weighint 139.4 grains. (Classroom 8 above ceiling tile)

Submission#: 081. #101 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted])"
81-1, one bullet jacket fragment weighing 14.0 grains. OCME [redacted])
81-2, one lead frgament weighing 19.3 grains.

Submission#: 082. #102 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted])"
82-1, numerous lead and jacket fragments with a total weight of 6.9 grains. OCME [redacted])

Submission#: 083. #103 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# 12-17592 (Hochsprung)"
83-1, one bullet jacket fragment weighing 5.0 grains. OCME 12-17592 (Hochsprung)
83-2, one bullet jacket fragment weighing 14.5 grains.

Submission#: 084. #104 Envelope w/ "three (3) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# [redacted]) /One vial with two teeth"
Three vials OCME [redacted])
84-1, two teeth
84-2, one bullet jacket fragment weighing 13.9 grains.
84-3, bullet jacket fragment weighing 13.4 grains, lead fragment weiging 16.7 grains, lead fragment weighing 12.2 grains.

Submission#: 085. #105 Envelope w/ "seven (7) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# [redacted])"
Seven vials OCME [redacted])
85-1, one bullet jacket fragment weighing 13.0 grains (vial # 853)
85-2, one bullet jacket fragment weighing 14.2 grains, one lead fragment weighing 20.5 grains. (vial # 854)
85-3, one bullet jacket fragment weighing 13.6 grains, (vial # 855)
85-4, one bullet jacket fragment weighing 11.8 grains, (vial # 856)
85-5, one bullet jacket fragment weighing 44.9 grains, (vial # 857)
85.6, one bullet jacket fragment weighing 13.5 grains, lead fragment weighing 28.8 grains, lead fragment weighing 2.4 grains. (vial #858)
85-7, lead and jaccket fragment weighing a total of 24.1 grains. (vial # 859)

RESULTS OF EXAMINATION(Continued) :

Submission#: 086. #106 Envelope w/ "four (4) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# 12-17595 (Sherlach)"

Four vials OCME 12-17595 (Sherlach)
86-1, one bullet jacket fragment weighing 9.4 grains (R hip)
86-2, one bullet jacket fragment weighing 46.2 grains. (R back)
86-3, lead bullet core weighing 28.5 grains, (R armpit)
86-4, one bullet jacket fragment weighing 14.2 grains, (L chest)

Submission#: 087. #107 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted])"

One vial OCME [redacted])
87-1, one bullet jacket fragment weighing 13.3 grains.

Submission#: 088. #108 Envelope w/ "three (3) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# [redacted])"

Three vials OCME [redacted])
88-1a, one bullet jacket fragment weighing 14.4 grains,one lead fragment weighing 14.4 grains.(arm)
88-1b, one bullet jacket fragment weighing 13.4 grains,one lead fragment weighing 26.9 grains.(arm)
88-2, one bullet jacket fragment weighing 13.5 grains,one lead fragment weighing 26.6 grains. (head)
88-3, one bullet jacket fragment weighing 17.5 grains.(L chest)

Submission#: 089. #109 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted]

One vial OCME [redacted])
89-1, one bullet jacket fragment weighing 16.4 grains.
89-2, one bullet jacket fragment weighing 11.9 grains.

Submission#: 090. #110 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted])"

One vial OCME [redacted])
90-1, one bullet jacket fragment weighing 15.3 grains.
90-2, one bullet jacket fragment weighing 13.9 grains.
90-3, one lead fragment weighing 21.9 grains.

Submission#: 091. #111 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted])"

One vial OCME [redacted])
91-1, one bullet jacket fragment weighing 14.3 grains.
91-2, one bullet jacket fragment weighing 13.4 grains.
91-3, one lead fragment weighing 23.9 grains.
91-4, one lead fragment weighing 18.2 grains.

Submission#: 092. #112 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted]

One vial OCME [redacted]
92-1, one bullet jacket fragment weighing 10.6 grains.
92-2, one lead fragment weighing 9.0 grains.
92-3, one lead fragment weighing 1.4 grains.

Submission#: 093. #113 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# 12-17603 (Murphy)"

One vial OCME 12-17603 (Murphy)
93-1, one bullet jacket fragment weighing 13.5 grains.
93-2, one bullet jacket fragment weighing 13.3 grains.
93-3, one bullet jacket fragment weighing 13.2 grains.
93-4, one lead fragment weighing 8.2 grains.
93-5, one lead fragment weighing 8.0 grains.

00146708.pdf

RESULTS OF EXAMINATION(Continued) :

Submission#: 094. #114 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted]
One vial OCME [redacted])
94-1, one bullet jacket fragment weighing 13.9 grains.
94-2, one lead fragment weighing 12.6 grains.
94-3, one lead fragment weighing 2.6 grains.
94-4, one lead fragment weighing 2.4 grains.

Submission#: 095. #115 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted]
One vial OCME [redacted]
95-1, one bullet jacket fragment weighing 13.3 grains.
95-2, one bullet jacket fragment weighing 10.7 grains.

Submission#: 096. #116 Envelope w/ "three (3) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# 12-17606 (Russo) /one vial with teeth, one vial with clothing"
Three vials OCME 12-17606 (Russo)
96-1, one bullet jacket fragment weighing 13.8 grains, bullet core 27.9 grains, lead fragment 7.3 grains. (clothing)
96-2, one bullet jacket fragment weighing 14.2 grains, bullet jacket fragment 30.2 grains, lead fragment 9.1 grains.
96-3, two teeth and part of jaw

Submission#: 097. #117 Envelope w/ "one (1) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# [redacted]
One plastic vial OCME [redacted]
97-1, one bullet jacket fragment weighing 38.2 grains
97-2, one bullet jacket fragment weighing 14.3 grains
97-3, one bullet jacket fragment weighing 13.6 grains
97-4, one bullet jacket fragment weighing 14.8 grains
97-5, one lead fragment weighing 19.4 grains
97-6, one lead fragment weighing 4.5 grains
97-7, one lead fragment weighing 2.7 grains

Submission#: 098. #118 Envelope w/ "seven (7) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# 12-17609 (Devino) "
Seven plastic vials OCME 12-17609 (Devino)
98-1, one bullet jacket fragment weighing 13.1 grains, lead fragment weighing 10.9 grains (head)
98-2, one bullet jacket fragment weighing 3.0 grains, (by head)
98-3, one bullet jacket bullet weighing 47.4 grains, (R abdominal wall)
98-4, one bullet jacket fragment weighing 11.7 grains, lead fragment weighing 22.9 grains (L glut max)
98-5, one lead fragment weighing 4.6 grains (L calf)
98-6, one bullet jacket fragment weighing 15.3 grains (R calf)
98-7, one lead fragment weighing 3.3 grains (L lower leg)

Submission#: 099. #119 Envelope w/ "two (2) clear plastic vials containing cooper/lead fragments seized during autopsy of ME# [redacted]
Two plastic vials OCME [redacted]
99-1, one bullet jacket fragment weighing 43.7 grains, (chest)
99-2, one bullet jacket fragment weighing 12.7 grains, (clothing)

Submission#: 100. #120 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted]
One plastic vial OCME [redacted]
100-1, one jacketed bullet weighing 47.1 grains
100-2, one bullet jacket fragment weighing 13.5 grains
100-3 one lead bullet core weighing 28.5 grains

RESULTS OF EXAMINATION(Continued) :

Submission#: 101. #121 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted]
One plastic vial OCME [redacted])
101-1, one bullet jacket fragment weighing 31.4 grains
101-2, one bullet jacket fragment weighing 41.8 grains

Submission#: 102. #122 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted] **"**
One plastic vial OCME [redacted])
102-1, one bullet jacket fragment weighing 13.2 grains
102-2, one bullet jacket fragment weighing 13.3 grains
102-3, one bullet jacket fragment weighing 13.2 grains
102-4, one bullet jacket fragment weighing 14.1 grains
102-5, one bullet jacket fragment weighing 13.0 grains
102-6, one bullet jacket fragment weighing 12.6 grains
102-7, one lead fragment weighing 25.8grains
102-8, one leadfragment weighing 26.2 grains
102-9, one lead fragment weighing 20.9 grains

Submission#: 103. #123 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# [redacted]
One plastic vial OCME [redacted]
103-1, one bullet jacket fragment weighing15.4 grains
103-2, one bullet jacket fragment weighing46.1 grains
103-3, one bullet jacket fragment weighing 37.1 grains
103-4, one bullet jacket fragment weighing 8.9 grains
103-5, one lead fragment weighing 15.0 grains
103-6, one lead fragment weighing 5.5 grains

Submission#: 104. #124 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy of ME# 12-17610 (Soto) "
Three plastic vials OCME 12-17610 (Soto)
104-1, one bullet jacket fragment weighing 13.3 grains
104-2, one bullet jacket fragment weighing 13.7 grains, lead fragment weighing 30.2 grains.
104-3, one bullet jacket fragment weighing 13.2 grains, lead bullet core weighing 33.1 grains.

Submission#: 105. #125 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy/ sink area"
One plastic vial "copper and lead fragments seized during autopsy sink area"
105-1, one bullet jacket fragment weighing 20.8 grains. lead fragment weighing 4.1 grains.

Submission#: 106. #126 Envelope w/ "one (1) clear plastic vial containing cooper/lead fragments seized during autopsy. Printed label of Mary Sherlach (ME# 12-17595) /Black handwritten noted ME# 12-17609"
One plastic vial OCME 12-17609 (Sherlach)
106-1, one bullet jacket fragment weighing 13.3 grains. lead fragment weighing 1.8 grains. (R axila)

Submission#: 108. #505 Box w/ "one (1) Saiga 12 shotgun. serial # HO8402282 with two magazines containing 20 rounds of Winchester 12 guage shotgun rounds"
Izhmash semiautomatic shotgun, model Saiga-12, serial number H08402282, 12 gauge. Submitted with the shotgun were two ten cartridge capacity AGP Arms Inc. 12 gauge magazines which were suitable with the shotgun. There were a total of twenty Winchester 9 Pellet OO Buck 12 gauage shotgun shells which had been loaded in the magazines.

Submission#: 109. #506 Envelope w/ "one (1) bullet like projectile"
One envelope containing "bullet like projectile" from 2004 Honda Civic Ct. Reg 144WWD
109-1, one bullet jacket fragment weighing 11.8 grains

Submission#: 120. #85 Envelope w/ "lead and copper like fragments"
Two (2) pieces of bullet jacketing and one (1) lead fragment with a total weight of 43.5 grains. (classroom 10 east wall)

RESULTS OF EXAMINATION(Continued) :

Submission#: 121. #96 Envelope w/ "one (1) lead and copper like fragment"
One (1) bullet jacket and lead fragment weighing 29.6 grains. (classroom 10 north wall)

Submission#: 122. #129 Envelope w/ "copper / lead like fragment"
One (1) jacket and lead fragment weighing 51.6 grains. (class room 10 east wall)

Submission#: 123. #37c Bag w/ "one (1) 10mm casing removed from existing package of 37"
One (1) Starline 10mm auto discharged cartridge case.

RESULTS OF OPERABILITY EXAMINATION :

Submission#: 002 Item #17 Box w/ "Bushmaster Cal .223 Mod XM15-E2S, serial #L534858, 1 round removed from chamber and PMAG inserted with 14 live rounds."

Manufacturer of Firearm: **Bushmaster**	Model: **XM15-E2S**	Caliber: **5.56 x 45**
Type of Firearm: **Rifle Semi-Automatic**	Type of Action: **S/A**	Serial Number: **L534858**
Barrel Length: **16"**	Overall Length: **34 1/2"**	Capacity: **30 in mag**
Firearm operational : **Yes**	Tests on File: **nine from submitted magazine**	NIBIN Entry: **Yes**

Submission#: 056 #19 Box w/ "one (1) Glock 10mm serial #SMA461, one (1) round partially loaded, round removed from barrel, with magazine of eight (8) rounds remaining"

Manufacturer of Firearm: **Glock**	Model: **20**	Caliber: **10mm**
Type of Firearm: **Pistol Semiautomatic**	Type of Action: **Safe Action**	Serial Number: **SMA461**
Barrel Length: **4 1/2"**	Overall Length: **8"**	Capacity: **15 in mag**
Firearm operational : **Yes**	Tests on File: **3 cartridge cases and 3 bullets**	NIBIN Entry: **Yes**

Submission#: 057 #20 Box w/ "one (1) Sig Sauer P226 9mm serial- UU 676027 handgun, chamber empty, magazine of eighteen (18) Speer 9mm Luger rounds remaining"

Manufacturer of Firearm: **Sig Sauer**	Model: **P226**	Caliber: **9 mm**
Type of Firearm: **Pistol Semiautomatic**	Type of Action: **S/A D/A**	Serial Number: **UU676027**
Barrel Length: **4.5"**	Overall Length: **8 1/4"**	Capacity: **20 in mag**
Firearm operational : **Yes**	Tests on File: **3 cartridge cases and 3 bullets**	NIBIN Entry: **Yes**

Submission#: 108 #505 Box w/ "one (1) Saiga 12 shotgun. serial # HO8402282 with two magazines containing 20 rounds of Winchester 12 guage shotgun rounds"

Manufacturer of Firearm: **Izhmash**	Model: **Saiga-12**	Caliber: **12 Gauge**
Type of Firearm: **Shotgun Semi-Automatic**	Type of Action: **S/A**	Serial Number: **H08402282**
Barrel Length: **19"**	Overall Length: **39 1/4"**	Capacity: **10 in mag**
Firearm operational : **Yes**	Tests on File: **2 12 gauge OO buck shells**	NIBIN Entry: **No**

RESULTS OF EXAMINATION:

The Bushmaster rifle in submission #2 was examined and found to be safe for test firing purposes. A total of nine (9) cartridges were test fired during the examination of the firearm. The cartridges used to test fire were from the fourteen (14) S&B 5.56 mm X 45 caliber cartridges that had been submitted with the rifle. The test fires were used for comparative purposes and they will be retained on file with the Firearm Section of the laboratory.

00146708.pdf

RESULTS OF EXAMINATION(Continued):

The rifle was tested using the submitted 30 cartridge capacity magazine in this submission. I found the rifle to be operable without malfunction. It is a semiautomatic rifle and no alteratiions were found that altered the funcitioning of the firearm.

NIBIN database entry was made of the test fired cartridge cases and no candidate for comparison was located during a review of the correlation results of the database.

A direct comparative examination was made of the discharged cartridge cases in the following submissions to the test fired cartridge cases from submission #2 the Bushmaster rifle. Submissions # 48, #49, #64, #65, #66, #76, and #77 had a total of fourteen (14) discharged S&B 5.56 mm x 45 caliber cartridge cases. A positive identification was made of each cartridge case to the test fires. Marks in the firing pin impressions of the primers of each cartridge were used for the comparisons and identifications. There was sufficient agreement found in these marks for the identifications.

A direct comparative examination was made of the bullet fragments or bullet evidence in the following submissions to the test fires from submission #2 the Bushmaster rifle. Submissions # 62, #78, #79, #81, #82, #83, #84, #85, #86, #87, #88, #89, #90, #91, #92, #93, #94, #95, #96, #97, #98, #99, #100, #101, #102, #103, #104, #105, #106, and #109 had a total of 117 separate individual items of evidence. These items consisteded of fragmented bullet jackets, bullets and lead fragments.

The bullet jackets that had intact base areas all had the stamping of S&B on the base which is consistent with the ammunition that is loaded in the S&B 5.56 x 45 mm caliber cartridges that were examined. The general rifling characteristics of the fired bullet jackets that had them present were consistent to the general rifling charactierisics of the test fired bullets from the Bushmaster rifle in submission #2.

No positive identification could be made to any of the bullet evidence submissions noted above in 5.56 mm caliber. The physical condition of the bullet jacket surfaces were servely damaged and corroded. They all lacked individual striated marks of sufficient agreement for the identification process. The test fires also exhibited a lack of individual straited marks on the bullet surface for comparison purposes. The condition can be caused by fouling in the barrel of the rifle and the ammunition itself. The Bushmaster rifle cannot be eliminated as having fired the 5.56 caliber bullet evidence examined.

None of this evidence was fired by the other firearms submitted in submissions #56 (Glock 10 mm) , #57 (Sig 9 mm), or #108 (Izhmash 12 gauge).

The Glock semiautomatic pistol in submission #56 was found to be safe for test firing purposes. The submitted magazine and three (3) cartridges from laboratory ammunition were used to test fire the pistol. The firearm was found to operable without malfunction. The test fires will be held on file with this laboratory in the Firearms section.

NIBIN database entry was made of the fired cartridge cases and no candidates for comparison were located during the review of the correlations of the database.

A direct comparative examination was made of the test fires from this pistol to the the discharged 10 mm auto caliber catridge cases in submissions #50 and #123. They were both of the same Starline manufacturer and caliber to the cartridges which had been submitted with submission #56. A

00146708.pdf

RESULTS OF EXAMINATION(Continued):

positive identification was made of each cartridge case to the test fires. The comparison and identification was made using the aperture shearing marks on the primer surface of the cartridge cases. There was sufficient agreement found for the identification of these cartridge cases.

A direct comparative examination was made of the the 10 mm caliber bullet in submission #80 and the bullet fragments submitted in submissions #120, #121, #122. The general firlng characteristics on the bullet and bullet jacket fragments were consistent with the Glock pistol in submisison #56. No positive identification could be made during these examinations. The rifling characteristics of a Glock pistol in this caliber and the evidence examined all have polygonal rifling which is not a traditional cut rifling style. They all lacked sufficient striae for the comparison and identification process. They cannot be eliminated form being fired from the Glock pistol in submission #56. They could not have been fired in submissions #2 (Bushmaster 5.56 mm), #57 (Siig 9 mm) or #108 (Izhmash 12 gauge) firearms.

The Sig Sauer semiautomatic pistol in submission #57 was examined and found to be safe for test firing purposes. Three (3) cartridges from our laboratory ammunition were used to test fire the pistol. The firearm was found to be operable without malfunction using the submitted magazine with the pistol. The test fires will be retained on file with the Firearm section of the laboratory.

NIBIN database entry was made of the test fired cartridge cases. No candidates for comparison was located after a review of the correlation of database results.

There was no physical evidence presented of a fired bullet or cartridge case found for comparison to the test fires from this pistol.

The Izhmash semiautomatic shotgun was examined and found to safe for test firing purposes. Two (2) 12 gauge shotgun shells from our laboratory were used to test fired the shotgun which was found to be operable without malfunciton. The test fired shells will be retained on file with the Firearms section of the laboratory.

No NIBIN database entry was made of the test fires from the shotgun. Shotgun fired shells are not entered into our NIBIN database.

There was no physical evidence in this caliber for examination to the test fires.

The evidence in submissions #51, #52, #53, #54, #55, #58, #59, #60, #61, #63, #67, #68, #69, #70, #71, #72, #73, #74, #75, and #107 were not further identified. An administrative descion was made with the Division adminstration and the State's Attorney's Office not to conduct any further examintions by the Firearms section at this time on these items.

REQUEST FOR LAB EXAMINATION OF ADAM LANZA'S GAME SYSTEMS

ACTION TAKEN: On Thursday July 25, 2013 I transported the following items to the Forensic Lab in Meriden for the purpose of having them analyzed by the computer crimes section. All items were seized from the Lanza home located at 36 Yogananda Street in Sandy Hook CT. The items are as follows:

Exhibit #3 One Sony Play Station 2 with Controller + memory card
Exhibit #12 One (1) Microsoft "XBOX" with partially obliterated serial number
Exhibit #43 One (1) XBOX 360

These items were received as evidence at that lab at 1358 hours and assigned submission #'s 126, 127 and 128. At the time of the submission of these items I also presented a prepared Request for Examination of Physical Evidence form and Incoming Evidence Checklist (QR-CC-1) as well as a copy of the search and seizure warrant that granted the authority to examine the evidence. Copies of the Request for examination form, Incoming Evidence Checklist and search warrant are attached to this report. Also attached to this report is a copy of the evidence receipt given to me upon the completion of the submission.

The documents noted above have been uploaded into LEAS and are accessible through the Major Crime Tab.

Agencies submitting evidence to the Division of Scientific Services Laboratories for specific analysis agree to allow the laboratory to determine the appropriate methodology for the evidence submitted. Descriptions of analyses offered by the Division are detailed on our website. If the laboratory needs to deviate from standard test methodologies you or your agency will be contacted prior to the analysis being performed. The laboratory reserves the right to use contract laboratories to perform case analysis as needed. This contract serves to inform you as the client of this potential event. In the event a contract laboratory is used the name and address of the contract laboratory will be stated on the laboratory report to the submitting agency. Any concerns or specific requests about the required testing can be discussed with the section supervisor or Director prior to case analysis.

SEARCH AND SEIZURE WARRANT | STATE OF CONNECTICUT SUPERIOR COURT | SEARCH AND SEIZURE WARRANT

The foregoing Affidavit and Application for Search and Seizure Warrant having been presented to and been considered by the undersigned, a Judge of the Superior Court or a Judge Trial Referee, and the foregoing Affidavit having been subscribed and sworn to by the affiant(s) before me at the time it was presented, the undersigned (a) is satisfied therefrom that grounds exist for said application, and (b) finds that said affidavit established grounds and probable cause for the undersigned to issue this Search and Seizure Warrant, such probable cause being the following: From said affidavit, the undersigned finds that there is probable cause for the undersigned to believe that the property described in the foregoing affidavit and application is within or upon the person, if any, named or described in the foregoing affidavit and application, or the place or thing, if any, described in the foregoing affidavit and application, under the conditions and circumstances set forth in the foregoing affidavit and application, and that, therefore, a Search and Seizure warrant should issue for said property.

NOW THEREFORE, by Authority of the State of Connecticut, I hereby command any Police Officer of a regularly organized police department, any State Police Officer, any Inspector in the Division of Criminal Justice, or any conservation officer, special conservation officer or patrol officer acting pursuant to C.G.S. § 26-6 to whom these presents shall come within ten days after the date of this warrant to enter into or upon and search the place or thing described in the foregoing affidavit and application, or search the person described in the foregoing affidavit and application or both, to wit:

The residence of Nancy and Adam Lanza, 36 Yogananda Street in Sandy Hook, CT. The residence is a 2 story colonial style structure, with an attached two car garage. The house is pale yellow with dark green shutters and a dark green front door. The full address, 36 Yogananda Street is listed on the mailbox located in front of the house.

ID-12-002105
9I18T3U90TX701
CSP - Western District Major Crime Squad
CFS1200704597

for the property described in the foregoing affidavit and application, to wit:

Computers (including gaming devices and cellular telephones), zip disks, CD's, CDR's, DVD's, and other electronic storage media because; (1) The objects themselves may be instrumentalities, fruits, or evidence of a crime and (2) The objects may have been used to collect and store information about crimes in the form of electronic "data" (as defined by Connecticut General Statutes 53a-250(8)). Such data may include image files, video files, text files, or other electronically stored documents. Connecticut General Statutes define a "computer" as a programmable, electronic device capable of accepting and processing data, such as a gaming console, cellular telephone, and other similar devices.

RECEIVING JUL 25 P 1:49 SCIENTIFIC SERVICES

[X] submit the property described in the foregoing affidavit and application to laboratory analysis and examination:

Department of Public Safety Computer and Electronics Unit (278 Colony St in Meriden, CT) and/or other recognized and accredited forensic science laboratory for forensic examination and review.

and upon finding said property to seize the same, take and keep it in custody until the further order of the court, and with reasonable promptness make due return of this warrant accompanied by a written inventory of all property seized.

[✓] The foregoing request that the judge or judge trial referee dispense with the requirement of C.G.S. § 54-33c that a copy of the warrant application and affidavit(s) in support of the warrant be given to the owner, occupant or person named therein and that the affidavit in support of such request also be included in such nondelivery is hereby:

[✓] GRANTED for a period of | NOT TO EXCEED 2 WEEKS BEYOND DATE WARRANT IS EXECUTED: Dec. 28, 2012

This order, or any extension thereof, dispensing with said requirement shall not limit disclosure of such application and affidavits to the attorney for a person arrested in connection with or subsequent to the execution of the search warrant unless, upon motion of the prosecuting authority within two weeks of such arraignment the court finds that the state's interest in continuing nondisclosure substantially outweighs the defendant's right to disclosure.

[ ] DENIED.

[ ] Service of this Search Warrant upon the customer whose financial records are being sought is hereby waived, pursuant to C.G.S. § 36a-43 (a).

(NOTE: AFFIANT'S OATH MUST BE TAKEN PRIOR TO JUDGE / JUDGE TRIAL REFEREE SIGNING BELOW)

(This is page 7 of a 8 page Affidavit and Application.)

Signed at Newtown, Connecticut, on:	Date: Dec. 14, 2012	At (Time): 7:25	[ ] a.m. [✓] p.m.

Connecticut State Police
Western District Major Crime
Troop G

To : SGT DeCesare, #205

From : Trooper Bukowski, #763

Subject : Evidence repackaging: 12-00704559/12-00705354

Date : 7-25-13

Sir,

On 7-24-13 I repackaged evidence that was returned to Western District Major Crime from the FBI lab. In the evidence returned were exhibits from two separate case numbers, CFS-12-00704559, the original case number for the Sandy Hook Elementary School (SHES) shooting, and CFS-12-00705354, the case number established for the murder investigation of Nancy Lanza at 36 Yogananda Street in Sandy Hook. The evidence was being repackaged to be submitted to the Connecticut forensic lab for examination by the state. A copy of a warrant showing case number 12-00704559, giving the authority to examine the evidence labeled 12-00705354, was faxed to Troop G to accompany the evidence to be submitted to the lab.

The writing on the packages for exhibits #3, #12 and #43 show they were seized from 36 Yogananda Street, under case #12-00705354, the case number for the murder of Nancy Lanza. Page 6 of the warrant for case number 12-00704559, the overall case number for the shooting at SHES, show that exhibits#3, #12 and #43 being seized pursuant to that case number for the overall shooting. The case number on the evidence does not correspond to the case number on the warrant. Page 6 of the warrant for 12-00704559 records the evidence seized for that case, but is labeled for 12-00705354. .

On 7-25-13 I alerted Detective Bill Flynn of the discrepancy prior to him delivering the evidence to the lab for examination. I was later informed by Det. Flynn that a totally separate case number had been established solely for the collection of evidence to eliminate case number crossovers.

Respectfully Submitted,

Joseph Bukowski

Trooper Joseph Bukowski, #763

ACTION TAKEN:

On Monday, 29 July 2013, I received the three attached laboratory reports from the SPFL.

MAJOR CRIME TAB:

-00 166 521; Multimedia & Enhancement Section; DVD 'Car 18' - this report states that the evidence had been received along with this report, however, I did not receive this evidence. I contacted Forensic Science Examiner 1 Rachel M. MALONEY, who told me that Detective Alison PETERS from WDMC-Troop A had previously received this evidence.

-00166 522; DNA Section; Supplemental DNA Report 5.

    - 108-5. Shotgun shells from 108-4
110. C Sport zippered sweatshirt (#500)
111. C Sport zippered sweatshirt (#501)

EXAMINATION METHOD:

All examinations were conducted macroscopically unless otherwise noted.
Serological results reflect the analysis of a portion of the sample tested.

RESULTS OF EXAMINATION:

1. Submissions #51, #52, #53, #54, #63, #67, #75 and #107 each consisted of one (1) 5.56 X 45 S&B cartridge.

   Samples (#51-S1, #52-S1, #53-S1, #54-S1, #63-S1, #67-S1, #75-S1 and #107-S1) were collected from these cartridges for DNA analysis.

2. Submission #55 consisted of two (2) 5.56 X 45 PMAG 30 magazines taped together with gray duct tape.

   A. Numerous reddish-brown stains were noted on these magazines and duct tape.

      1) The stains tested gave positive results with a screening test for the presence of blood.

      2) No further serological testing was conducted on these stains at this time.

   B. A sample (#55-S1) was collected from unstained areas of these magazines for DNA analysis.

   C. Tissue with hair-like fibers (#55-S2) was collected from this submission.

3. Submission #56 consisted of items #56-1 (Glock handgun), #56-2 (chambered cartridge), #56-3 (magazine) and #56-4 (cartridges).

   A. Item #56-1 consisted of a 10mm Glock Model 20 handgun with the serial number SMA461.

      1) Samples were collected from the handle (#56-1S1), slide's grip area (#56-1S2) and trigger (#56-1S3) of this handgun for DNA analysis.

00166546.pdf

RESULTS OF EXAMINATION CONTINUED:

3. 2) Hair-like fibers (#56-1S4) were removed from the front of the barrel and front sight area.

3) Reddish-brown stains located on the muzzle area of the barrel gave a positive result with a screening test for the presence of blood.

One (1) of these stains (#56-1S5) gave a positive result with a confirmatory test for the presence of human glycophorin A, a component of human blood.

B. Item #56-2 consisted of a 10mm (*-*) AUTO cartridge.

A sample (#56-2S1) was collected from this cartridge for DNA analysis.

C. Item #56-3 consisted of a 10mm Glock magazine.

A sample (#56-3S1) was collected from this magazine for DNA analysis.

D. Item #56-4 consisted of eight (8) 10mm (*-*) AUTO cartridges removed from item #56-3.

A sample (#56-4S1) was collected from these cartridges for DNA analysis.

4. Submission #57 consisted of items #57-1 (9mm handgun), #57-2 (magazine) and #57-3 (cartridges).

A. Item #57-1 consisted of a 9mm Sig Sauer P226 handgun with the serial number UU676027.

Samples were collected from the handle (#57-1S1), slide's grip area (#57-1S2) and trigger (#57-1S3) of this handgun.

B. Item #57-2 consisted of a Mec-Gar Plus 2 (MG-P226-9) magazine.

A sample (#57-2S1) was collected from this magazine for DNA analysis.

C. Item #57-3S1 consisted of twenty (20) cartridges removed from item #57-2. These cartridges were comprised of nineteen (19) 9mm SPEER Luger+P hollow point cartridges and one (1) FC Luger cartridge.

A sample (#57-3S1) was collected from these cartridges for DNA analysis.

00166546.pdf

RESULTS OF EXAMINATION CONTINUED:

5. Submissions #58, #59, #60 and #61 each consisted of one (1) 10mm (*-*) AUTO cartridge. A slight impression mark was present on the primer area of submission #58.

   A. Reddish-brown stains were present on submission #58.

      1) The stain tested gave a positive result with screening test for the presence of blood.

      2) No further serological testing was conducted on these stains at this time.

   B. Samples (#58-S1, #59-S1, #60-S1 and #61-S1) were collected from these cartridges for DNA analysis.

6. Submission #68 consisted of items #68-1 (magazine), #68-2 (cartridges from magazine #68-1), #68-3 (magazine), #68-4 (cartridges from magazine #68-3), #68-5 (Mec-Gar magazine) and #68-6 (cartridges from magazine #68-5).

   A. Item #68-1 consisted of a 9mm P226 Sig Sauer magazine.

      A sample (#68-1S1) was collected from this magazine for DNA analysis.

   B. Item #68-2 consisted of twenty (20) 9mm Win Luger cartridges removed from item #68-1.

      A sample (#68-2S1) was collected from these cartridges for DNA analysis.

   C. Item #68-3 consisted of a 9mm P226 Sig Sauer magazine.

      A sample (#68-3S1) was collected from this magazine for DNA analysis.

   D. Item #68-4 consisted of twenty (20) 9mm Win Luger cartridges removed from item #68-3.

      A sample (#68-4S1) was collected from these cartridges for DNA analysis.

   E. Item #68-5 consisted of a 9mm Mec-Gar Plus 2 magazine.

      A sample (#68-5S1) was collected from this magazine for DNA analysis.

   F. Item #68-6 consisted of twenty (20) 9mm Win Luger cartridges removed from item #68-5.

      A sample (#68-6S1) was collected from these cartridges for DNA analysis.

00166546.pdf

RESULTS OF EXAMINATION CONTINUED:

7. Submission #69 consisted of items #69-1 (magazine) and #69-2 (cartridges).

   A. Item #69-1 consisted of a black 5.56 X 45 PMAG 30 magazine.

      A sample (#69-1S1) was collected from this magazine for DNA analysis.

   B. Item #69-2 consisted of thirty (30) 5.56 X 45 S&B cartridges removed from 69-1.

      A sample (#69-2S1) was collected from these cartridges for DNA analysis.

8. Submission #70 consisted of items #70-1 (magazine), #70-2 (cartridges from #70-1), #70-3 (magazine) and #70-4 (cartridges from #70-3).

   A. Item #70-1 consisted of a 10mm Glock magazine.

      A sample (#70-1S1) was collected from this magazine for DNA analysis.

   B. Item #70-2 consisted of fifteen (15) 10mm (*-*) AUTO cartridges removed from item #70-1.

      A sample (#70-2S1) was collected from these cartridges for DNA analysis.

   C. Item #70-3 consisted of a 10mm Glock magazine.

      A sample (#70-3S1) was collected from this magazine for DNA analysis.

   D. Item #70-4 consisted of fifteen (15) 10mm (*-*) AUTO cartridges removed from item #70-3.

      A sample (#70-4S1) was collected from these cartridges for DNA analysis

9. Submission #71 consisted of items #71-1 (magazine), #71-2 (cartridges from #71-1), #71-3 (magazine) and #71-4 (cartridges from #71-3).

   A. Item #71-1 consisted of a 10mm Glock magazine.

      A sample (#71-1S1) was collected from this magazine for DNA analysis.

   B. Item #71-2 consisted of fifteen (15) 10mm (*-*) AUTO cartridges removed from item #71-1.

      A sample (#71-2S1) was collected from these cartridges for DNA analysis.

00166546.pdf

RESULTS OF EXAMINATION CONTINUED:

9. C. Item #71-3 consisted of a 10mm Glock magazine.

A sample (#71-3S1) was collected from this magazine for DNA analysis.

D. Item #71-4 consisted of fifteen (15) 10mm (*-*) AUTO cartridges removed from item #71-3.

A sample (#71-4S1) was collected from these cartridges for DNA analysis

10. Submission #72 consisted of items #72-1 (Sig Sauer magazine), #72-2 (cartridges from #72-1), #72-3 (Sig Sauer magazine), #72-4 (cartridges from #72-3), #72-5 (Glock magazine) and #72-6 (cartridges from #72-5).

A. Item #72-1 consisted of a 9mm P226 Sig Sauer magazine.

A sample (#72-1S1) was collected from this magazine for DNA analysis.

B. Item #72-2 consisted of twenty (20) 9mm Win Luger hollow point cartridges removed from item #72-1.

A sample (#72-2S1) was collected from these cartridges for DNA analysis.

C. Item #72-3 consisted of a 9mm P226 Sig Sauer magazine.

A sample (#72-3S1) was collected from this magazine for DNA analysis.

D. Item #72-4 consisted of twenty (20) 9mm FC Luger cartridges removed from item #72-3.

A sample (#72-4S1) was collected from these cartridges for DNA analysis.

E. Item #72-5 consisted of a 10mm Glock magazine.

1) A sample (#72-5S1) was collected from this magazine for DNA analysis.

2) A faint reddish-brown staining was present on the base of item #72-5.

a) The area tested gave a positive result with a screening test for the presence of blood.

00166546.pdf

RESULTS OF EXAMINATION CONTINUED:

10. E. 2) b) No further serological testing was conducted on these stains at this time.

F. Item #72-6 consisted of fifteen (15) 10mm (*-*) AUTO cartridges removed from item #72-5.

A sample (#72-6S1) was collected from these cartridges for DNA analysis.

11. Submission #73 consisted of two (2) black PMAG 5.56 magazines taped together with clear packing tape. Thirty (30) 5.56 X 45 S&B cartridges were loaded into each magazine.

A. A sample (#73-S1) was collected from the magazines for DNA analysis.

B. Samples (#73-S2 and #73-S3) were collected from the cartridges removed from each magazine.

12. Submission #74 consisted of items #74-1 (PMAG magazine), #74-2 (cartridges from #74-1), #74-3 (PMAG magazine), #74-4 (cartridges from #74-3) and #74-5 (empty PMAG magazine).

A. Item #74-1 consisted of a 5.56 X 45 PMAG magazine.

1) Reddish-brown stains located on the right side of this magazine gave positive results with a screening test for the presence of blood.

No further serological testing was conducted on these stains at this time.

2) A sample (#74-1S1) was collected from the unstained areas of this magazine for DNA analysis.

B. Item #74-2 consisted of ten (10) 5.56 X 45 S&B cartridges removed from item #74-1.

A sample (#74-2S1) was collected from these cartridges for DNA analysis.

C. Item #74-3 consisted of a 5.56 X 45 PMAG magazine.

1) Reddish-brown stains located on the left side of this magazine gave positive results with a screening test for the presence of blood.

No further serological testing was conducted on these stains at this time.

2) A sample (#74-3S1) was collected from the unstained areas of this magazine for DNA analysis.

00166546.pdf

RESULTS OF EXAMINATION CONTINUED:

12. D. Item #74-4 consisted of thirteen (13) 5.56 X 45 S&B cartridges removed from item #74-3.

A sample (#74-4S1) was collected from these cartridges for DNA analysis.

E. Item #74-5 consisted of an empty 5.56 X 45 PMAG magazine.

1) A faint reddish-brown stain located on the right side of this magazine gave a positive result with a screening test for the presence of blood.

No further serological testing was conducted on this stain at this time.

2) A sample (#74-5S1) was collected from the unstained areas of this magazine for DNA analysis.

13. Submission #108 consisted of items #108-1 (shotgun), #108-2 (magazine), #108-3 (shotgun shells from #108-2), #108-4 (magazine) and #108-5 (shotgun shells from #108-4).

A. Item #108-1 consisted of a 12 gauge Saiga-12 shotgun with the serial number H08402282.

Samples were collected from the forearm (#108-1S1), stock (#108-1S2), trigger (#108-1S3) and receiver/bolt (#108-1S4) areas of this shotgun for DNA analysis.

B. Item #108-2 consisted of a magazine.

A sample (#108-2S1) was collected from this magazine for DNA analysis.

C. Item #108-3 consisted of ten (10) 12 gauge Winchester 00 Buck shotgun shells removed from item #108-2.

A sample (#108-3S1) was collected from these shotgun shells for DNA analysis.

D. Item #108-4 consisted of a magazine.

A sample (#108-4S1) was collected from this magazine for DNA analysis.

C. Item #108-5 consisted of ten (10) 12 gauge Winchester 00 Buck shotgun shells removed from item #108-4.

A sample (#108-5S1) was collected from these shotgun shells for DNA analysis.

00166546.pdf

RESULTS OF EXAMINATION CONTINUED:

14. Submission #110 consisted of a black, "C Sport & Company" zippered sweatshirt.

    A. A sample (#110-S1) was collected from the neckline and cuff areas of this sweatshirt for DNA analysis.

    B. A brown stain located on the back left shoulder of this sweatshirt gave a positive result with a screening test for the presence of blood.

        1) Since further analysis may consume this stain, no further serological testing was conducted at this time.

        2) This stain (#110-S2) was collected for DNA analysis.

    C. Hair-like fibers (#110-S3) were removed from this sweatshirt.

15. Submission #111 consisted of a black, "C Sport & Company" zippered sweatshirt, size Adult M.

    A. A sample (#111-S1) was collected from the neckline and cuff areas of this sweatshirt for DNA analysis.

    B. Hair-like fibers (#111-S2) were removed from this sweatshirt.

16. Items #51-S1, #52-S1, #53-S1, #54-S1, #55-S1, #55-S2, #56-1S1, #56-1S2, #56-1S3, #56-1S4, #56-1S5, #56-2S1, #56-3S1, #56-4S1, #57-1S1, #57-1S2, #57-1S3, #57-2S1, #57-3S1, #58-S1, #59-S1, #60-S1, #61-S1, #63-S1, #67-S1, #68-1S1, #68-2S1, #68-3S1, #68-4S1, #68-5S1, #68-6S1, #69-1S1, #69-2S1, #70-1S1, #70-2S1, #70-3S1, #70-4S1, #71-1S1, #71-2S1, #71-3S1, #71-4S1, #72-1S1, #72-2S1, #72-3S1, #72-4S1, #72-5S1, #72-6S1, #73-S1, #73-S2, #73-S3, #74-1S1, #74-2S1, #74-3S1, #74-4S1, #74-5S1, #75-S1, #107-S1, #108-1S1, #108-1S2, #108-1S3, #108-1S4, #108-2S1, #108-3S1, #108-4S1, #108-5S1, #110-S1, #110-S2, #110-S3, #111-S1and #111-S2 were retained at the Laboratory.

17. Items #51-S1, #52-S1, #53-S1, #54-S1, #55-S1, #56-1S1, #56-1S2, #56-1S3, #56-2S1, #56-3S1, #56-4S1, #57-1S1, #57-1S2, #57-1S3, #57-2S1, #57-3S1, #58-S1, #59-S1, #60-S1, #61-S1, #63-S1, #67-S1, #68-1S1, #68-2S1, #68-3S1, #68-4S1, #68-5S1, #68-6S1, #69-1S1, #69-2S1, #70-1S1, #70-2S1, #70-3S1, #70-4S1, #71-1S1, #71-2S1, #71-3S1, #71-4S1, #72-1S1, #72-2S1, #72-3S1, #72-4S1, #72-5S1, #72-6S1, #73-S1, #73-S2, #73-S3, #74-1S1, #74-2S1, #74-3S1, #74-4S1, #74-5S1, #75-S1, #107-S1, #108-1S1, #108-1S2, #108-1S3, #108-1S4, #108-2S1, #108-3S1, #108-4S1, #108-5S1, #110-S1, #110-S2 and #111-S1 were forwarded to the DNA Section for further testing.

RESULTS OF EXAMINATION CONTINUED:

18. Submissions #56, #57 and #108 were forwarded to the Firearms Section for further analysis.

* Further analysis upon request

TOWN OF INCIDENT: Newtown, CT

DATE OF REQUEST: 06/06/13

DATE OF REPORT: 07/08/13

REPORT TO:
Commanding Officers of above
Dr. H. Wayne Carver, II

EVIDENCE EXAMINED:

51-S1	Swabbing – 5.56X45 S&B cartridge
52-S1	Swabbing – 5.56X45 S&B cartridge
53-S1	Swabbing – 5.56X45 S&B cartridge
54-S1	Swabbing – 5.56X45 S&B cartridge
58-S1	Swabbing – 10mm Auto cartridge
59-S1	Swabbing – 10mm Auto cartridge
60-S1	Swabbing – 10mm Auto cartridge
61-S1	Swabbing – 10mm Auto cartridge
63-S1	Swabbing – 5.56X45 S&B cartridge

SUPPLEMENTAL DNA REPORT V

EVIDENCE EXAMINED CONTINUED:

67-S1	Swabbing – 5.56X45 S&B cartridge
72-1S1	Swabbing – Sig Sauer magazine
72-2S1	Swabbing – Twenty cartridges from 72-1
72-3S1	Swabbing – Sig Sauer magazine
72-4S1	Swabbing – Twenty cartridges from 72-3
72-5S1	Swabbing – Glock magazine
72-6S1	Swabbing – Fifteen cartridges from 72-5
74-1S1	Swabbing – unstained areas of PMAG magazine
74-2S1	Swabbing – Ten cartridges from 74-1
74-3S1	Swabbing – unstained areas of PMAG magazine
74-4S1	Swabbing – thirteen cartridges from 74-3
74-5S1	Swabbing – unstained areas of empty PMAG magazine
75-S1	Swabbing – 5.56 X 45 cartridge
108-1S1	Swabbing – forearm area of Saiga-12 shotgun
108-1S2	Swabbing – stock area of Saiga-12 shotgun
108-1S3	Swabbing – trigger area of Saiga-12 shotgun
108-1S4	Swabbing – receiver/bolt areas of Saiga-12 shotgun
108-2S1	Swabbing – magazine
108-3S1	Swabbing – ten 12 gauge 00 Buck shotgun shells
108-4S1	Swabbing – magazine
108-5S1	Swabbing – ten 12 gauge 00 Buck shotgun shells
#13-S2	Known blood, N. Lanza
#14	Swabbing from liver – A. Lanza

RESULTS OF EXAMINATION:

1. DNA was previously extracted and analyzed from item #13-S2 and submission #14 (see DNA Report dated 02/01/13). DNA was extracted from items #51-S1, #52-S1, #53-S1, #54-S1, #58-S1, #59-S1, #60-S1, #61-S1, #63-S1, #67-S1, #72-1S1, #72-2S1, #72-3S1, #72-4S1, #72-5S1, #72-6S1, #74-1S1, #74-2S1, #74-3S1, #74-4S1, #74-5S1, #75-S1, #108-1S1, #108-1S2, #108-1S3, #108-1S4, #108-2S1, #108-3S1, #108-4S1, and #108-5S1. DNA was purified according to standard laboratory protocols.

2A. Extracted material obtained from items #51-S1, #52-S1, #53-S1, #54-S1, #58-S1, #59-S1, #60-S1, #61-S1, #63-S1, #67-S1, #72-1S1, #72-2S1, #72-3S1, #72-4S1, #72-5S1, #72-6S1, #74-1S1, #74-2S1, #74-3S1, #74-4S1, #74-5S1, #75-S1, #108-1S1, #108-1S2, #108-1S3, #108-1S4, #108-2S1, #108-3S1, #108-4S1, and #108-5S1 was amplified by the AmpF*l*STR Identifiler Plus procedure as described in laboratory protocols. STR alleles were separated and detected by standard laboratory protocols. Insufficient amplification products were detected from items #51-S1, #52-S1, #54-S1, #60-S1, #61-S1, #72-6S1, #108-1S4, and #108-3S1 to generate DNA profiles, therefore, no comparisons could be made for these items.

SUPPLEMENTAL DNA REPORT V

RESULTS OF EXAMINATION CONTINUED:

2B. The following results were obtained on the amplified items:

3. Items #51-S1, #52-S1, #53-S1, #54-S1, #58-S1, #59-S1, #60-S1, #61-S1, #63-S1, #67-S1, #72-1S1, #72-2S1, #72-3S1, #72-4S1, #72-5S1, #72-6S1, #74-1S1, #74-2S1, #74-3S1, #74-4S1, #74-5S1, #75-S1, #108-1S1, #108-1S2, #108-1S3, #108-1S4, #108-2S1, #108-3S1, #108-4S1, and #108-5S1 were consumed in testing.

SUPPLEMENTAL DNA REPORT V

CONCLUSIONS:

4. The results are consistent with A. Lanza (submission #14) being the source of the DNA profiles from items #58-S1 (swabbing – 10mm Auto cartridge), #72-1S1 (swabbing – Sig Sauer magazine), and #72-4S1 (swabbing – Twenty cartridges from 72-3). The expected frequency of individuals who could be the source of the DNA profiles from items #58-S1, #72-1S1, and #72-4S1 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

5. The results demonstrate that item #67-S1 (swabbing – 5.56X45 S&B cartridge) is a mixture. The results are consistent with item #72-3S1 (swabbing – Sig Sauer magazine) being a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profiles from items #67-S1 and #72-3S1. The expected frequency of individuals who could be a contributor to the DNA profiles from items #67-S1 and #72-3S1 is less than 1 in 7 billion in the African American, Caucasian, and Hispanic populations.

6. The results demonstrate that item #72-5S1 (swabbing – Glock magazine) is a mixture. A. Lanza (submission #14) is included as a contributor to the DNA profile from item #72-5S1. The expected frequency of individuals who could be a contributor to the DNA profile from item #72-5S1 is approximately 1 in 6.4 billion in the African American population, approximately 1 in 30 million in the Caucasian population, and approximately 1 in 110 million in the Hispanic population.

7. The results demonstrate that item #108-1S3 (swabbing – trigger area of Saiga-12 shotgun) is a mixture. A. Lanza (submission #14) cannot be eliminated as a contributor to the DNA profile from item #108-1S3. The expected frequency of individuals who cannot be eliminated as a contributor to the DNA profile (at all loci tested except CSF1PO and FGA) from item #108-1S3 is less than 1 in 7 billion in the African American population, approximately 1 in 2.6 billion in the Caucasian population, and approximately 1 in 1.6 billion in the Hispanic population.

8. Insufficient amplification products were detected from item #72-2S1 (Swabbing – Twenty cartridges from 72-1) for comparison to the known DNA profile of A. Lanza (submission #14).

9. The results eliminate N. Lanza (item #13-S2) as the source of, or contributor to, the DNA profiles from items #58-S1, #67-S1, #72-1S1, #72-2S1, #72-3S1, #72-4S1, #72-5S1, and #108-1S3.

SUPPLEMENTAL DNA REPORT V

CONCLUSIONS CONTINUED:

10. The results eliminate N. Lanza (item #13-S2) and A. Lanza (submission #14) as the source of, or contributor to, the DNA profiles from items #53-S1 (swabbing – 5.56X45 S&B cartridge), #59-S1 (swabbing – 10mm Auto cartridge), #63-S1 (swabbing – 5.56X45 S&B cartridg), #74-1S1 (swabbing – unstained areas of PMAG magazine), #74-2S1 (swabbing – Ten cartridges from 74-1), #74-3S1 (swabbing – unstained areas of PMAG magazine), #74-4S1 (swabbing – thirteen cartridges from 74-3), #74-5S1 (swabbing – unstained areas of empty PMAG magazine), #75-S1 (swabbing – 5.56 X 45 cartridge), #108-1S1 (swabbing – forearm area of Saiga-12 shotgun), #108-1S2 (swabbing – stock area of Saiga-12 shotgun), #108-2S1 (swabbing – magazine), #108-4S1 (swabbing – magazine), and #108-5S1 (swabbing – ten 12 gauge 00 Buck shotgun shells).

11. The profile from item #108-2S1 (swabbing – magazine) was searched against the Connecticut and National DNA Databases. No matching profiles were found. These profile results will be searched periodically. If another suspect is developed, please notify the examiner as soon as possible.

REPORT TO: **Detective Michael Mudry**

EVIDENCE SUBMITTED:

32. DVD – "Car #18" (#356D)

RESULTS OF EXAMINATION:

1. Submission #32 consisted of one (1) DVD labeled "Newtown Police Mobile Video Recorder Car #18 – Ofc Chapman 12/14/2012 1 of 1 Evidence". This DVD contained four (4) .VOB files and other miscellaneous files.

2. One (1) of the .VOB files ("VTS_01_1.VOB") was imported into video editing software and the amplitude in the areas where gunshots were heard was increased. This file was saved as "Sequence 01.wmv".

3. DVDs were made for the submitting agency of the original video files and the enhanced video file. (#32-M1 and #32-M2)

4. Copies of the DVDs were retained at the Laboratory. (#32-M3 Archive and #32-M4 Archive)

ACTION TAKEN:

On Monday, 29 July 2013 at approximately 0925 hours, I received the following exhibits from the Forensic Laboratory in Meriden:

EXHIBITS: 9 through 12, 18, 22WD, 23, 24, 25, 34, 40 through 48, 500, 501 503 and Laboratory submission# 125.

The evidence was brought to Western District Major Crime and placed in the WDMC Evidence room at approximately 1515 hours.

Agencies submitting evidence to the Division of Scientific Services Laboratories for specific analysis agree to allow the laboratory to determine the appropriate methodology for the evidence submitted. Descriptions of analyses offered by the Division are detailed on our website. If the laboratory needs to deviate from standard test methodologies you or your agency will be contacted prior to the analysis being performed. The laboratory reserves the right to use contract laboratories to perform case analysis as needed. This contract serves to inform you as the client of this potential event. In the event a contract laboratory is used the name and address of the contract laboratory will be stated on the laboratory report to the submitting agency. Any concerns or specific requests about the required testing can be discussed with the section supervisor or Director prior to case analysis.

PHOTOGRAPH REPORT

Beginning on Friday December 14th, 2012 and concluding on Thursday December 20th, 2012 Detectives from the Western District Major Crime Squad (WDMCS) were tasked with the processing of a "Mass Murder/Shooting", located at the Sandy Hook Elementary School, #12 Dickinson Drive in the Town of Sandy Hook (Newtown), Connecticut. Detectives from the WDMCS were responsible for the interior processing of the school. This Detective was assigned to take digital images as a standard procedural function during the processing of the scene.

The digital camera utilized was a Nikon D300 with a Nikon SB900 synchronized strobe flash unit where necessary.

The original images were copied from the compact flash card in the camera onto a compact disc for archival storage by the CSP Forensic Laboratory, Photography Section. See the attached compact discs for the images referenced in this report.

PHOTOGRAPH REPORT
(Clothing)

Beginning on Monday December 17th, 2012 and concluding on Tuesday December 18th, 2012 Detectives from the Western District Major Crime Squad (WDMCS), were tasked with the processing of the clothing items worn by the "Victim's" of the "Mass Murder/Shooting", located at the Sandy Hook Elementary School, #12 Dickinson Drive in the Town of Sandy Hook (Newtown), Connecticut. This Detective was assigned to take digital images as a standard procedural function during the processing of the clothing items.

The digital camera utilized was a Nikon D300 with a Nikon SB900 synchronized strobe flash unit where necessary.

The original images were copied from the compact flash card in the camera onto a compact disc for archival storage by the CSP Forensic Laboratory, Photography Section. See the attached compact discs for the images referenced in this report.

PHOTOGRAPH REPORT

("the shooter's" clothing)

On Thursday January 17th, 2013 Detectives from the Western District Major Crime Squad (WDMCS), were tasked with the processing of the clothing items **(Exhibit #83),** worn by Adam Lanza, "the shooter", (dob-04/22/1992) {OCME #12-17618), as part of the on-going "Mass Murder/Shooting" investigation, located at the Sandy Hook Elementary School, #12 Dickinson Drive in the Town of Sandy Hook (Newtown), Connecticut. This Detective was assigned to take digital images as a standard procedural function during the processing of the clothing items. The clothing items were marked as **Exhibit #83(B) through Exhibit #83(P); with Exhibit #83(A),** being postmortem fingerprints, which were not photographed for this report.

The digital camera utilized was a Nikon D300 with a Nikon SB900 synchronized strobe flash unit where necessary.

The original images were copied from the compact flash card in the camera onto a compact disc for archival storage by the CSP Forensic Laboratory, Photography Section. See the attached compact discs for the images referenced in this report.

ACTION TAKEN:

On December 14, 2012 I was assigned by Sgt. Telford #257 of the Collision Analysis and Reconstruction Squad to assist members of the Major Crime unit in the investigation of a school shooting. This portion of the investigation, which only included forensically mapping the incident location, was done in accordance with the principles taught through the Institute of Police Technology and Management at the University of North Florida in Jacksonville, Florida as well as other trainings and my experiences.

Upon my arrival, the initial survey of the physical evidence found that this incident involved points of evidence both inside and outside of the school.

I was assigned to forensically map the evidence as indicated by Detectives from the Major Crime Unit and complete this information in the form of a detailed map.

LOCATION:

This incident was located on Dickinson Drive in Sandy Hook, CT.

PHYSICAL EVIDENCE:

Members of the Major Crime Unit observed and placarded points of evidence within the crime scene to which I was advised and eventually

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. documented.

DETAILED DIAGRAM:

Utilizing the below listed equipment I obtained the necessary measurements to prepare a scaled diagram.

Impulse Laser: DPS # 36534
MapStar Angle Encoder: DPS # 36532
TDS Recon Hand Held: DPS # 40182

I along with TFC A. Cretella #1039, TFC J. Foley #745, and TFC M. Pereira #360 set forth a plan that would allow us to document the outside areas including the front portion of the school and the parking lot.

TFC J. Foley #745 operated the instrument while TFC A. Cretella #1039 and I position prism poles on points of interest and evidence.

The outside scene was completed with two (2) separate sets of documentation that were merged to complete the final map. Both sets of measurements are included in this report.

The inside of the school was done in a similar fashion as the outside. TFC J. Foley #745 operated the instrument throughout the documentation while TFC A. Cretella #1039, TFC M. Pereira #360 and I positioned the prism poles at different points of evidence.
Each room as well as the hallway was done individually and merged together to produce the final map. Additionally I utilized photographs obtained by Major Crime personnel to add room items such as desks, chairs, cubbys, shelves, and other non-evidentiary items.

The mapping process for the inside provided six (6) separate sets of data points which are included in this report.

The outside scene was comprised of two (2) separate mapping locations that produced a total of 340 data points.

The inside scene was comprised of six (6) separate mapping locations that produced a total of 327 data points.

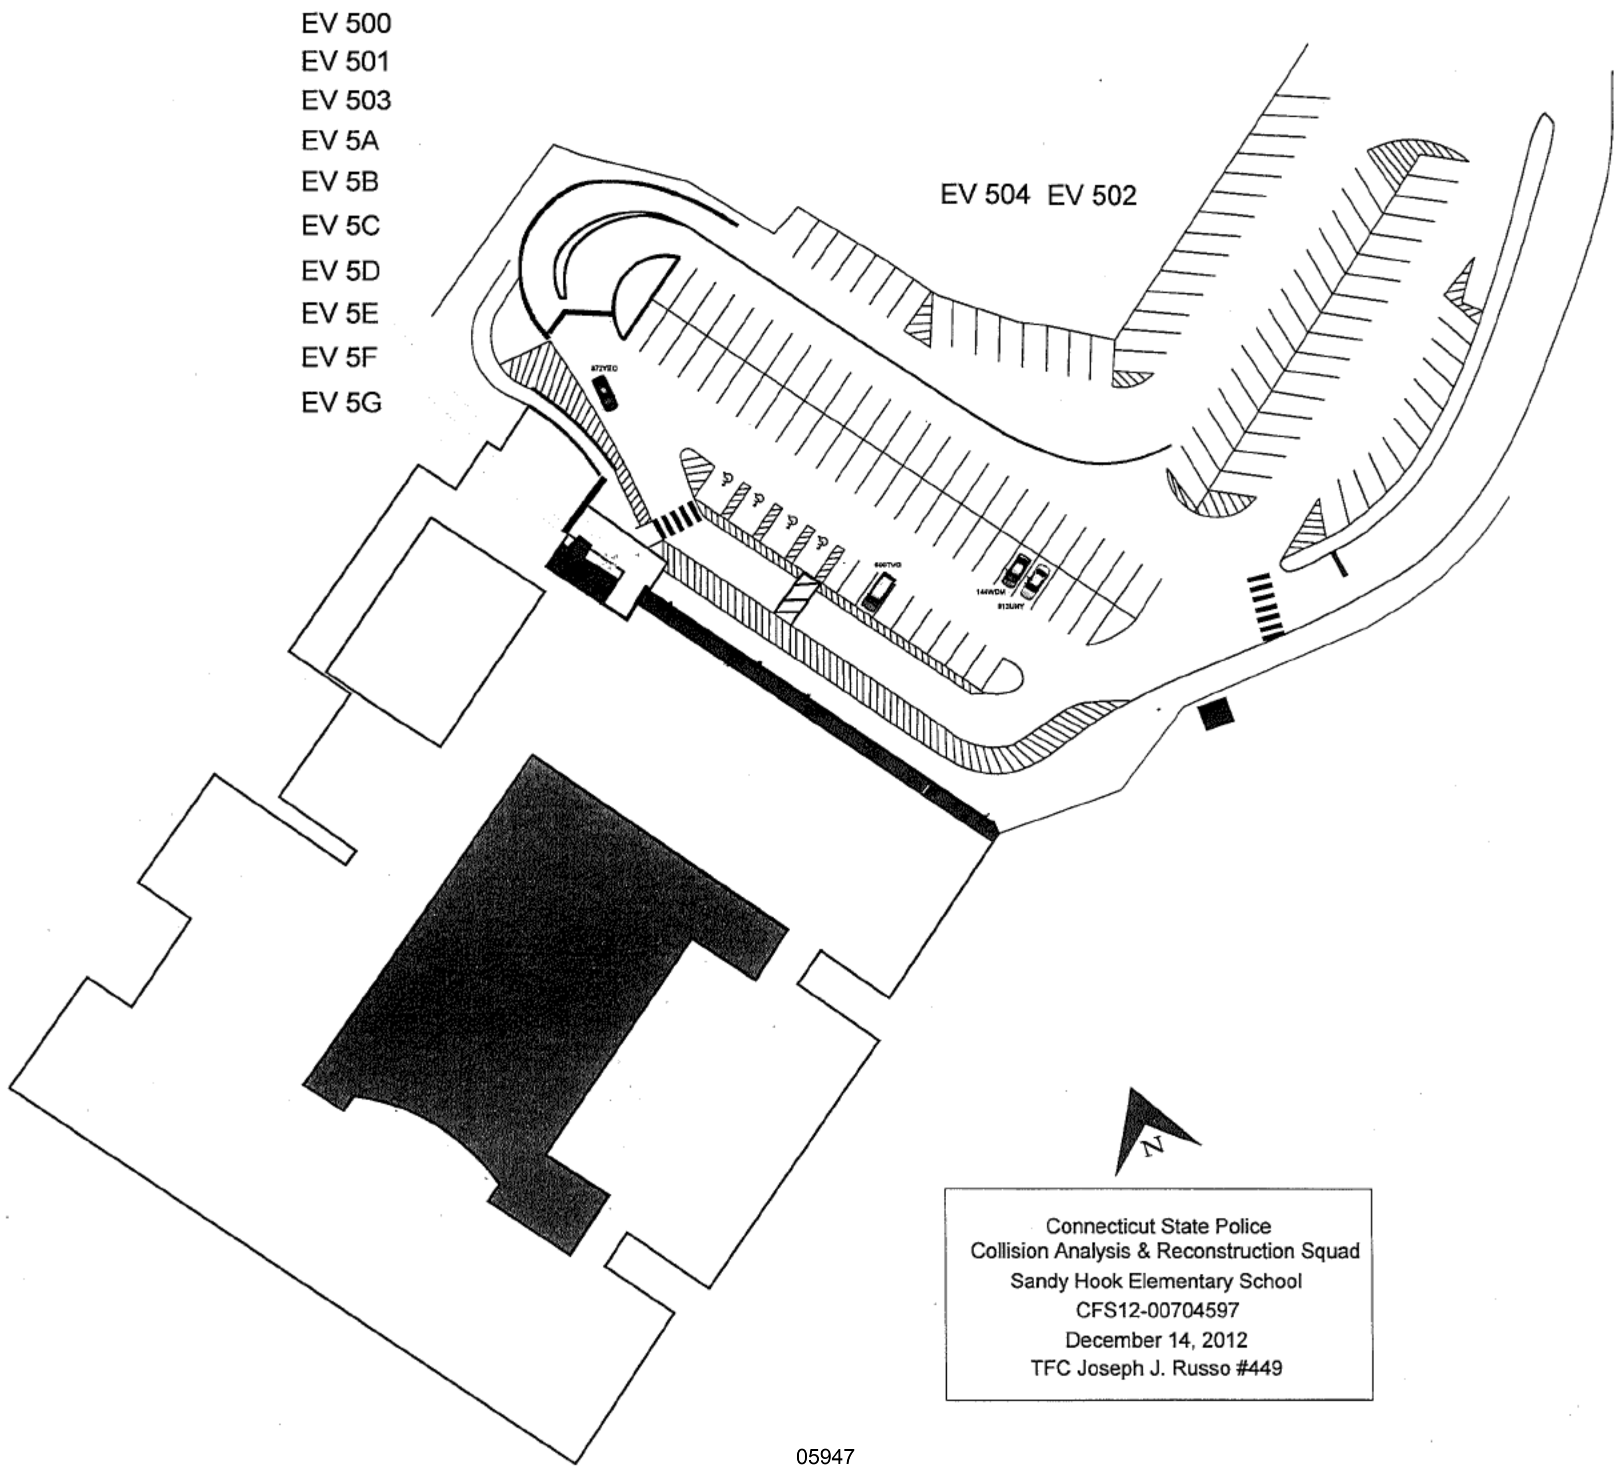

**STATE OF CONNECTICUT, DEPARTMENT OF PUBLIC SAFETY-
INVESTIGATION REPORT (DPS-302-E) (REVISED 2/3/06)**

With the above referenced material I completed two (2) separate maps for the outside scene as well as two (2) separate maps for the inside scene.

With my submission of these documents, my involvement in this case is complete.

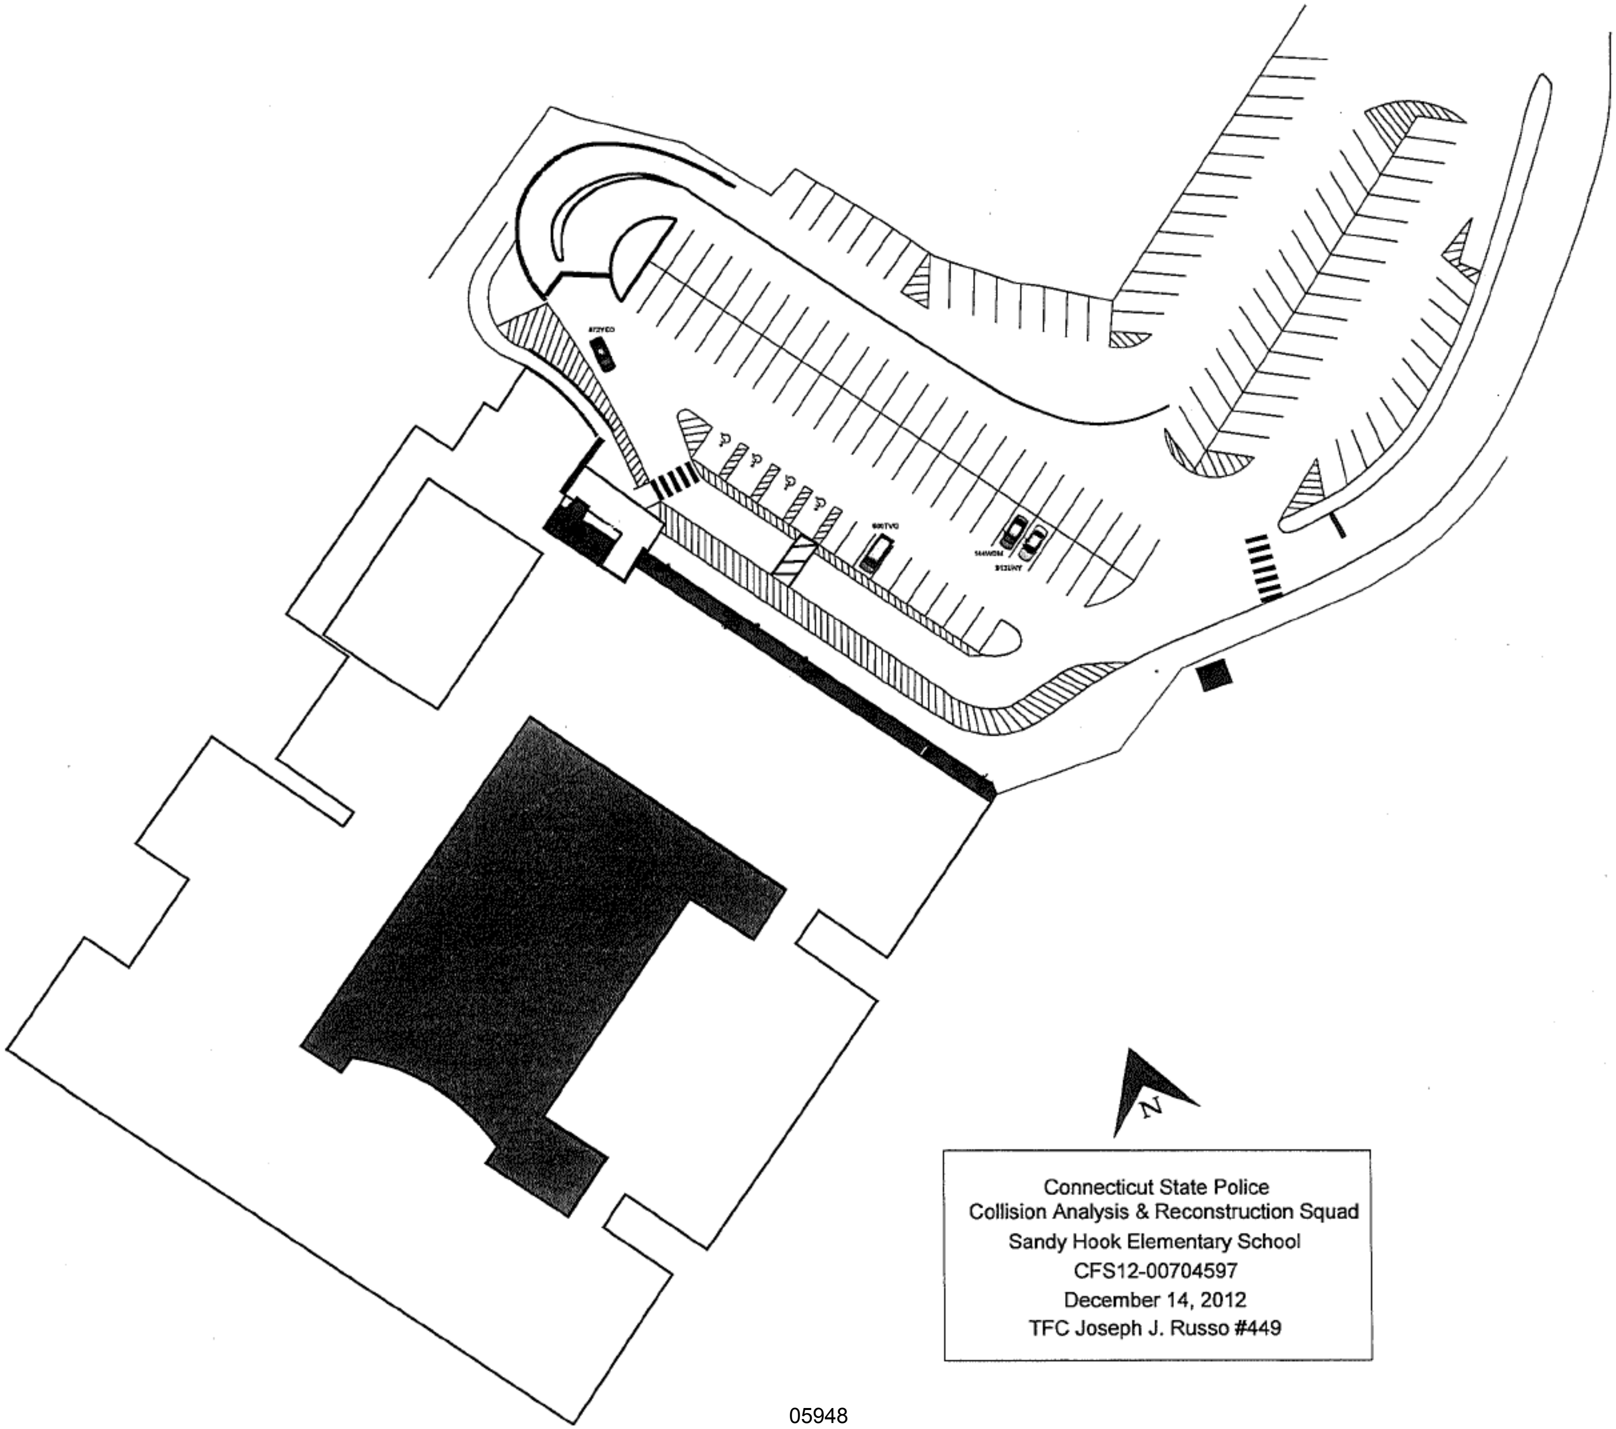

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER. THAT THE INFORMATION CONTAINED THEREIN WAS SECURED AS A RESULT OF (1)MY PERSONAL OBSERVATION AND KNOWLEDGE: OR (2)INFORMATION RELAYED TO ME BY OTHER MEMBERS OF MY POLICE DEPARTMENT OR OF ANOTHER POLICE DEPARTMENT:OR (3)INFORMATION SECURED BY MYSELF OR ANOTHER MEMBER OF A POLICE DEPARTMENT FROM THE PERSON OR PERSONS NAMED OR IDENTIFIED THEREIN, AS INDICATED IN THE ATTACHED REPORT. THAT THE REPORT IS AN ACCURATE STATEMENT OF THE INFORMATION SO RECEIVED BY ME.

CFS12-00 704 559 Lab ID: 12-00 2105

On Monday, 04 November 2013 at 1356 hours, I retrieved exhibit 374 from the Forensic Laboratory, Meriden, to include a Laboratory made exhibit '134 optical disks containing Report and Attachments' which is a report by the Lab.

I drove the exhibit to Western District Major Crime, Litchfield, and secured it in the Evidence Room at approximately 1609 hours.

Attachment
One 'Evidence Return' receipt from the lab

Action Taken:

On the date of 12-13-2012 I was assigned to a prisoner escort with Trooper First Class Cournoyer # 1315 through our assigned unit, Traffic Services Unit. The escort was from Corrigan-Radgowski Correctional Facility located in Montvile, Connecticut to Danbury, Connecticut Superior Court.

While en route to Danbury Superior Court I heard on the troop radio, Channel 1 Troop A, about an "Active Shooter" at Sandy Hook Elementary School Newtown. As the troop was putting this information over the air we were passing exit 11 on I-84.

Tfc. Cournoyer responded to the scene immediately as the call came over the air. I completed the escort to Danbury Superior Court and then respond to the scene from there. I informed the troop that I was responding and acknowledged when I signed off at the scene.

I entered the building to the left side utilizing the side door and started assisting with escorting children and adults out of the building. I re-entered and started with clearing classrooms that were located to the front of the school. The classrooms had adjoining doors and we were able to go from one classroom to the other. As we were clearing the rooms we came across the room which appeared the shooter was most active. It was requested by another trooper that was already in the room that I take some photos of the scene before he started to alter the scene in an attempt to find anyone that might still be alive. With my personal cell phone I took six (6) photos of the scene as the other trooper actively continued the search. I continued with the team to clear classrooms looking for children and adults that were hiding in different places throughout the school.

The following day, December 15, 2012, I met with the Western District Major Crime Team, Sgt. Jeffrey Covello # 167 at the scene of Sandy Hook Elementary School. Sgt. Covello took my personal cell phone and downloaded the photos onto his assigned laptop making additional files onto his

laptop, thumb drive and CDs.
The photos were logged into evidence by the Western District Major Crime Team as exhibit # 51 at 11:10 hours by Sgt. Cavello.

After the copies were verified to have copied successfully to his equipment my files on the cell phone were deleted and verified by Sgt. Covello. The photos are no longer available or retrievable on my personal cell phone.

BACK UP PHOTO REPORT

SCENE / EVIDENCE

ACTION TAKEN:

Beginning on Friday December 14, 2012 at approximately 1722hrs and concluding on Thursday December 20, 2012, a series of photographs were taken during the processing of the scene of a school shooting at the Sandy Hook Elementary School, located at 12 Dickenson Drive in the Town of Newtown CT. The investigation into this shooting was being conducted by the Connecticut State Police in conjunction with the Newtown Police Department and Federal Bureau of Investigation. Various additional local, state, and federal agencies assisted. These photographs were taken as back up to the primary photographs taken by Detective Walkley #589.

A total of one thousand, three hundred, and forty four (1,344) images were taken utilizing my departmentally issued Nikon digital SLR D300 programmable camera with attached Nikon Speed Light SB-910 electronic flash, utilized when needed. A Verbatim 4GB Compact flash card was used to store the images until they could be burned to a DVD-R in their original form. Original images are stored and remain on file at the CSP-Photo lab in Meriden CT.

End of supplemental report.

THE UNDERSIGNED, AN INVESTIGATOR HAVING BEEN DULY SWORN DEPOSES AND SAYS THAT: I AM THE WRITER OF THE ATTACHED POLICE REPORT PERTAININGTO THIS INCIDENT NUMBER.
